CIVIL RIGHTS SEEKERS, UNITE

For several years The Messenger of Allah has urged civil rights leaders to join the Nation of Islam. He has warned them of the pitfalls of the civil rights movement and the errors they were fated to make if they limited their movement to a dependence on the non-existent good-heartedness of White America.

Today, over four years after the following article was written, many Black people, old and young alike, have left the civil rights camp and accepted Islam.

The Honorable Elijah Muhammad is building the unity of the Black man and woman in America, and he is doing it without urging Black women to accept the humiliations, and even assaults, to which they were subjected by the teachings of civil rights leaders. Nor does The Messenger advise Black men to beg the white man to show a 'liberal' spirit towards Black people.

The unity of Islam is mightier than the dreams of civil rights leaders. Today, while former civil rights leaders are saying, 'The civil rights movement is dead,' Islam is taking firm root in the hearts and minds of Black people in America and throughout the world.

The civil rights groups of America continue to pursue their course of seeking civil rights, which will be short-lived and will not get them into the proper place that Allah (God) would like them to have.

WE ARE A long way behind in requesting equality or equal recognition by our enemies, which they may be willing to give us, after awhile. Some are ready now, but that will be short-lived. This is the

end of American white rule over the Black man — not only here in America, but throughout the earth.

The Black, Brown and Yellow peoples of the earth are forming dislike and anger and don't want to go any further with the white man's evil way of dividing Black man against Black man in order to rule us all.

WE ARE ALL in the same boat. Why shouldn't we row the boat together to our desired haven of freedom, justice and equality, under the divine guidance of Allah?

If the civil righters would change their minds and join with the Muslims, the opposition that they face, the humiliation and deceit coming from the white man would end. But, being blind to the knowledge of the time and what must be done in the time is forcing the civil rights leaders to act very foolishly and demand temporary enjoyment with the enemy of the Black man.

YOU SHOULD not want to be a member of his society. Soon you

will regret trying to be a member of his society.

This is Armageddon that we are living in. This is the end of the rule of white people over Black people. It is the doom of these people. The call of Islam today is to the American darker people — for the first time. The truth that has been revealed to me by Allah (God), about these people (white) and His plan to destroy them, should make you to fly to Allah.

YOUR shunning the acceptance of Islam for the favoritism of the enemy will get you hell with the enemy. This war, as I have said, is the war of Armageddon, or the Holy War (the modern name given to it), that you have been reading about in the Bible. It is bound to end with the destruction of the power of the European people over the darker people. Regardless of their mighty military setup, they will not be able to win against Allah (God).

Everyone of you can see the importance of uniting in Islam with Muslims, because of the recognition and the acceptance by our people of a Muslim. Never

rogram.

WITH MUSLIMS!

before have we had anything like brotherly love or respect from our people abroad — from Africa and Asia — until we accepted Islam.

THIS YOU CAN see today — that Africa and Asia do not want you as a member of their people as long as you cling to the cross. They do not want Christian people among them any more, nor Negroes from America, if the Black man in America believes in the white man's Christianity.

Christianity enslaved our fathers. The American Black man can never join onto his own kind and be respected as a member of his own kind as long as he is in Christianity. This, you can see today in the converting of our people into the religion of Islam. This is a thing that you must do in order to see the Hereafter.

YOU CANNOT be joined onto your own kind under the white mans Christianity. Let's show the world that we can unite. The thing that the white man hates the most today is seeing us wake up to the knowledge of ourselves and join onto our own — that which is our

own nation and the religion of Islam.

You say that you do not want any religion. How are you going to remain on this planet earth if you do not accept the new change that is coming? It is not a wicked world that is coming in. It is a righteous world. You have to be righteous, or else be destroyed with the unrighteous.

YOU CANNOT reform white people and make them righteous, because it is not their nature to be righteous. They were made evil by nature. They were made haters and enemies of you and me.

Civil righters are right when they are seeking rights among their own and not seeking to become members of a people who are now
