

Can Peace Be Found?

Can America Exist? Part III

By

**Elijah Muhammad
Messenger of Allah**

The continued existence of America in the way of government and power over people other than her own depends on the way she will continue to treat her once slaves (the Black people of America) due to the prophecy of the prophets of the Bible from Moses to Jesus and Muhammad.

THE PROPHETIC sayings of these prophets teach us that a coming show down between Allah (God) and the slave holders of His people (Blacks of America) must come to pass.

The time has arrived of this prophecy of a Defender coming to defend the prey (so-called Negro) who is held in bondage by the white slave holders who have deprived him of the knowledge of self, others, God, and His Religion and who have and are still mistreating the prey to the extent that the world is in sympathy with the prey for justice.

Now it is prophesied that a Just Ruler will come—and He has come—to set up a rule or kingdom under the law of Freedom, Justice, and Equality, which means a law of justice for a people who have lived under the law of injustice by unjust rulers. This must be fulfilled if the next government for the people universally is going to be under such a glorious rule of Freedom, Justice, and Equality.

It is natural that the old ruler will oppose a new ruler coming to remove him and his authority to rule the people. He will fight to keep his place and authority over the people. This is why Allah threatens His opponents with the final declaration of war that will

end the opponents' opposition to His law of righteousness.

I HAVE been writing in this paper (MUHAMMAD SPEAKS) for many years of the coming doom of the world of Christianity and mainly America, who is the root and the cause of this present Judgment of America.

The Judgment of America is due to the way that she has treated the so-called Negroes (Black people of America) for 400 years. The very hour in which I am writing, America is still mistreating her once slaves with the worst kind of treatment ever accorded human beings.

America practices the way of her fathers' treatment of the American so-called Negroes, under what she calls a law of freedom but this "freedom" is only in word—not in practice.

The slavemasters' children's blood, heart, and way of thinking toward the once slave is the same as their fathers'.

They find it so free to beat and kill the once slaves (so-called Negroes) at will, that they will continue this practice of mistreating and murdering the slaves, day and night, because there is no law of justice for the Black Man of America, who was the property of the fathers of America's white citizens.

America never thinks in terms of being equally punished for the wrong done to a so-called Negro.

THE BIBLE'S parable of Baal riding the donkey must be remembered. When the angel went to settle the unjust mistreatment of the donkey by Baal, the angel found Baal still beating and forcing the donkey to carry him, right in the presence of the visiting

angel, who was carrying a sword to bring about justice between the two. TO BE CONTINUED.
