

# DESTRUCTION OF AMERICA'S

# EDUCATION!

THE PLAGUE of Allah (God) Against the educational system of America is something that the philosophers and scientists should look into, as the DESTRUCTION OF AMERICA'S EDUCATION is the destruction of their wisdom to educate the people.

THERE are many who look on the destruction without taking a second thought of the DESTRUCTION OF AMERICA'S EDUCATION. Education is a guide for the people to keep and maintain a civilized life. It is education that civilizes us. Now to see the citizens of America rebelling against the American Educational System, is something that the wise of the wise should take thought of.

THE AMERICAN PEOPLE actually have come to the point where they hate their own educational system. This means that they are now hating and destroying their civilization, because it is education that civilizes people.

THE AMERICAN PEOPLE no longer want their education and they are destroying the very houses that house their text books of education. They are rebelling against their

teachers who teach education. They are fighting their teachers and then they set their houses on fire—schools, colleges and universities. This means in words, as I have said above, that they are destroying their own civilization.

THE BLACK PEOPLE of today who are blindly helping the white people to destroy this civilization, are like Samson was in his day and time, he helped to pull the building down but he was blind to the effect of the destruction of the building. All Samson wanted to do was to get even with his mockers, who had put out his eyes and who laughed at him. Samson did not care whether there would be a civilization left behind him or not. He was willing to die, blind to the knowledge of the future of his people and those people he was destroying.

THROUGHOUT AMERICA, her colleges, her universities and her teachers are in danger. The students no longer want old world guidance. It is a new world that they want. But in their mad destruction of the old world they do not know how to prepare for a new world civilization. They do not have guidance for a new

*In the Name of Allah, the Beneficent the Merciful, Master Fard Muhammad, to Whom all Praise is Due:*

*We have a right to give all Holy Praises continually to Allah for His Divine Messenger Muhammad and His Divine Message.*

*We can see that in Messenger Muhammad we the Black people have a complete Divine Guide. For we can see, in our constant review of his teachings that Messenger Muhammad has guidance for us in all areas of our life. He is prepared to be our Divine Leader, teacher and guide.*

*This week's article was written by Messenger Muhammad some years ago, but as we review the news of what is happening today, we find that Messenger Muhammad has the answer to our problem even in this area of education.*

*In all of the education that we have received in the public schools, we can bear*

*witness that we never received an education that will benefit us, the Blackman in America. Therefore, we bear witness that we must be re-educated in order to build a civilization for ourselves under the Divine Guidance of Messenger Muhammad, given to Him especially for us the Black people in America.*

*Let us learn from what Messenger Muhammad is teaching us in this article as in all of his articles, and let us put his Divine teachings into practice, and receive from him the Divine Wisdom from Allah which will educate us and civilize us and put us on top.*

*Why should we continue to hold on to that which is decaying (the old world) when we are given a Divine Opportunity for new life in the new world of righteousness?*

civilization and in their madness they refuse to hear a teacher teaching of an educational system of a better civilization... the civilization of the Black Man.

THE WISDOM of the educational system of the ab-original Black Man of the earth, has never been known to this world, because the Black Man was put to sleep in order to let this world, (white man) try itself at ruling. Now the rule of this world has been found to be dissatisfying and the dissatisfaction is

100 per cent.

ALLAH (God) Has Come to Take Over and to Guide another people into setting up a better educational system for the people of whom He Himself is the Head. And we all get Guidance From Him, as Daniel said in his prophesy, 'God will set up a Kingdom and He Will Not Leave it into the hands of others, but He Himself Will Guide it.' But first He Must Remove all the rubbish of this white man's world educational system. He Discards America's educational

system, as we discard rubbish to be burned up.

THE BLACK MAN who hears the teachings of Islam feels proud that he has been taught something that he has wished for all of his life. But the average Black Man that hears, does not accept it as he should. He accepts it in such way that he can be criticized and mocked, for he wants to take a piece of it, as he has done in the past and he runs away with it claiming that he knows this. He will try to set up something of his own from a few words of it. This throws the Black Man behind. They do this through envy, jealousy, and proudness on the part of the person. This is the way the Black Man of America is divided. The devil knows that the Black Man is proud and envious. The white man helps him to be this way so that the Black Man will never get any place towards self, if the Black Man takes such steps to divide himself up. LOOK HOW THE DEVIL is teaching our people division now.

THE DESTRUCTION OF AMERICA'S EDUCATIONAL system is the best thing that Allah (God) could do to get rid of that which you depend on for guidance. America's

educational system has never benefitted you and me, only to keep us slaves to the white man. We the Black People want an educational system that will bring us into unity as a Man before Allah (God). We want an educational system that we can read such in the light of ancient and modern history. We want an educational system that will guide us through tomorrow—not an educational system that is dying today. What hope can you have in a world that is crashing and bursting asunder as America is? Do you think that we will be here and that you will go back like you were before the war? I say you wait and see.
