

THE TRUTH OF THE TIMES!

In the Name of Allah, Master Fard Muhammad, to Whom Praises are Due Forever:

THE TRUTH AND THE TIME is another powerful and authoritative article written by Messenger Muhammad and, we proudly reprint it from the Jan. 6, 1967 issue of Muhammad Speaks newspaper.

As Messenger Muhammad taught us in this article "Time brings about changes. Time brings us into new fields of knowledge... Knowledge is to know." How wonderful is the gift of wisdom, knowledge and understanding. We thank Allah for His Divine Messenger Muhammad, and His Divine Message.

Look and listen to the television hearings, showing every conceivable act that can be performed by a powerful and corrupt people, bearing witness that Messenger Muhammad is teaching us the truth of this people whom we, the Black people, have blindly followed and obeyed and served for 400 years.

It is all open for us to see. There is no excuse for us to claim that we are ignorant. Allah (God) is truly making manifest to us this people.

With this knowledge of them it is time—as Messenger Muhammad teaches us, and we bear witness—it is time for we the Black people to separate from this strange people and join on to our own kind under a government of Freedom, Justice and Equality.

A government that we the Black people have never known until the Coming of Allah in the Person of Master Fard Muhammad, to Whom Praises are due forever, Who found and taught and prepared for us, to follow in this day, our Divine Messenger Muhammad.

Hurry, let us the Black people unite and join onto our own Holy Nation, Islam, and be ourselves. All Praises are Due to Allah for His Divine Messenger Muhammad, and His Divine Message.

By Elijah Muhammad
Messenger of Allah

Time brings about changes. It brings us into new fields of knowledge. Today, we have lived under an adverse condition or world. A world which is foreign to the very nature in which we were created.

TIME NOW takes away the old adverse world and is bringing in a new world. A new idea is being born

into the people whom God intends to build the new world out of.

Time, a limited time was set upon the adverse world. That time has now come to pass so that the Nations of the righteous can unite and build a government of truth, peace, justice and righteousness.

The 400 years in which we have been obedient servants to the white race of America (the enemies of God and the righteous)—the time of 400 years that we have been serving them has given us knowledge and experience of a life which has been devoid of good for us.

KNOWLEDGE is 'to know!' We now know that this people whom God has made manifest today, and is still making manifest to the whole world of humanity are the enemies of us and God.

Their works testify to the world that there is no good in them. It was not put in them by nature, as God has revealed to us. The white race's works justify the truth of God that they are a race of devils.

For God did not teach us merely the surface of their history. He taught us the root of their history and how they were made. They were grafted from the Black man into the last stage, completely out of that from which they were grafted and made a new people altogether.

They have new ideas which are foreign to us and to our kind.

SINCE THEY are a people which the God of truth, justice and righteousness—Coming in the last days—did not make, He will not accept them in His Kingdom or Heaven of righteousness and truth, unless their nature would be changed back into that from which they were taken.

Knowledge—we must have a thorough knowledge of this people, ourselves and of God. We are now getting out of this people (the white race). You and me are a foundation for His new world, or the Kingdom of Heaven on Earth.

Since 100 years up from slavery, the slavemaster's children have opened the doors of their education and their churches to us.

Doors are wide open to us to learn Christianity. But their way is to deceive us under a falsified religious teaching.

With the coming of God in the Person of Master Fard Muhammad—To Whom praise is due forever—He has inspired us to seek and to believe in that of our own which was justice and righteousness by nature (Muslim).

After we have learned letters and spiritual understanding of God and knowledge of the devil, we want leave of the enemy of ourselves, our God and the people of the Nation of whom we are members.

WE WANT equality with the civilizations of the earth—not with the enemies of our kind and of our God. This spirit of learning justifies

The Honorable Elijah Muhammad
Messenger of Allah

our act today of trying to better ourselves, both physically and mentally.

We want better environments. Some of us go after it in the wrong way. We cannot force our presence upon those who have destroyed us and made us abject to the civilized Nations of the earth.

And now the student wants what his teacher has!
