Messenger of Allah

The acts and confusion of the white man and especially England and America brings our attention to Daniel's vision of the world today (Daniel 2:31-46).

IN THIS vision of Daniel's, the image's head is gold, which represents the standard metal of worship. And the placing of this at the head and not at the feet gives us again a chance at the meaning and significance of Daniel's vision.

The head of gold and the breast of silver represents the two countries (England and her sterling and America and her gold). England's sterling pound and America's eleven or more billion dollars in gold made these two countries the head of the Nations of the earth. This was because of their great wealth of money, gold and silver which they hoped to use to sway the

Nations to bow to their biddings.

But, the fall of this great god of gold and silver and the maneuvering of power to be the instrument that caused the fall of the great statue of gold and silver (the world standard or medium of exchange held by England and America), came from Divine power and not from the Nations' power.

THE SMALL nations of Europe united after the sterling had fallen off the market to a weak point (about a third of the power and less than they previously exercised over the Nations of the near and far East).

When America was holding the bulk of the gold, she represented the head. But the smaller Nations, with France in the lead, captured the head of gold which is the most important part of the image or statue that Daniel saw. Nobody can travel or move without the head. When we lose the head we lose the body of silver and miry iron and clay, (referring to Daniel's vision).

The legs and feet of iron and clay represent the statue as being partly strong and partly weak. The weakness is in the legs and the feet when the legs and feet should be the strongest part of the body to support the head and body.

THIS STATUE began with the base (legs and feet) which represents how the gold and silver were built up. England and America got the head of gold and breast of silver from weak Nations, who were partly strong and partly weak: as James (in the Bible) 5:1 gives it very clearly. This is the real fall of the two powerful kingdoms (the robbery of the poor),

as it says in James' prophecy of gold being able to stand in the days of battle and war, to bribe nations; to support and stand against justice for the poor, who had been the instrument of labor to build and keep strong the image of gold and silver.

The American Black people who were brought into the country for the sole purpose of their labor to be used for the opening up of the new country called America, are no more needed for labor purposes. They are not even needed for any war purposes, because the modern agriculture labor is in machines and the conquering of Nations today is in scientifically - prepared arms of war that made the Black man (once slave of America) to lie around in trenches and bushes to help his master kill master's enemies.

ONE BOMBING plane could do more than a million ground soldiers in the way of fighting an enemy. But, injustice given the once slave is such that it is not matched by any past slavemaster in the history of slavery.

Even in the fall of ancient Babylon, ancient Egypt, none of these slave - holding ancient governments and states equaled the present evil of the modern masters

of America against the Black once slave. Even while the once Black slave flies to the help of his master at their beck and call to fight to destroy his enemies, the master is today, in America, armed to the teeth.

The government allows the white murderer of the Black American (the rapers) to come through the Black man's neighborhood night and day and destroy his morals and his life. At this very hour, eternal war against the Black man is planned as the Psalmist (Bible) prophesies that they plan to destroy the poor secretly.

ALL KINDS of evils are planned against the once loyal slave of America today; in the drugs, in food and the water that the slave eats and drinks, to destroy his increase of his nation,— making his woman unproductive, and turning her into the most disgraceful woman of the Nations with his indecent styles of dress.

He is doing nothing to show justice to his slaves even to leave him. He does not want any separation. He wants his slave to remain as a prey and continue to destroy him. He now fights a war against God's intention to redeem and deliver us (the once Black slaves of America).

Allah (God) is wise. He puts strength into the weak (iron mixed with miry clay) to hasten the fall of the head of gold and breast of silver by letting America spend all of her gold (according to the radio, newspapers and other announcements) down to a billion dollars and some say America does not own that much out of eleven billion dollars of gold bars in the Kentucky hills.

HER NATIONAL debt, her daily expenses to finance war all over the earth wherever it may start, is terrific.

The likeness has never been seen in the past — taking her gold head away and England's breast of sterling silver away from the statue. Therefore, the stone (England and America's Black slave) that the builders rejected is at the feet of this mighty statue of gold and silver being not gold and silver themselves, but rather iron that is much stronger than gold and silver, though they mire down in earth of miry clay. Yet, in it, there is strength to build the foundation for a strong nation.

So it is the prophecy throughout the Bible and the Holy Qur'an, that

which they thought was too weak is being strengthened for us and supported by The Divine Will and Power.

No metal is stronger than iron. No Nation is stronger than its poor people who support it. Without labor you have no government, the poor are the labor. England and

America have lost their God of gold and silver and the kingdom is falling and breaking up.

THEY ARE losing their labor (the Black slave), he is crying out for justice, and, according to James' (in the Bible) prophecy 5:4 this gold by right, of justice was due to the poor slave who labored down the fields of America and England. But it was spent and given away to nurse the lives against the day of battle and war to keep the poor, poor without being justified for their labor and life given to England, and America for the past 400 years.

So the God of justice is at work to see that the poor get the justice due them. So powerful worship of these two nations, (England and America) of gold and silver in abundance over smaller nations is falling and breaking up while the weak are increasing in durable strength like iron.

## What Produces The Filth.

Isaiah (7:27) O children of Adam, let not the devil ever seduce you, as he expelled your parents from the garden, pulling off from them their clothing might show them their shame. He surely sees as well as his hosts, from whence you see them. We have made the devils to be the friends who believe not.

It happened to the Black People who followed from Arabia. He pulled off, from their original clothes of Righteousness and the clothes to covet; and then made them to go nude in the cave-sides of Europe, until the birth of Moses. are warned.
