MUHAMMAD SPEAKS

3

ENGLAND AND AMERICA

By Elijah Muhammad
Messenger of Allah

England and America constitute the vision and power of the white race. But, that vision and power is now confused by the intervention of the Divine Supreme Being.

The Divine Supreme Being is causing their final plunge and fall to never rise again.

THE NEW President Elect to office is a Republican. This government is divided into two great political parties (Republican and Democrat).

The President-Elect may accept going along with the outgoing party and he may not.

Whatever part he takes of the outgoing party will prove his worth of foresight or vision for the good of the American people's future.

At the present time both visions of the parties (Republican and Democrat) can destroy the future of America, if wise and careful maneuvering is not carried into the present chaotic condition of England and America and especially America.

The majority of the citizens of America want some kind of peace and that peace is not forseen in the movements of the government in Washington, unless the newly elected government takes steps to assure the powers of Asia, who have been attacked and their peace upset to the degree of anger, that a continuation of this antagonistic anger will bring an early total fall and destruction of the powers of England and America over the Black and colored races of the earth.

The old world (Asia) will not bow to the West for peace. If peace is to be had, it will have to come from the West, who started the trouble that has put the nations of the earth in the present condition (without peace).

AMERICA has not been attacked by

foreign powers within her country since her war with England and France. But, today she is threatened with retaliation from the whole world out of the Western Hemisphere and even within the Western Hemisphere to destroy her for her own attacks made upon foreign powers. And, within their domains England and America hold tight millions of Black people (so-called Negroes) — in South and Central America as well as America as a whole.

In the continental America, she has the old ancient settlers—about two million of them (the Red Indians) who have been charging America with annihilating their people and putting them in the desert to starve to death on small care from the government, for their land (continental America) that was taken from them over 400 years ago.

They are a thorn along with the Black Man, in the political maneuvering and future of America. The Black Man who was deceived and kidnapped by force from his native land and people is the main threatening problem of destruction of America within. It is not the Black once slave who is threatening the solution of the problem with justice. It is their God, Allah, Who is threatening white America and England. Allah Has Come to give the once Black slave justice, if it is at the cost of total destruction of the whole Western Hemisphere and its people.

IT IS THE Divine charge against England and America and their mistreatment of their Black slaves that is causing England's and America's total fall and destruction. Therefore peace is all but hopeless for the two countries and people, if right maneuvering is not carried out by the newly elected party (Republican).

There is such a narrow chance for peace coming to England and America that only a new party could check the fall, if the new party takes the right

Mr. Muhammad

steps.

It may prove fatal to save face sometimes, if the right steps are not taken.

When it comes to the poor oppressed so-called Negro (the Lost and Found Black people in America) in all of these troublesome times and political destruction of the Nations, you should be thinking sanely and taking sane steps towards a future for self with your God, for only God can save the Black Man from the fall and destruction of the slave holders.

What I have said in this article and what I have been saying in this paper (the MUHAMMAD SPEAKS) is that which I have received from Allah (God), Who Came in the Person of Master Fard Muhammad, to Whom Praises are due forever. Take it or leave it.
