Charity: Black Studies 2

As I sat, listening to the woman talk, a roach raced across the table. She did not notice, I tried to ignore it, but it rushed straight for my attache case, which was leaning against a table leg.

When I got up, I shook the small case, trying not to look too obvious, yet worrying about the roach, all the way down the stairs, until I got to the front steps.

As I opened the door and stepped out onto the front steps, I could see that the radio station was in full command of the four teen-age girls who were no longer standing. They had been animated by the sounds and were seriously engaging in doing the "bump" — a modern "soul" dance which permits no dignity, modesty, nor even shame while performing its limber motions.

Charles G. X
EDITOR

Unhappily, I was not leaving a teeming housing project, nor a festering tenement slum. No, I was leaving South Shore High School's ultra - modern campus with carpeted halls, space-age architecture, and probably the best photography program in the entire Chicago city school system.

And yet, the shiftless and motley appearance of the building, and the contemptuous, disrespectful "pimp mentality" of many of the students — dancing on the front steps, during just the second week of school, and in the middle of a class hour at that — told me something profound about the state of the American educational system.

Education in America is a multi-billion dollar industry which has failed so miserably that it is a disgrace for any intelligent person to positively apply the term "education" to what goes on — particularly for Blacks — in American schools.

In 1972 alone, more than \$86.1 billion were spent on public and private schools for "education." That's enough money to fill up 86 railroad box cars, with nothing but crisp, new \$1,000 bills.

The shocking truth of the matter is that in American public schools, according to a recent report on National Public Radio (NPR): by the time students are just in the fourth grade, 33 per cent of all the boys, and 25 per cent of all the girls have already smoked cigarettes.

By high school, 67 per cent of all boys have smoked, 42 per cent are regular smokers, and 23 per cent smoke one half a pack of cigarettes (or more) per day.

Little wonder that elaborate "protection" rings have come to the attention of concerned educators. With the price of everything going up, "enterprising" student criminals can be expected to come up with much more, including — and even beyond — narcotics and prostitution.

I can remember, back in the 1960's in Los Angeles, at John C. Fremont High School there was a small time "protection" scheme which extorted money from whomever would pay, to line the pockets of a small band of thuggish rowdies, who, beyond question of doubt, lacked any essential knowledge of self, kind, or others.

Yet and still, American public schools — particularly in Black communities — are simply "holding" institutions which serve to control the daily behaviour of the tens of millions of Black students, while frustrating them, and killing the spirit of self-worth, self-pride, self-esteem, and self-respect, among them.

For the most part public school teachers are not professionals. They are primarily products of an unconcerned public school system themselves.

Teachers — now represented most ardently by unions — are more interested in the development of a "heavier" paycheck for themselves, than in the development of "heavier" minds in the students they claim to serve.

Chicago public schools — which are typical of the best and the worst of everything in school systems everywhere — have full time school teachers who have part-time jobs as popular rhythm and blues singing groups, dope pushers, models, actors, and everything else one can imagine.

But there is one school system — which stretches the length and breadth of the United States, from New England to California, from Georgia to Wisconsin — which is not plagued by these crippling problems of neglected, wasted human potential. That school system, founded in the 1930's by the Honorable Elijah Muhammad, Messenger of Allah, is called the Muhammad University of Islam.

And today, as surely as those sinister men plotted the destruction of the humble Muhammad University of Islam over

"THAT'S FUNNY — I DONT FEEL SICK"

Middle East Report

The call for "global strategy for food and energy" by United States President Gerald R. Ford in his first speech to the United Nations General Assembly seems to be designed to intimidate the Arab countries and to drive a wedge between them and other developing nations.

by Ali Baghdadi

BY LINKING the food and energy questions politically, the U.S. President appeared to intend to put great pressure on the oil producing states—a move which serves only the wealthy and greedy industrialized Western nations.

The fact which President Ford seems to ignore is that any objective comparison between the increase in the price of crude oil and price increases for other urgently needed basic materials shows that the present price of crude oil is more than reasonable.

Mr. Ford probably knows that the price of a barrel of Oklahoma crude oil in 1920 was \$5.25. Taking into consideration the purchasing power of such a sum in 1920, it is clear that an equivalent sum today would be about \$20 or even more.

THE DEVELOPING NATIONS which own the raw materials have been robbed by the developed nations for centuries. They obliged the poor nations to sell their wealth at low miserable prices. The theft of raw materials by the colonial powers is the main cause of poverty and underdevelopment from which Asia, Africa and South America continue to suffer.

The material progress and economic boom seen in the West was achieved mainly at the expense of the so-called underdeveloped nations.

Mr. Ford has failed to tell the U.N. members that, even today, for every barrel of oil extracted, the producing countries receive less than half the costs that the consumer pays.

THE MONEY CHARGED by the U.S. oil companies for transportation, refining and marketing is enormous. The U.S. President could have done more service to the world by asking the U.S. multi-national corporations to lower their skyrocketing profits.

A year ago, these corporations made one-half dollar profit on each barrel; today however, the profit has jumped to \$4.

Mr. Ford knows that these astronomical profits are not used to develop the underdeveloped but the developed countries. He also knows from the U.N. records and the intelligence information available to him, that the gap between developed and underdeveloped nations is increasing.

The rich are getting richer and the poor are getting poorer. The reason for this unfortunate phenomenon is not the genius, hard work or sacrifice of the people in the West, but the exploitative economic policies of the Western nations.

THE WORLD COMMUNITY cannot be deceived by the U.S. President's rhetoric. The developed and developing nations know that the prices of industrial goods and agricultural commodities and foodstuffs have risen far greater in proportion to the cost of energy. The underdeveloped nations were able to buy more goods and obtain more services with the \$2.14 they received for a barrel of oil in 1947 than the posted price of \$12 will buy now.

Why is there a sudden show of concern for hungry nations? What did the U.S. do for the 100,000 people who recently died in Ethiopia alone, due to starvation?

(Continued on page 2)

Let us build our own house

By Margary Hassain

IN THE NAME of Allah, Master Fard Muhammad, to whom Praises are due forever, for His Divine Messenger Muhammad and His Divine Message: "LET US BUILD OUR OWN HOUSE."

Allah, Master Fard Muhammad, raised up His Messenger Muhammad to warn us that we have been living in a wicked house, a house doomed to fall. And now, we are witnessing the fall of every part of the house. It is crumbling into ruins before our very eyes.

Messenger Muhammad taught us that Allah would bring one calamity after another on this house until it had fallen to rise no more; and we are witnessing the truth of which MUHAMMAD teaches us.

The Holy Qur'an reminds us of other peoples in other places that Allah destroyed and which have never been rebuilt, and asks the question, "Do you not see?"

MESSENGER MUHAMMAD teaches us the truth of this time and this people, the people of America, the children of our once slave-masters.

WE ARE WITNESSING the crumbling of her educational system, the plauging of her land, crops, and cattle by the HAND OF ALLAH (God) through His Divine weapons of heavy rains, unpredictable and extremes of weather, and drought.

The news media tells us that drought extends even into the deserts of Africa and of Arabia. The news media tells us that the Nomads of the desert were once a proud, wandering, and independent people. They are now forced into a narrow place in Africa, where they are beggars stripped of their independence, and existing from day to day by handouts from food relief trucks from America.

The news reports tell us millions of those people will die because America is barely able to feed the people of America, and America will not be able to feed her own people for very long.

AMERICA IS TELLING US of her troubles at home. Cattle and other meat is dying on the range. Corn and wheat crops, the main food staples, have been struck by the HAND OF ALLAH. The horrible face of famine is raising itself on the near horizon as Messenger Muhammad told us it would do.

To be continued

WARNING

To you Innocent People who willingly give your money to strangers soliciting money for hospitals and other drives that we have.

Your money falls into the hands of enemies and hypocrites that take your cash money and use it for themselves. So, I think you should be careful about who you give your money to.

Some of them will make out false cards — pay no attention to it because we have not made out any cards to give to the public. Don't give your money like that.

Go to the Temple (the nearby Temple of ours) and give your money to the secretary there and get a receipt from him or her.

"Dedicated to Freedom, Justice, and Equality for the so-called Negro. The Earth Belongs to Allah."

You & Your Health

by

Dr. Michael X. Bush

M.D., Nashville, Tenn.

"Doctor, what are hemorrhoids and what causes them?" Without a doubt this question is asked to doctors by concerned patients hundreds of times a day in hospitals, clinics, and offices throughout the country — and understandably so.

Hemorrhoids — or "piles" as they are sometimes called — are a disorder affecting large numbers of both men and women causing many untold hours of quiet suffering to its victim. Many persons tolerate needless pain and discomfort from hemorrhoids because they feel this condition is personal or too embarrassing to bring to the doctor's attention.

Sometimes patients unwisely decide to endure the minor pain, or they may often resort to self-treatment, choosing one of the myriads of widely advertised commercial products: some promising immediate relief or miraculous cures.

"Yes doctor, but what are they?" Hemorrhoids are simply varicose veins of the rectum. Just as the large dilated veins are visible on a person's legs with varicosities, a similar

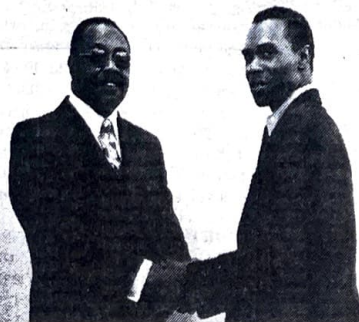

condition exists in the rectum although the veins there are not visible.

The similarity goes further for just as leg varicosities cause swelling pain and occasionally clot formation (thrombosis), the dilated rectal veins may do likewise. There is a greater tendency for clots to form inside any dilated vessel where blood flow is sluggish and not streamlined.

A thrombosed hemorrhoid, as this condition is called, is very painful due to swelling and distension of the surrounding tissues. This condition responds poorly to simple pain relieving medication. It usually requires the physician to make a small incision in the rectum and evacuate the clot.

In addition to pain, other symptoms of hemorrhoids include itching, bleeding, or protrusion of the hemorrhoids. Hemorrhoids are usually brought on by straining during evacuation or chronic constipation. Both conditions are common in pregnancy and explain why hemorrhoids occur frequently during that period; however, they clear up soon after delivery.

NATION OF ISLAM'S National Secretary, Abass Rassoull (left) who delivered the keynote address at the Roxbury, Mass. Medical-Technical Institute's fourth annual banquet, congratulates Vernard Harrston, a \$1,000 donor to Muhammad's Hospital Drive.

The Crescent

By Sis. Sharolyn X
Instructress

Muhammad University of Islam No. 2

What do you see when you look upon the National Flag of Islam? Very prominent on the Flag is the Crescent; and what a beautiful sign this is to have been placed by Allah on our National!

The new moon can represent to us a sure promise of greater things to come; for the new moon is a "growing" moon, not a declining one. Then the promise is of growth and maturity, for the new moon "grows" into the glorious full moon, as it has done for trillions of years.

In cities, where the lights are bright and the buildings tall, it may seem that the heavenly bodies are dimmed. The city dwellers, in their haste, may even forget to look up.

The moon, nevertheless, appears in each phase on time, and makes its circuit in tune with the Laws of Allah. This phenomenon is no less appreciated by those who observe it, simply because it is not observed by others.

The Nation of Islam has come on the scene after the Dark Ages of 400 years of physical and mental slavery and abuse of the so-called Negro. Some would want to pretend that the Nation of Islam is not the only alternative for Black people today. Some would like to blot out the words and works of Messenger Muhammad. They cannot be successful.

Many of our people are very lazy. They want all of the glory, but none of the struggle. They shirk from duty and wish they had no trials. They want only to live in the full moon of glory of the Nation of Islam.

Some want to wait until the Nation can match the accomplishments of the white man before they will even accept their own. They do not consider that America has had 200 years to build its civilization; the Nation of Islam has had only about 40 years. Moreover, whatever the white man has is not ours; we must have our own.

If all Black people would join Messenger Muhammad, and if those in the Nation would put forth a greater effort, we could immediately exceed, in every aspect, all the achievements of the white man. In fact, if one had the understanding he could see that Messenger Muhammad has already done this by just the act of raising the dead, the so-called Negro.

Messenger Muhammad has the key to our success as given to Him by Allah, God in Person, Master Fard Muhammad. America can never regain her glory, a glory based upon individualism, exploitation, and unrighteousness.

We should thank Allah for allowing us to see these times, terrible though they may seem. We should have our small part in the fulfillment of the prophecies in the prophecies in the day of the Crescent of Islam. For the new moon is as beautiful as the full moon, just as the rising sun at dawn is as beautiful as the noonday sun at midday.

If one begins his watch in the early stages, he can watch the natural stages of development and more fully appreciate the latter stages.

May Allah bless the Messenger to speedily find many followers who will help the Nation of Islam fulfill the promise of the Crescent moon.

N.Y. Governor proclaims 'Black Family Day'

Messenger Muhammad's brothers head long dignitary list

By Joe Walker
(M.S. New York Bureau)

NEW YORK — Governor Malcolm Wilson proclaimed last Sept. 15 as "Black Family Day" throughout the entire Empire State marking an official tribute to the influence of the Honorable Elijah Muhammad's teaching on the East Coast and across North America.

GOV. WILSON signed the proclamation in his executive chamber in the state capital of Albany, N.Y. The historic document stated, in part: "Thousands of men, women and children of the Empire

State's Black community will gather at Downing Stadium to celebrate the event, the theme of which is 'Respect...Love...Responsibility.'

HONORED GUESTS at the day-long Black Family event included brothers of the Honorable Elijah Muhammad — Ministers John Muhammad and Johnny Muhammad, both who made brief remarks. Min. Wali Muhammad of Columbus, Ohio and other members of the Messenger of Allah's family were also in attendance.

Among the visiting out-of-town Temple of Islam ministers were Min. Byron X who heads Muhammad's

Temple on the island of Bermuda (the first outside the U.S.); Min. James Shabazz Jr. of Newark; Min. Michael X of Lansing, Mich.; Min. Louis Omar of Baltimore, Md.; and Min. Donald Shabazz of Grand Rapids, Mich.

United Nations diplomats from Barbados, Guinea-Bissau, Haiti, Kuwait, Jamaica, Jordan, Liberia, Libya, Morocco, Nigeria, Palestine, Panama, Peru, Sudan, Trinidad and Tobago, Turkey, Uganda and Zaire were present.

Football great and movie star Jim Brown attended Black

Family Day and was introduced, as were Rep. Charles Rangel of Harlem, chairman of the Congressional Black Caucus; Manhattan Borough Pres. Percy Sutton; Basil Patterson, vice-chairman of the National Democratic Party; and Dr. Don Shirley, famous pianist and scholar.

BLACK FAMILY DAY, Part II, was a sequel to an earlier overwhelmingly successful Black Family Day Bazaar, which drew 70,000 people to Randall's Island last May 27 to view products of 551 Black businessmen and displays by 14 foreign governments.

Particularly significant about Black Family Day was the large number of Latin families that came out. Incidentally, a Muhammad's Temple of Islam in East Harlem (El Barrio) is winning increasing numbers of Puerto Ricans and other Hispanics to the teachings of the Honorable Elijah Muhammad.

"I came to hear Palmieri, Machito and Celia Cruz," said Carmen Hernandez, "but I was really moved and motivated by Minister Farrakhan and his message about unity for all Black people — here, in Puerto Rico the West Indies and South America."

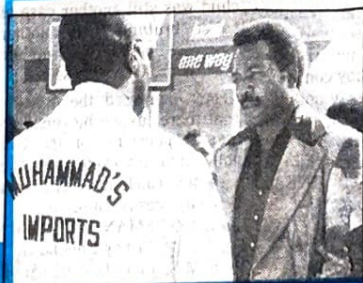

35,000 attend N.Y. Muslim rally

Raise your hand if you believe Muhammad is TRUE leader for Black people.

Film star Jim Brown: Honor and respect, to Messenger Muhammad.

'Crucial times!' Farrakhan warns intellectuals

By Joe Walker
(M.S. New York Bureau)

NEW YORK — It was a beautiful day with a sunny sky for Black Family Day, Part II, Sept. 15, sponsored by Muhammad's local Temples of Islam. In the afternoon, musicians performed; but also it was a time of sober, reflective contemplation and concentration on the survival and future of the Black family.

RECEIVING THE rapt attention of a crowd of more than 35,000, Minister Louis Farrakhan, National Representative of the Honorable Elijah Muhammad, poured out the wisdom of the Messenger.

"We live at a most crucial time in the history of the

world," asserted Min. Farrakhan. "Messenger Elijah Muhammad is teaching us that the world we now know — the world of the white people, the Western world — is now in the throes of death."

THE FALL, or change-over of governments during the last year in the United States, Britain, France, West Germany, Portugal, Greece and Canada was cited by Min. Farrakhan who said that "time has caught up with every colonial and imperialist power in the world."

Also, drought and changes in weather in the U.S. have played havoc with the wheat, corn and soybean crops. Add to this the U.S. need for oil which today necessitates dealing

with the Arabs, something that North Americans dislike because they have in the past "made mockery of the Arabs and their great religion of Islam."

IT HAS BEEN recently reported that the whole Western world and its monetary system is in danger of total collapse and hence Western governments and corporations are seeking Arab investments to prop up their monetary system.

"**EVERY LEADER** of Black people has a growing responsibility to keep pace with the onward movement of people and their needs." He pointed to Nkrumah in Ghana and Sukarno in Indonesia as "great men who brought

people to freedom" but who failed to lead their people out of poverty.

"But I warn you, Black brother — in the Name of Allah and His Messenger," addressing his remarks to the United Nations diplomats present at Black Family Day — "while you sit in the halls of the U.N.; while you dance at parties with white women; while you talk of your Rolls Royce and your Mercedes-Benz and your villa by the sea; remember your people at home in the hills and the countryside — poor and ragged, naked and out-of-doors — are looking to you to give them justice, and what white people have deprived them of."

HE URGED intellectuals in the Black community to use their knowledge to help the governments of the Black people of the world "to achieve true liberation for the poor and un-privileged."

Min. Farrakhan labeled the Honorable Elijah Muhammad as "the Father of the Black family," who is the Messenger of Allah to all — not just to the Black man in America, but God's Messenger to the Black man throughout the world.

"In 43 years, the Honorable Elijah Muhammad has taken us from disunited haters of self and made us lovers of one another. He is cleaning up and dignifying the Black man like no man you have ever seen," said Min. Farrakhan.

Policeman kills N.Y. teen-ager

Community outraged over police abusive force

By Joe Walker
M.S. New York Bureau

BROOKLYN, N.Y. — Another Black child is dead, killed by a white city cop. Claude Reese Jr., was buried Sept. 18. He was killed by police officer Frank Bosco, 24, claimed that he thought the 14-year-old youth was a burglar with a dangerous weapon. This, however, was disputed by eye witnesses.

CLAUDE AND four of his friends were cleaning a dimly-lit (one low-watt light bulb provided the only light) basement storage room on the evening of Sept. 15 in preparation for a surprise sweet-sixteen party for a neighborhood friend when two white cops (Bosco and Arnold Tamaroff) burst in.

The youngsters started to run out another exit, leading up a flight of five cement stairs to a courtyard between two buildings. All but Claude made it. Cop Bosco fired one shot that hit Reese who later died in the hospital.

EYEWITNESS Robert McCrae, who lives next door saw the slaughter from his second story rear window overlooking the courtyard: "I was looking out the window and I saw a little boy come out and the cop didn't say nothing just fired at him, shot him in the back of the head. The cop was about five feet from him."

ANOTHER EYE WITNESS, Mrs. Frances Blount saw the killing from the second floor directly over the cellar door: "He (cop Bosco) shot the boy in the head at point blank range."

All accounts, from the four other youths with Claude in the basement and from other witnesses with apartments surrounding the courtyard, indicate that the two cops never identified themselves.

Also, all the children and neighborhood witnesses insist that Claude had "nothing but

skin" in his hand when he was shot. Cop Bosco claims the slain youth had threatened him with what he believed was a gun or a knife.

Claude Reese Sr., the slain youth's father, called it murder and commented, "I feel that he (cop Bosco) should be punished like anybody else is punished when they commit a murder..."

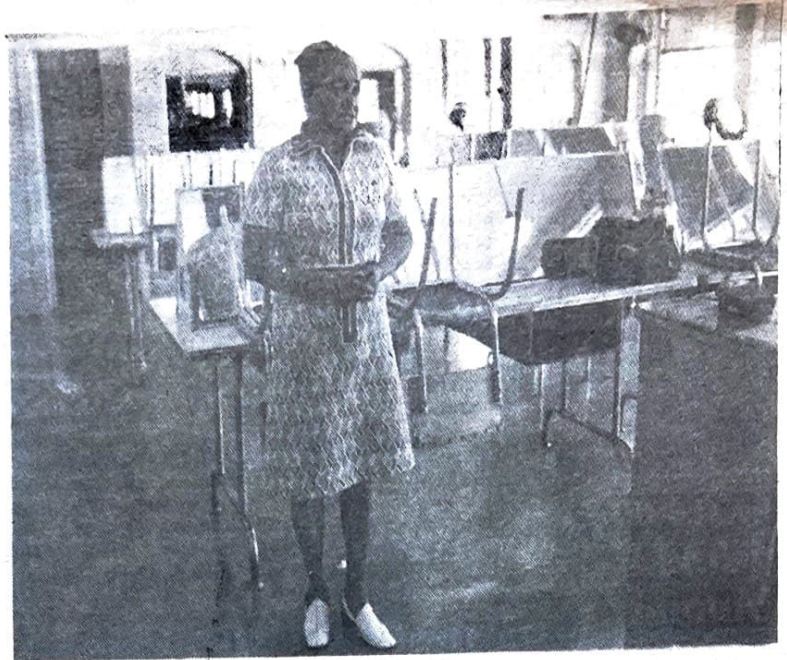

Demonstrations in front of the 73rd Precinct station at East New York Avenue and Rockaway Avenue and a march of thousands preceding the funeral of Claude Jr. called for an investigation of the slaying and the suspension of the cops involved. Some sporadic street disorders have also taken place in the upset Black community of Brownsville/Brooklyn.

SEVERAL OF Claude's schoolmates and neighbors described the youngster as a serious student who never got into trouble, friendly and well-mannered. Many Black residents of his community told Muhammad Speaks that the fatal shooting of the Reese child was still another case of police brutality and another attempted police cover-up like the Clifford Glover case.

They expressed the demand that more justice be rendered than suspensions for the two policemen involved, and the view that random use of deadly force by cops is not justified.

A SPOKESMAN for Brooklyn District Attorney Eugene Gold told M.S. that the findings of his investigation of the Reese Killing will be presented to a grand jury soon. About 14 witnesses were questioned by the police and D.A. staff.

Claude Reese Jr.'s blood still stains the pavement of the courtyard where he was shot. The question that still remains unanswered is, when will N.Y.C. cops stop their slaughter of Black children?

Class dismissed...

(Photo by Ted Gray)

Mrs. L. Saunders, cosmetology instructor at Chicago's Cooley Vocational High School stands before an empty classroom, which school board officials eliminated from the technical school curriculum.

Chicago ed. board slashes vocational school classes

By Larry 14X
(M.S. Staff Writer)

CHICAGO — The almost total elimination of the vocational curriculum at the Cooley Vocational School has outraged students, parents and teachers alike in the predominantly-Black Cabrini-Green community here.

THE HEAVILY concentrated working class area — primarily a low income public housing project — is the picture of urban blight, located only a few blocks away from Chicago's wealthy Loop area.

Cooley, which suffered cutbacks of two print shops and an electrical shop, and its cosmetology program is very vital as the sole institution through which the community's high percentage of dropouts and unemployables pass into the labor force.

A full boycott of classes occurred after the Chicago Board of Education authorized

the cuts following charges of a drop in the school's enrollment.

Angry parents complained that many seniors were unable to graduate in their chosen vocation as a result of the cutbacks.

"That's what's so upsetting. I wanted to see my students finish, and we're cutting back so many courses", lamented Mrs. L. Saunders, a cosmetology instructor whose classes were terminated.

Following a stormy session with protesters recently, Board of Education officials agreed to reinstate one print shop, and to arrange classes in surrounding schools for seniors in the other shops that were terminated.

"My worry is for students who will be seniors next year and won't be able to complete their majors," said yet another teacher, who also

voiced the sentiments of many community residents who view the cutbacks as part of an age-old design by the Board of Education to eventually close Cooley.

COOLEY ASSISTANT Principal Jimmy Johnson told Muhammad Speaks that "this isn't a thing that just began — this is a long term thing."

Even though enrollments remained steady, in 1964 the bakery and physics programs were terminated. In 1965, two of four teachers from the print shop, and one of two teachers from the auto shop left the school, but were never replaced. In 1966, a woodshop class was closed.

Also cited throughout the school's history was a lack of supplies, which — added to the absence of programs and teachers — resulted in fewer enrollments of top students, and fewer graduations from the number of enrollees.

Guaranty Bank wants you to know Your side is our side.

OSCAR S. WILLIAMS
President of Guaranty Bank

We're on Your Side.

Guaranty Bank is on your side. We understand what it is and what it takes for you to have your money managed right.

We understand you need and want to have the basic things in life: food, clothing and shelter, and peace of mind. This is a side Guaranty Bank can help you manage by giving the best financial and economic service possible.

And Guaranty is a full-service bank, capable of good banking for your needs and wants.

Good, sound banking for you is our foundation. The Honorable Elijah Muhammad teaches that Guaranty Bank will only be as strong as you.

And you're strong.

Strong enough to build a stable and secure life through steady, regular savings at Guaranty.

"Though still small we have the strongest Black owned bank in the country because we have a Nation behind us," says Oscar S. Williams, president of Guaranty Bank.

Guaranty Bank is on your side. And when you're a Nation behind a bank that's behind you, you have a strong side.

Guaranty Bank --
Your Strong Side.

Nation of Islam expands in Wichita, Kan.

'...we've made more progress than all the churches combined.'

By James Hoard Smith
(M.S. Staff Writer)

WICHITA, KANSAS — Black representatives of the many denominations of Christianity here in Wichita have apparently "seen the light of Islam," yet they try to down play the accomplishments of the Honorable Elijah Muhammad by "preaching hard" against Islam. Min. Lawrence X. the Honorable Elijah Muhammad's Wichita representative revealed during an interview here recently in the so-called "air capital" of the world.

THESE PREACHERS have seen the light of Islam because we've made more progress since we've been here than all of them combined," the minister said as he and a reporter entered one of several thriving businesses established here by the Honorable Elijah Muhammad.

"They know Islam as taught by the Messenger is for the Black man yet they preach against it. If you look, you can find a church on nearly every corner."

Despite the opposition from preachers and other elements. Min. Lawrence said his aim is to "deliver an array of Wichita's young men to the Messenger." He said sooner or later the city will be delivered to the Messenger because "the Messenger has shown us how to go for self—we've got to deliver Wichita," he said.

DESPITE BEING "out in the middle of the desert," the

Wichita followers of the Messenger feel they have "been blessed" by virtue of following the Messenger. As with all true believers, all success is attributed to the Messenger's Divine wisdom.

"The Messenger is a wise and brilliant man," Min. Lawrence said "He is teaching us how to go for self; He is taking us out of hell and putting us in heaven. Nobody but the Messenger has ever really cared anything about us. All Praise is due to Allah for giving us a Divine leader, teacher and guide in the Person of the Hon. Elijah Muhammad."

The "heaven" alluded to by Min. Lawrence can be seen in various sections of the city. For the benefit of the Black community, one can find a bakery, fish houses and sandwich shops. Whiting H&G (headed and gutted) in five and ten pound boxes, Muhammad Speaks and Muhammad's Temple of Islam.

Also there are two fish trucks with plans for the purchase of a third, a warehouse and prayerfully in the future, a Muhammad University of Islam. "We have already written the Messenger for permission to start our university," the minister said.

A SECOND example of "heaven" in Wichita is that most Muslims are employed in businesses owned by the Nation of Islam. According to Min. Lawrence, brothers who formerly worked for Cessna, Boeing, Lockheed and Lear

now "work for self selling Whiting H&G and making enough to live on."

As in other cities, hamlets and boroughs throughout America, Whiting H&G "sells fast" in Wichita. According to the minister, older Blacks enthusiastically buy the five and ten pound packages of whiting with younger Blacks heavily patronizing the sandwich shops.

"Sometimes our sandwich shop is packed so tight with children you can't get in," Min. Lawrence said. "They buy our fish sandwiches because they don't want that hog any more—they want fish." Min. Lawrence said he often hears children chanting "Shabazz, Shabazz, we are going to Shabazz."

WICHITA BLACKS also rapidly buy up the pastries, cakes and wheat bread baked continuously in a spotless bakery that also doubles as a sandwich shop. Here, as in the other Muslim businesses visited, Muslim sisters and brothers exemplified the discipline characteristic of all the true followers of the Honorable Elijah Muhammad.

Followers and non-followers alike receive the same courteous treatment.

Because of the accomplishments of the Messenger and His followers in Wichita and other parts of America, the local Black press has asked to excerpt stories from Muhammad Speaks,

according to Min. Lawrence.

"I told the editor of the local paper that I could not give him that permission," the minister said. "I told him he'd have to

write to Chicago for that. Just being asked to allow excerpts from the paper—although I couldn't give permission—was a good sign. It means that we are recognized."

Indians charge 'germ warfare'

U.S. backed project suspected 'genocide'

By Lonnie Kashif
(M.S. Washington Bureau)

WASHINGTON, D.C. — A government-subsidized newspaper in New Delhi, India—Press Trust of India—last week shocked a complacent Indian population with bold headlines charging "U.S. Authorities May Be Using India for Germ Experimentations."

AN EMBARRASSED Indian Government, which entered into an agreement with the dominated World Health Organization (W.H.O.) to conduct a 4-year experiment on virus-carrying mosquitoes and the Indian population, quickly published denials of any sinister motives surrounding the project.

The official explanation for the project, government spokesmen said, was that it's an experiment to reduce the mosquito population around the world. The experiment involved "transforming sex among the mosquitoes from self-perpetuating mechanisms to self-destroying ones."

But what has the Indian population worried is that the

experiment might mean destruction for a sizable portion of the Indian population. The experiments, claiming that humans will not be affected, state the experimentation consists of sterilizing the mosquitos by "cross breeding Cultex Fatigans strains, which inherited sterility produced by cobalt-60 radiation and chemosterilization" and then releasing them into the mosquito population in Indian villages.

THREE STRAINS of virus-carrying mosquitos are bred and released by the W.H.O. officials: The Culex Filariasis, which spreads the Filariasis disease." The Anopheles Stephens, which spreads malaria, and the Aedes Aegypti, which carries yellow fever and the Dengne diseases.

Following the news stories, a debate broke out in the Indian Parliament with Parliament member S. M. Banerjee charging the government with helping Americans "sabotage" the younger generation of Indians. He declared.

(USDA photo)

LABORATORY EXPERIMENTS with particular species of mosquitoes have not proven sufficient, according to entomological researchers, so, they are beginning to conduct "field research." However, much of this field research is hazardous to populations living in the "field" and in India representatives of those populations are protesting such dangerous research.

"Americans are planning to unleash germ warfare on India. Already there are reports that children are suffering from attacks of a mysterious fever."

Although denying any intentional unleashing of germs upon the populous, the government and W.H.O. officials have admitted that the "Aedes Aegypti" mosquito "is liable to be suspected as a potential candidate for germ warfare, since its eggs can be

dried and sent off to any part of the world in as simple and inexpensive a container as a postal cover."

THEY INSIST, however, that it is only the adult mosquito that can become infectious, and only if they bite infested people. The mosquitoes used in the projects, they said, are bred in W.H.O. laboratories. Nevertheless, the debate rages and several members of Parliament demanded an investigation into American

involvement in the health projects which they now suspect "affect the sovereignty of India."

The W.H.O. and other American controlled Health organizations have long concentrated on the Indian population, particularly in the area of population control. In almost every instance, the Indian Government has shown almost child-like obedience and cooperation with regard to the U.S. projects.

WE, THE MUSLIMS...

are entering into universal commercial business and we have the President of the Commercial world, to help us.

WE, THE MUSLIMS, have credit and friendship throughout Asia and Africa. WE MUST DO FOR SELF.

WE, are not going to be a "lazy Lazarus" lying at the rich man's gate. You will starve to death waiting for crumbs from the white man's table. We do not need to wait to pick up the crumbs from the rich man's table, we, the Black People, have a big world, anyway. THE EARTH BELONGS TO US, THE BLACK MAN, but we must prove worthy of it. COME FOLLOW ME.

Your Brother, ELIJAH MUHAMMAD, MESSENGER OF ALLAH, TO YOU ALL.

WANTED A No.1 HEADWAITER

Pentagon plans massive Pacific land grab

Complex of Micronesian islands strategic prize

MICRONESIAN SCHOOL children on one of region's islands carry small baskets of gravel on their heads from a river to site of their school construction.

an agreement on the acquisition have been under way for some time between a personal representative of the President (who holds the rank of ambassador) and a group of Marianas islanders.

LIKE THE 2,000 islands that make up the rest of Micronesia, the Marianas came under U.S. control with the defeat of Japanese forces during World War II. Last year, however, the U.S. announced it had agreed to return Micronesian land to the Micronesians, with the understanding that the Micronesians would submit to a "formal commitment to accommodate Pentagon needs" in "good faith." Now, while the rest of Micronesia is pressing for self-

government and independence, the Marianas negotiating team is pushing for full U.S. territorial status.

According to Edward Pangelinian, chairman of the Marianas Political Status Commission, "The 14,000 people of the Marianas want to become part of the American family as soon as possible."

Pangelinian, along with a number of other members of the negotiating team, has been involved in land speculation on Tinian.

BEFORE THE U.S. placed a moratorium on all land transactions on the island last year, the negotiators were buying up land from those few Tinian residents who owned their own homesteads--

(Continued on page 18)

By Roger Gale
(Pacific News Service)

TINIAN, MICRONESIA, (PNS)—The United States may soon make its first outright territorial acquisition in more than half a century—the proposed commonwealth of the Marianas, 14 islands located 1,600 miles off the Asian mainland. Already

administered by the U.S. under a United Nations trusteeship, the islands would become formal U.S. territory through an act of Congress.

THE DRIVING force behind the acquisition effort is, the Pentagon, which has begun plans to construct a \$300 million air and naval base on Tinian, the flat-topped volcanic island in the Marianas chain from which the U.S.

launched the B-29s that dropped atomic bombs on Hiroshima and Nagasaki. The Pentagon views the Tinian base as part of the Nixon doctrine's goal to secure more strategic "fallback positions." Along with nearby Guam—a U.S. territory since the Spanish-American war—Tinian will be the only military complex in the Pacific on U.S.-owned land.

U.S. military loan, weapons mobilization indicate:

Israel preparing for war

By Calvin Williams
(Special to Muhammad Speaks)

SWEDEN - Recently, Israeli military commanders held exercises tantamount to a provocation of the gravest type.

THIS WAS DONE on the heels of a loan of \$200 million from the United States Government, which was recently granted. In granting the loan to Israel it was fully understood that the U.S. would, in case of conflict, send supplies to Israel.

Presently Israel has received anti-radar weapons and highly sophisticated anti-tank weaponry.

The mobilization exercise was to co-ordinate all weapons to one system.

All ordinance, armor and group mechanics were brought forth for the exercise, so as to connect all weaponry to the one system, thus putting all weapons that were captured during the wars in working order.

This is in keeping with the allegation of Prime Minister Yitzhak Rabin, "that any person that does not think that there is going to be war, is a person living in a dream world."

WITH THE ATTACKS of the Israelis on refugee camps and Palestine Liberation quarters in the southern half of Lebanon, Egypt must take any move of the Israeli military to be serious.

The Bath Party in Syria has said that no person, soldier is to lay down their arms, and to stay in a state of readiness.

For Egypt, there is the problem of badly needed arms - which were supplied by the Soviet Union in the past - but due to strained relations, Egypt must now turn elsewhere. It is doubted that Libya will again give President Anwar Sadat any Mirages, nor can he expect to receive any jets from Saudi Arabia.

WHILE MILITARY supplies will flow into Israel from the vast war supply houses of the U.S., the situation looks very bleak for Egypt under President Sadat.

Presently, Syria is being supplied with weapons by the Soviet Union, especially with the MIG 23 fighter - bombers, while Israel is being given the Phantom F-14 fighter bombers by the U.S.

On the diplomatic front, King Hussein of Jordan is aiding President Sadat, by stating that he wants to have control of the West Bank, and the P.L.O. on all other fronts.

Due to pressures and attacks both from outside and inside his own country, President Sadat is hoping that when U.S. Sec. of State Henry Kissinger

comes to the Middle East in October, he will give some assurances that the U.S. will back a peaceful settlement of the Palestine question.

EGYPT DOES NOT want war because they have received good offers in the last settlement and are expecting more in the future.

While Israel is preparing for an attack upon her Arab neighbors, King Faisal is threatening to use oil as a weapon to assure fair settlements for all, and that the Palestine question be handled with all due fairness.

In Israel, staff editor of **Al Hamishmar**, and former member of the Political Committee of the Napam Party stated, "The Palestinian Arabs are the only people who can determine how they should exist. The Palestinians have the right to self determination...therefore, I completely object, from the moral, intellectual and historical point of view, that

we should decide on our own whether they constitute a people or not.

"We have to declare anew that the land on which Israel exists at present is a joint homeland of two peoples, namely the Palestine and the Jewish - Israeli peoples."

WITH EGYPT looking for a good settlement, the Palestinian people must look elsewhere for full support of their struggle to regain their homeland.

The settlements made between President Sadat and U.S. Secy. of State Kissinger, and the Israelis, leave the military in Tel Aviv free to concentrate on the fronts in Syria; it was Syria that did not get back the Golan Heights, and got an unfair settlement from the October War.

Brigadier General Kenneth Hunt, stated that the Israelis will attack very soon on the Syrian front, with the Syrians looking for help from their Egyptian neighbor that may not be forthcoming.

World postal group halts South African membership

By Gerry Tyler
(Special to Muhammad Speaks)

UNITED NATIONS - The Universal Postal Union (UPU) at its international headquarters in Geneva, Switzerland, voted decisively to exclude the apartheid regime of South Africa from all its meetings.

THE MOVE has been seen here as an indication of South Africa's growing isolation in international political and trade relations. The UPU's action is expected to strengthen progressive forces in the General Assembly of the United Nations when its removal is expected to be called for later in the fall.

South Africa is still officially a member of the UPU but it

will not be able to vote or have direct influence on the 142 inter-governmental organizations. The exclusion will also prevent the apartheid regime from the 17th UPU Congress this year.

The policy to exclude South Africa from the sessions came from the strength of the Organization of African Unity (OAU) with aid from countries in the world socialist system.

BASICALLY, TODAY the work of the UPU, now 99 - years - old, is to facilitate international postal services, develop technical procedures to speed up such services, study transport systems and aid the emerging African, Asian and Latin American nations establish scientific methods of postal operations.

Illegal Mexican immigrants flock to U.S.

Hapless immigrants exploited for cheap labor

By Lawrence ZX
(Special to Muhammad Speaks)

"Poor Mexico. So far away from God, and so near the United States." — Porfirio Diaz.

LOS ANGELES — Whenever the United States suffers an economic crisis, among the first to bruise from the brunt of hunger and unemployment are the immigrants. Here in the Southwest it is the Mexican immigrant.

CONSERVATIVE estimates of the number of Mexican-Nationals who illegally enter the U.S. from Mexico each year range from two to three million persons. Many of them settle in the Los Angeles area where they easily blend into the large Spanish-speaking community, the second largest outside of Mexico City.

Protecting the rights of immigrants while here is the job of CASA, the Center for Autonomous Social Action. According to reliable sources, more than 20,000 "undocumented" immigrants belong to CASA.

One of the aims of CASA is to organize a national union of immigrant workers. The program of CASA aims at organizing these workers so they can defend themselves against exploitation. Located in the heart of the Spanish speaking community, CASA represents a place of dire refuge for the highly exploited Mexican immigrants.

BERT CORONA, Chicano activist and director of CASA, has been instrumental in working for reforms in immigration laws and

practices. Corona describes CASA as a general brotherhood of immigrant workers.

"The reason why Mexicans leave Mexico for the States is the same reason why Dominicans and Haitians leave their countries in abounding numbers for places like New York. Its the same reason why Africans immigrate to Spain, France and Italy: Poverty — the inability to survive in their own lands.

"They leave for other lands which assure them of a job so they can send money back home to their families," answered Corona to the question as to why Mexicans leave their country.

"The Mexican Government is not able to supply enough jobs for its own people; 50 per cent of the Mexican people are out of jobs," he said.

Corona chides the U.S. for its domineering economic influence over the Mexican economy. "American imperialism tries to guarantee that the Mexican Government will never be able to supply enough jobs for its people. As long as the United States controls the Mexican economy, as long as big U.S. corporations are there, Mexico cannot save or invest to build its own industry."

Currently, at least 42 U.S. corporations operate in Mexico with a total of 83 separate plants and facilities. Included are such financial monoliths as Dow Chemical, DuPont, I.T.&T., Firestone Rubber Company and the Ford Motor Company.

AN ARTICLE in the May

issue of Current History attests to Mexico's relationship to the U.S.

"Of the 400 largest corporations operating in Mexico, more than half are in reality owned or heavily influenced by non-Mexican

interests in spite of the provisions of Mexican law. Approximately three-fourths of all foreign investments in recent years have come from the United States...."

Therefore, said Corona, "The profits do not stay in Mexico,"

and neither does a large percentage of its people.

"We see it as one of the main reasons why people migrate to this country — because of their situation down there," said Jacobo Rodriguez, CASA

(Continued on page 15)

MANY MEXICAN immigrants end up in "sweatshop" type factories such as this, working for pitifully low wages.

White riots fail to prevent Mozambique's transfer of power

(Liberation News Service)

LOURENCO MARQUES, Mozambique (LNS) — Tens of thousands of Africans and several hundred whites demonstrated their support for the Liberation Front of Mozambique (Frelimo) in the capital during two days of negotiations in Lusaka, Zambia which culminated in an accord between Frelimo and Portugal on Sept. 6.

THIS ENDS Frelimo's 10 years of armed struggle against the Portuguese colonialists. "The Portuguese State and Frelimo will act jointly to eliminate the vestiges of colonialism and create racial harmony," the agreement states.

On July 25, 1975—the 13th anniversary of the founding of Frelimo— independence will be proclaimed. Until then, a provisional government will assure Mozambique's transition to complete independence.

According to the agreement, the independent state of Mozambique will exercise complete sovereignty in both interior and exterior affairs, and will establish political institutions — and — choose — the

social system it considers most in the interest of the people of Mozambique.

THE PROVISIONAL government will consist of a high commissioner — appointed by Portugal, and a prime minister to be chosen from Frelimo.

A cabinet will consist of six ministers appointed by Frelimo and three by the High Commissioner, leaving the provisional government under Frelimo's control. A military commission will be created with an equal number of representatives from the Portuguese armed forces and Frelimo. Its chief function will be to enforce the cease-fire.

Although the accord did not set a schedule for the removal of Portuguese troops from Mozambique, it is likely that they will remain in the country to help Frelimo guard the borders to prevent arms and mercenaries from entering the country to aid a rebellion of white minority extremists.

The ratio of Blacks to whites is 40 to 1, leaving the European population helpless to carry on a rebellion on their own, as events following the announcement of the agreement showed.

accord was announced, a group of white, right-wing extremists took over the Lourenco Marques radio station and the airport.

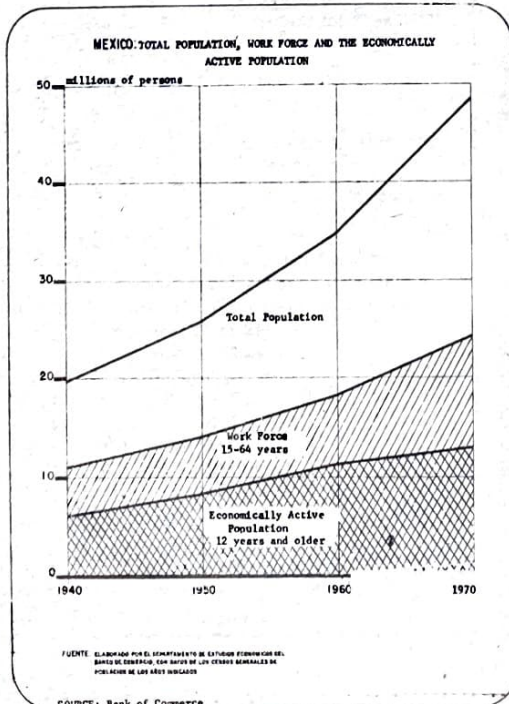

Calling themselves the "Dragons of Death," the rebels demanded a "revision" of the agreement which would create a provisional government without Frelimo in control. Their leader, Roxo, had been chief of the shock troops formed in 1971 to combat Frelimo.

The rebels released about 200 jailed members of PIDE, the former Portuguese secret police organization under the fascist Caetano and Salazar regimes. The Dragons of Death also broadcast appeals to Rhodesians and South Africans to come to Mozambique and to bring arms.

However, their appeals were in vain, and the rebels surrendered late in the morning of Tuesday, Sept. 10, with a final broadcast appeal to the Portuguese armed forces to "keep Mozambique free." The broadcast ended with the Portuguese national anthem.

DURING AND immediately

(Continued on page 19)

MAKE AMERICA KNOW HER SINS

(The following article is reprinted by popular request from the Jan. 31, 1964 issue of Muhammad Speaks.)

THE DOOM OF AMERICA approaches and there are many people who do not really know why. There are also many people who would not like to know. As I have always said, truth hurts; especially the guilty. It is the EXPRESSED PURPOSE of the coming of God, whose Proper Name is Allah, to make manifest the sins of a people who He would destroy, justifying His destruction of that people.

America represents herself as a Christian nation, which means that they are followers of Jesus, whom they call the Christ, and say that they are crystalized into him and God and have become one. As they say, God the Father, and Jesus the Son, and the Holy Ghost.

THEY PROFESS TO BE a friend and defenders of all peace-loving and freedom-loving people. The only people we really see that she wants to be a friend to is herself and kind.

They are really sincere when they say that they are freedom-loving people. Above all, the white man, the world over, wants to be free to rule and dominate the aboriginal people.

Today, **AMERICA'S DOOM IS SET** like a die. She cannot escape; it is impossible. For her to escape would classify the Prophets of God and God Himself as predicting lies. When God appeared to me in the Person of Master Fard Muhammad, to whom Praises are due forever, in 1931 in Detroit, Michigan, He said that America was His number-one enemy on His list for Destruction.

While He mentioned other European whites as getting a little extension of time, He singled America and Germany out as being the two worst, vicious, evil, destructive, trouble-makers of the entire nations of earth. And that **AMERICA HAD MISTREATED** us (the so-called American Negroes) so much that she cannot be equally

paid back for the evils she has done to the poor Black slaves.

THERE ARE THOUSANDS and ten's of thousands of American so-called Negroes; and in those ten's of thousands is such professional and educated class of people as preachers, ministers of the white man's Christianity, even scientists, scholars of many kinds, and technicians of all kinds who have become submerged into the love and worship of the white race because of advantages.

Today they preach the gospel of being an American citizen and worship equally their intermarriage with white Americans who used the Black women—from the time they were brought here 400 years ago until this very day—like they would their stock and cattle.

IT IS A PERFECT SHAME and disgrace to see men of the Black Nation professing themselves to be spiritual guides of God and His people, endorsing and backing the rule of the enemy who has spoiled and exploited them to the extent that they are not recognized even among their own kind outside America.

These ignorant Black people will oppose anyone who preaches freedom, justice, and equality, and some of this earth that we can call our own.

IT IS CLEAR that such a spiritual leader as this is more an enemy to his people than the real devil (Caucasian). They want to please the enemy at the expense and destruction of their own people.

The clergy is more upset over the preaching of justice for our people and a home on this earth that we can call our own than the white man himself.

They hope, as I said, to always say, preach, teach, pray, sing, and act in a way which pleases the slave-master of their fathers—and his children. They are a class of "Uncle Toms" and "stool pigeons."

THEY ARE THE FIRS!

go to the policemen and F.B.I. seeking persecution for those who stand for freedom justice, and equality and independence for the Black man in America by their admired and worshipped enemy (the white race). They will accuse them of trying to overthrow the government or even with causing trouble.

The white man has looked into their faces many times—as into their children's faces—and cursed them and called them Black Negroes, and told us to our faces that they hate us and should kill us.

ALL OF MY LIFE, I have heard this, and all of their lives, they have heard the same from the mouths of these people. But today, they wish to save their skin by sacrificing their poor, blind, deaf and dumb people to the destroyer for their own selfish gains.

I have begged and begged for many years for just a conference with them; they will not come near. But they will go to the white man and beg him to drive Elijah and His followers out and even kill them. **THIS IS THE ENEMY.**

BUT, ELIJAH MUHAMMAD is laid as a stumbling stone. That stone that has been rejected by the builders. And whosoever falls on that stone will be broken to pieces, and whosoever the stone falls upon, will be ground into powder.

No wonder the Bible says: Woe, woe unto such professional class that stand in the way of those who would enter the Kingdom of Heaven. They refuse to go in themselves and seek to prevent those who are trying to enter.

I am sorry for my poor people who should be helping in the right way to get a permanent future of **FREEDOM, JUSTICE AND EQUALITY**, and who now, due to fear, are doing everything to oppose it.

THEY ARE DUMB enough to the knowledge of the Scripture to what God has prophesied He would do in this day and time. And they make mockery even of the Messenger of

God, because God **DID NOT CHOOSE** one of them or one of their prided politicians. They make mockery of Him as being too ignorant to lead them.

But let them tell you what type of an Apostle or Prophet God promised them. Was it a man from among the professional class? Was it a man from some of the enemy's colleges and universities with an arm full of degrees coming from these institutions of learning of the enemy?

LET THEM READ their Scriptures and see what type of a man God promised to choose for a last Messenger. How many of the prophets in the past were educated men of the civilization in which they were born before the call of God?

The sins of America are terrible. She has risen up in this part of the earth which was forsaken and bewildered by all our Black people for thousands and thousands of years.

THIS PART OF THE EARTH was used for a kind of exile continent. The white man came out of Europe in desperation seeking a place to expand and began to kill the aboriginals of this continent (the Red Indian) and take their homes. This was one of her great sins.

He has left a remnant of that people for the sake of mockery and for his children to see the people their fathers conquered in taking this land of the Indians for their own land (as they call it today).

GOD NEVER INTENDED that the people of the earth go about killing each other to rob each other of their homes. It was never done by anyone but the white race.

HE WAS NOT SATISFIED in killing all the aboriginals here to take their homes, but went back into the old world of Africa and Asia, deceived and brought our fathers here for no other purpose than to make them slaves and to experiment on them.

They have never been a friend to us nor do they ever intend to be. **THEY CANNOT BE A FRIEND** because they were not created in any such nature to be a true friend to anyone not even to themselves.

Today, she is being upset with wars; little scrimmages breaking out here and there over the earth keeping her busy running from one fire to the other trying to prevent the fire from spreading into a national or international fire.

America must get a taste of what she has put upon other people.

THEREFORE, Almighty God Himself is stirring up the nations of the earth against her. And as it is written, **THEY SHALL COME** against her as she has gone against other people and taken away their wealth and brought it and poured it into her treasures; so shall it be done to her.

HURRY AND JOIN UNTO YOUR OWN KIND. THE TIME OF THIS WORLD IS NOW AT HAND.

Messenger Muhammad's Teachings

THE HONORABLE ELIJAH MUHAMMAD
MESSENGER OF ALLAH

We need a hospital for our sick and wounded.

"We have love for you and we want to show this love for you. Please make up your minds and help my followers and me to purchase or to build a modern hospital of at least 200 (two hundred) or 300 (three hundred) beds."

MESSENGER MUHAMMAD TEACHINGS

Proposed 200 Bed Hospital To Help Care For Our Sick And Wounded

Reader, tired of 'decadence,' applauds M.S.

Dear Brother Editor:

I just finished reading your editorial: "Victimless Crimes. no Chance!" — and thought it was just great. Usually when I write to a newspaper or magazine I am disgusted with their policy. but your paper is different.

It inspires pride in an otherwise decadent field of

journalism. There seems to be a trend towards the glorification of sex and miscegenation in Black journals, especially one that I don't care to mention. **Muhammad Speaks** is clean and decent, and I appreciate it immensely.

Your particular editorial has even given me the courage and inspiration to make an important decision concerning

my own personal life, so if your publication perseveres for a hundred more years, believe me, you will never receive a more heartfelt letter. So in conclusion, let me once again congratulate you on a fine, fine article, and an excellent newspaper.

Aaron Mosley
Detroit, Mich.

Muslim readers should also do some writing

Dear Brother Editor:

Every week, as I read the different articles from followers of other Temples, I wonder why very seldom Newark's Temple is represented? The answer came to me; we are so busy reading but not writing. I have decided (excuse the cliché) to start the ball rolling.

The article "Muslim graduates, more than just average" was very beautiful and inspiring. I pray Allah and

His last and greatest Messenger, the most Honorable Elijah Muhammad, that the students here in Newark will be inspired enough to sit down and write what being a follower of the Messenger has done for the outlook of their educational endeavor.

The students are not the only ones who should write, Praising Allah and Messenger Muhammad. Each and every true follower of the Messenger

should strive to write at least once a month, to **Muhammad Speaks**, to let everyone know how they feel about Allah and Messenger Muhammad. We should also acknowledge the blessings that have been bestowed upon us daily.

May Allah continue to bless and watch over Messenger Muhammad and His followers.

As Salaam Alaikum
Willie Mae 4X Sheffield
Newark, N.J.

'Surely the Messenger has answered it all'

Dear Brother Editor:

It suddenly came to me one evening after receiving an answer to a question I had blindly asked, of who was the world's busiest businessman?

Who is the One who has the burden of the resurrection of the more than 30 million so-called Negroes? Who is the One who has suffered more than any of the so-called leaders of today and the days before? The answer came to me in a flash. The man I asked about is our own Messenger

from Allah, the Honorable Elijah Muhammad.

For the questions I asked, the answer was actually here before the question, and now I can bear witness to that fact.

For, a few days after receiving the answer to my first question, I happened to pick-up the "Message to the Black man" and there it was on page 204, in the biggest type on the page. I was amazed, but what could I say except Praise be to Allah for the Honorable

Elijah Muhammad.

From that, I learned that it's not enough to just say "I read that book, or the **Muhammad Speaks** center-fold," because if we do not ponder closely these precious books and writings constantly, we may become victims of strange errors. Surely the Messenger has answered it all!

As Salaam Alaikum
Herbert B. X Smith
Reidsville, Ga.

LETTERS FROM OUR READERS

'We must prepare for change'

Dear Brother Editor:

I am a processing brother in the Nation of Islam and I bear witness that the teachings of the Honorable Elijah Muhammad are true.

Each and every day that I live, I must bear witness to the truth of the teachings. As it is commonly said, "forewarned is fore-armed," and indeed the Honorable Elijah Muhammad has forewarned us. We must all prepare ourselves

for a great change, for Messenger Muhammad teaches us that Allah will make all things new. The old world of wickedness is going out and the new world of righteousness is coming in.

Brothers and sisters, what our Messenger is teaching us is the absolute truth. We must embrace Islam and defend truth at all costs.

As Salaam Alaikum
Robert Bennett (processing)

Illegal immigrants in U.S.

(Continued from page 11)

member and Chicano bail bondsman.

Rodriguez specializes in cases involving the smuggling of Mexican Nationals, therefore, he has firsthand knowledge of the hardships suffered by immigrants without legal documents.

SMUGGLING OF Mexican-Nationals is big business. Major rings operate on both sides of the border. Los Angeles is just one of many centers of operation.

"Last year 650,000 Mexican-Nationals were deported from the States. Imagine," Rodriguez said, "if 650,000 were caught and deported then two million got away. Multiply those figures by \$300 and you

can see how big the smuggling business is."

The \$300 quoted by Rodriguez is the amount of money immigrants must pay in order to be smuggled across the border. This sum usually represents their life savings or money sent by relatives who have preceded them across the border. The minimum charge is usually \$200 and can go as high as \$600.

ONCE IN this country, undocumented immigrants live in constant fear of being turned in to authorities and exposed. Blackmail becomes the order of the day. For fear of deportation, immigrants put up with poor working conditions, substandard wages, brutality and unfair demands of employers.

Charity: Black Studies 2

(Continued from page 15)

the years — even jailing the followers of Messenger Muhammad who supported this great school — now those diabolical planners must sit and watch the absolute decay and collapse of their own schools, helpless to improve even miserable condition there.

No drugs, no alcohol, no tobacco, no promiscuity in Muhammad Universities of Islam, and the results, young children astound the minds of friends and foe alike. Guests are themselves "dumbfounded" that Muslim children learn to read — ahead of their grade levels — and even graduate from high school at tender ages, 14 and 15 years, prepared to contend with and out perform, (intellectually) the best students that public schools produce.

All Black people need to support such a great, and successful educational institution. I repeat, all Black people need to support, financially, the Muhammad Universities of Islam.

Go to the Temple, wherever you are. Donate to the University of Islam, there. Send a donation to the Honorable Elijah Muhammad Educational Fund in Chicago, c/o 4855 South Woodlawn Avenue, Chicago, Illinois 60619.

And every single public school teacher, professor, principal, instructor, superintendent, or whatever should make a healthy donation.

We are not ignorant of how much money public school teachers and administrators receive for ten months works, six hours per day. And in every junior college, secondary, and elementary school district, there are "ethnic specialists" who receive even larger salaries to "advise" white people on how to pacify Black students.

On every college campus there are new teaching positions, and there is at least one Black "ombudsman" of one kind or another administering the Black "welfare" program — and all of this, grew out of the desires and the demands from Black students, who were starved of the essential education, who forcefully confronted whole governments in order to receive just a tiny smattering of "knowledge of self," essential in Messenger Muhammad's teaching.

Each and every one of these "Ethnic," "Afro - Studies," "Multi-cultural," or whatever - else - you - please Black "experts" should march himself right over to Muhammad's Temple and leave a sizable donation toward the upliftment of the "true" Black education in the Western world, the Muhammad University of Islam curriculum.

And sure enough, school "big shots" like the newly appointed Chicago Board of Education member Henry W. McGee, former Postmaster of Chicago — as well as all the other Black members — Superintendent Barbara Sizemore in Washington, D.C., California State Superintendent Wilson Riles, and the thousands more around the country, ought to not only make huge donations, but should learn about the great educational work of Messenger Muhammad, and should tell others about it, preach about it, and use His work as an example of good, wherever, and whenever they speak in public or in private about quality education for Black children.

Without a doubt, Muhammad University of Islam is the only viable avenue for massive educational success of Black people. Class dismissed.

AN INDEPENDENT NATION NEEDS A STRONG ECONOMIC FOUNDATION

"We cannot depend upon the white man to continue to care for us and build a future of good for us and our children."

"We will show the world that we can build an independent nation out of those who have been dependent people for 400 years."

What Islam has done for me

'Ready for a change?'

By William 89X (Brown)
Temple No. 2

Brothers and sisters, are you ready for change that will bring about true happiness? Are you ready for change that will bring about total unification of the so-called American Negro?

Are you ready for change that will stamp out fear, doubt, envy, jealousy, and niggardliness? Are you ready for change that will bring about respect for self and kind, the world over?

Are you ready for change that will set us in heaven while we live? Are you ready for change that will bring out the best in you and your Black brothers and sisters? Are you ready for change that is bringing about jobs for our people — jobs that have a future? Are you ready for change that gives us the necessary knowledge, of self

Chronic complainers irk reader

By Sis. Alverda X
Temple No. 2

It seems that every time I turn on the communications media there is a Black "leader" complaining about some mistreatment they are receiving from "whitey."

The other morning while riding to work, I listened to the distinguished journalist and scholar, Lu Palmer, bemoaning the fact that the white power structure in Kankakee, Ill., had found a way to throw off the local school board two of the three Blacks that had been elected to that post, leaving only one token Black.

He went on to beckon the support of the Black masses of that city to rally behind the ousted two in an effort to get them reinstated.

My thoughts in listening were: When are grown Black men going to stop whimpering and whining, begging and being humiliated and manipulated in their effort to avoid doing for self?

Why are we quarreling with the white man over how many Blacks he allows in his school system when the Honorable Elijah Muhammad has shown us that free peoples of all other nations govern themselves?

The Honorable Elijah Muhammad has blessed us to learn the feeling of pride and self-respect that comes from building and supporting our own schools, from teaching our own young and from setting an example for them as to how adult, mature people of the world shoulder their own responsibilities and strive to meet their own people's needs.

and others?

Well, who do you see effecting such changes in our midst today? No, it's not the white man! No, it's not Jesus! Yes, it's the One we've been running, ducking and hiding from for more than 43 years.

This One is and has long been misunderstood by most of our people — a very unfortunate fact. You know, as you grow up, it takes a while for you to realize who your true friend is. As soon as the going gets rough for you, somehow a true friend is hard to find.

Well, the going is pretty rough for us today, and again, a true friend is hard to find. But then when you're blind, what can you find? Let us open up our eyes and see the Honorable Elijah Muhammad as He is; it's about time we stopped seeing visions — it's time for change.

How can young Black children respect their fathers when all they hear is their fathers' weeping and wailing over what the white man (daddy, boss Charlie) will or won't do for them?

It would seem that the education they claim to be fighting for would be stunted in its infancy when the beginning of all education, the Honorable Elijah Muhammad teaches us, is a knowledge and love of self.

Later in the day, I turned on the television and there was Gary, Ind.'s Mayor, Richard Hatcher, rallying the Blacks of that city to demonstrate against the city's downtown Sears Department Store because that store plans to close its downtown branch and relocate in one of the white suburbs.

Mayor Hatcher's thesis was that since the inner city is almost all Black, this would be a direct loss to the Black community both in terms of jobs and in terms of a buying market for the city's Blacks.

I wondered while listening where Mr. Hatcher was when the most Honorable Elijah Muhammad told us that He could import for us all the merchandise we needed at far less a price than the white man charges for the same merchandise.

Didn't Mr. Hatcher see for months all the beautiful items in the Progress Section of Muhammad Speaks, advertising Muhammad's -Im ports?

If he had but rallied the Black people of Gary with the same enthusiasm behind the Honorable Elijah Muhammad's call to do for self, then he would not have

'The teachings of Muhammad must be Divine'

By Dr. Lenox S. Dingle
Progressing Brother
Temple No. 13

It was not very long ago that I had a strong desire to leave the United States to go to Africa and work. I wanted to participate in a Black nation-building process and was willing to devote whatever I had to offer to see that goal reached.

It was my feeling at the time that Black nationhood within the confines of North America was an impossibility—more because of my thinking that the Black man in America was incapable and unwilling to move in that direction than for any other reason.

The Master Reformer

By Sis. Delores 10X
Temple No. 2

The greatest gift of life is to be a follower of the Honorable Elijah Muhammad and to know whom God is and whom the devil is.

The Messenger of Allah teaches us how to be ourselves and to know self; that is—being a righteous Muslim. We should not be afraid of being ourselves and soldiering for Allah and the Messenger. We must grow into maturity and be the M.G.T. & G.C.C.—a civilized woman.

Accept yourself, your best self, for the Honorable Elijah Muhammad and for your Nation. Train yourself to be truthful as your word is bond to Allah. Train ourselves to be sincere and true believers of the most Honorable Elijah Muhammad. We should be genuine and for real. We should be unselfish and think of others and learn how to speak to our sisters and brothers. We should learn how to be humble and submissive, how to shine for Allah and the Messenger.

We should learn to be patient, because by being patient we will, by the help of Allah and the Messenger, be able to endure to the end. We must learn self-control, because action speaks louder than words. The Messenger is a Master Reformer.

had to worry about the white man moving his store to his own neighborhood; Muhammad's Import Store would have replaced stores such as Sears in the minds and hearts of the people, given them employment, and they would never have noticed that Sears had moved.

Instead, we continue to beg the white man for what the Honorable Elijah Muhammad is all but begging us to get up and do for ourselves. He is showing us how.

This was before my exposure to Islam and the teachings of the Honorable Elijah Muhammad. From my very first visit to a Temple of Islam, I began to see a side of the Black man that I did not know existed. Black men and women coming together in unity, with the spirit of brotherhood and love for one another, with enthusiasm and energy, disciplined and following one leader—all the ingredients necessary for building a nation.

It becomes readily apparent on visiting a Temple of Islam that the wisdom imparted there must be Divine wisdom

and that the teachings of the Honorable Elijah Muhammad must be Divine teachings. There is no other way that the thoroughly dead Black man in America could be transformed into something so positive.

The Honorable Elijah Muhammad is teaching us today that the Black man in America has no cause to despair, that in fact he should be rejoicing. We do not have to run away to build a nation when everything we need is right here. Accepting one's own (Islam) is the first step towards true nationhood. All praises are due to Allah for the Hon. Elijah Muhammad!

Technicians Engineers

Western countries ignore U.N. resolutions

Economic blockade of Rhodesia being undermined

(Novosti Press Agency)

MOSCOW — Six years ago the United Nations Security Council passed a resolution on the economic blockade of Rhodesia, binding upon all U.N. members. This measure would put Smith's illegal racist regime in a difficult position if it were carried out.

HOWEVER, MANY Western countries, their firms, banks and corporations intentionally and systematically ignored and continue to ignore the resolution. There have been hundreds of cases of economic

piracy and overt violation of U.N. resolutions.

Hardly a week goes by that the U.N. Committee for Observing Sanctions Against Rhodesia; committees on decolonization and on apartheid; and the democratic press, do not report new illegal deals between Western businessmen and Rhodesian racists.

It appears from papers in the hands of the U.N. Secretariat that exports to Rhodesia in 1970 amounted to \$360 million — U.S. It has been estimated that South Africa imported

from Rhodesia goods totaling about \$95 million.

WHERE DID the rest of the Rhodesian export go? It is perfectly clear that it went to the world markets, mainly through South Africa and Mozambique.

One of the major machinations was disclosed by British subject Kenneth MacKintosh, a bank employee in Salisbury. He forwarded to the editorial office of London's Sunday Times, secret documents on the reconstruction of the Rhodesian iron and steel works

in Kwe-Kwe, financed by European and American banks and companies. The monopolies issued the racists a loan to the tune of 12 million Pounds.

In April of this year, MacKintosh was imprisoned for five years for "economic espionage." And on May 20, after the documents were published in the World Press, he was put on trial again with new charges. Now he is threatened with 20 years in prison.

Recently, members of a Dutch anti-racist organization

published a report based on almost 500 documents about the illegal import of 10,000 tons of tobacco from Rhodesia to the Netherlands.

Millions of dollars were pumped to Rhodesia from the United States through the representation of Air Rhodesia in New York, according to the report.

WITH THE HELP of Western air companies and tourist accommodations in Rhodesia. Millions of dollars, in violation of U.S. trade law, were being remitted annually to Salisbury.

Baby born in hospital parking lot

Miss. hospital refuses to deliver Black baby

'The message of the Honorable Elijah Muhammad is clear'

By Joseph Delaney

(Special to Muhammad Speaks)

HOLLY SPRINGS, Miss. — Frederick Campbell, a Black male infant, was born around 2:00 a.m. on March 21, 1974 in the parking lot of the Marshall (Holly Springs) County Hospital.

ACCORDING TO facts obtained by Muhammad Speaks, Mrs. Hattie Mae Campbell (Frederick's mother) went to the Marshall County Hospital on the above date for delivery of her baby.

Even though she had her Medicaid card, in her possession which supposedly guarantees one "free" medical treatment, she was told by the head nurse that she could not be admitted because she was not under a doctor's care. She was unable to see a doctor because there wasn't one available.

At this point, Mrs. Campbell managed to return to her sister's car where, she gave birth to a child on the front seat of the car.

SHORTLY AFTER the birth of her child another one of her sisters once again asked hospital officials for permission to allow her sister and nephew to come into the hospital out of the car. But hospital officials again refused this request. However, they agreed to call an ambulance to the mother and her new-born infant transfer to Oxford-Lafayette County Hospital, a medical facility 35 miles away from Holly Springs.

According to Oxford-Lafayette County Hospital reports, Mrs. Campbell bled from Holly Springs to Oxford.

"The patient and her baby arrived with patient bleeding

actively from the uterus — the baby cold, but alive," the hospital reports revealed.

BECAUSE OF her ordeal, Mrs. Campbell had to remain in the Oxford-Lafayette County Hospital for an

extended period.

Because of the racist actions of Marshall County Hospital officials, Mrs. Hattie Mae Campbell has filed a \$250 thousand civil action suit. However, despite this legal

move, it is clear, as the Honorable Elijah Muhammad

says: "Black people need a hospital of their own."

Dahomey vows self-sufficiency

PEKING (HSINUA) — Dahomeyan president Mathieu Kerekou stressed in a recent television interview that his nation is determined to build itself by its own efforts, and no foreign aid is allowed to prejudice state sovereignty and national dignity.

"The Third-World people will under no circumstances

barter their freedom and dignity for foreign aid. That is why we have chosen to rely first of all on our own efforts," said President Kerekou.

"However, we don't systematically refuse foreign aid," he said, because that depends on whether it effectively contributes to the national development.

Pentagon land grab

(Continued from page 9)

planning to sell it either to the military or to gambling and resort interests.

Pangelinian is himself an attorney for the reputedly underworld-controlled Bally Corporation—the largest manufacturer of slot machines in the world.

Chief U.S. negotiator F. Haydn Williams says talks with the Marianas representatives have "resolved nearly all fundamental questions," and predicts a final agreement will be reached this fall, allowing the acquisition plan to be submitted for Congressional approval next year.

Williams, a deputy assistant secretary of defense from 1958 to 1962, is now president of The Asia Foundation, a San Francisco-based organization that funds educational projects and that—according to the New York Times—has been closely linked to the CIA.

Pentagon plans call for turning two-thirds of the Manhattan-shaped island into a combined air base, supply depot, and Marine guerrilla training base—with live air naval bombardment of the island. Williams, however, assures the people that "military operations and their noise will not disturb them."

SINCE PLANS for the base were first announced in May 1973, the number of troops to be stationed there has more than tripled. During war exercises, as many as 13,000 troops are slated to be on the island.

The Pentagon also plans to maintain control of two parcels of land on nearby Saipan (where the CIA trained Chinese Nationalist guerrillas between 1951-62) and to continue use of its target range on a small uninhabited island 45 miles north of Tinian.

Tinian is Micronesia's most fertile and productive island, with 900 people living and farming on 40 square miles. Ben Manglona, Tinian's agronomist, asserts that "Tinian could easily feed everyone in Micronesia."

THIS WINTER Tinian even plans to sell watermelon and cantaloupe in West Coast markets. A cattle ranch on the island is already supplying Micronesia's beef and pork and will soon begin producing the first fresh milk in the Western Pacific. But Manglona complains that "it will be a little difficult to be farmers when the Pentagon plans to turn our best land into an airbase. All they plan to leave us is a rocky hillside."

As the Pentagon quietly pursues its acquisition plans, supported by speculators from Saipan, opposition to the take-

over is mounting. The United Nations Trusteeship Council is reportedly on record in opposition to the private Marianas talks.

The Congress of Micronesia also opposes the talks and, says Tosiwo Nakayama, president of the Senate, "Micronesia must remain united; we will continue to oppose any U.S. attempt to dismember our nation."

IN RESPONSE to U.S. cancellation last spring of a referendum drawn up by the Tinian council, more than half of the adult population signed a petition opposing U.S. plans, calling for an end to the talks, and saying they no longer wished to be represented by the present Marianas negotiators. Williams refused to accept the petition.

When Williams announced that a surveying team would be visiting the island in September, Tinian's newly elected mayor, Felipe Mendiola, replied in a letter, "You and your surveyors are not at all welcome on the island of Tinian. Be guided accordingly."

Mendiola is also head of the newly formed Tinian Committee for Justice, which plans to send a delegation to Washington to lobby against the base.

Although Congress has not yet been asked to authorize construction of the base, the House Appropriations Committee said last month that "it doubts that construction of a new base complex can be justified." And a number of congressmen, including Senator Alan Cranston, D-Calif., and Congressman Ronald Dellums, D-Calif., are already on record against its construction.

AS A HEDGE against the possibility that Congress may refuse to appropriate funds, one Navy source said that Seabees from Guam may be called in to begin construction—as they were during the first phase of building several years ago on Diego Garcia in the Indian Ocean. (The Defense Department appropriates general funds for Seabee "construction work.")

In addition, Air Force plans call for a "bare base capability" that will allow portable base facilities, already in storage in New Mexico, to be used on an interim basis.

But what the Pentagon is really counting on to secure the base is the successful conclusion of the negotiation talks with the Marianas representatives, although no formal request for acquisition of the Marianas has yet been made to Congress. Williams and other administration committees.

White riots

(Continued from page 11)

after the white takeover, roving bands of armed white extremists shot at Blacks. Reports on Sept. 12 stated that 60 people were dead and 427 injured. Less than 12 of those killed were white.

Both the Portuguese Government and Frelimo acted with restraint during the rebellion. The Portuguese radio condemned the "criminal" attitude of the "reactionary rebels," and Samora Machel, president of Frelimo, asked Frelimo and its supporters to avoid unnecessary bloodshed.

However, the anger and resentment of the Black population erupted in rioting during the rebellion.

Progress toward Angolan independence is lagging behind that of Mozambique and Guinea-Bissau, whose independence was recognized by the Portuguese Government on Sept. 10.

Because of divisions within the organization of the Popular Movement for the Liberation of Angola (MPLA) — the country's largest and most militant of several liberation groups — Portugal is dealing with two smaller, less militant organizations.

Africa News reports that according to BBC reporter David Martin, in Lisbon, Portugal greatly prefers to negotiate with the National Front for the Liberation of Angola (FNLA) and Unita, which has already arranged a separate cease-fire with Portugal.

Martin believes that the United States may have been instrumental in arranging talks between Portugal and FNLA, noting a widespread belief in Africa that FNLA leader Holden Roberto has received CIA funds.

Africa News also reports that according to a South African newspaper, the Johannesburg Star, Unita is the group most favored by Angola's white business community. The Star said that Unita president Savimbi is called "the saviour of the white man."

IN OTHER developments, Le Monde, a French daily, reported the formation of the Resistance Front, a clandestine organization in Angola led by white colonialists which is also profiting from the recent divisions in the MPLA.

They threaten direct action, presumably if Portugal reaches an agreement with the MPLA.

However, MPLA's "Voice of Angola" radio broadcast recently announced an accord reached between the different factions of MPLA, which will now work out its negotiating position with Portugal.

Blacks lack emergency care

LITTLE ROCK—Emergency medical facilities have been absent from Little Rock's predominantly Black central city area since February when the emergency room at Central Baptist Hospital was closed a day after the new Baptist Medical Center was opened in suburban Little Rock.

Middle East Report

(Continued from page 2)

Mr Ford, like all other U.S. Presidents, pledged that the U.S. will increase aid to needy nations and also take other measures to help relieve hunger. He made promises but gave no specifics.

BY NOVEMBER, the date that Mr. Ford assigned to present his specific steps, the famine in India will have reached disastrous proportions — vastly exceeding anything in Sub-Saharan Africa or in India in years past.

The shortage of fertilizer in India, which is partly responsible for its current human tragedy, is not because of Arab oil policies (there is an oil surplus in world markets), but because the U.S. restricted the exports of fertilizer.

Studies taken by the Western countries themselves indicate that the rise in oil prices has a minimal effect on food prices. And yet food prices which are mainly controlled and manipulated by the U.S. have tripled in recent months.

The demand that Arabs lower their oil prices is not motivated by Mr. Ford's desire to feed hungry nations. The world still remembers the U.S. role in starving the Egyptian people when their late President Abdul Nasser refused to yield to U.S. domination.

THE ECONOMIC WEAPONS used by Washington to bring down the freely elected democratic government in Chile is still being practiced against Cuba and other progressive nations.

Lower oil prices will only benefit the U.S. which constitutes six per cent of world's total population and uses 30 to 60 per cent of the world's energy.

The real crisis is not oil shortages or oil price increases, but a political crisis over who is to control and share the rewards of these vital resources.

What disturbs the U.S. establishment is the fact that the monopoly power that has historically been the preserve of the giant oil firms, seem to be diminishing. The balance of economic and political power which has always been in favor of the Western industrial countries is shifting.

India preparing to launch first satellite

Space program, legacy of Nehru's policies

By Babu Bhaskar
(Pacific News Service)

SPRINGER, INDIA (PNS) — India, which shocked the world last May by exploding an underground nuclear device, is now preparing to launch its first satellite.

A TEAM of scientists and technologists, led by Dr. U.R. Rao, an Indian scientist who was a principal experimenter in the U.S. Pioneer deep space probes, has built India's first satellite in the southern city of Bangalore.

Since they have no launching facility, the Indian Space Research Organization has arranged with the Soviet Union to launch the 726 pound satellite. (The first Sputnik, by comparison, weighed 183 pounds; the first Explorer weighed 18.13 pounds.)

After extensive tests in India and Russia, the satellite should be shot into space from the Volgograd Cosmodrome in Russia in December.

The launch will mark a significant step forward in India's 10-year-old space program. The key element in current plans is development of a launching capacity — Prime Minister Gandhi has said an Indian orbital flight is slated for 1978.

India's venture into space technology is the direct result of its first prime minister's deep faith in the power of modern science in tackling the country's awesome problems. Jawaharlal Nehru set up an

atomic energy department soon after India gained independence and established what is now the Department of Space — this, soon after the Russians Sputniks were launched.

Over the past ten years, Indian space science establishments have launched more than 600 United States and Soviet-made rockets, usually for meteorological studies. The Menaka-1 rocket, named after a celestial damsel in Hindu mythology, has been successfully tested and should become operational this year.

Other rockets under development range in capacity up to RH-560, flight tested last year, which can carry a 198-pound payload to an altitude of 256 miles.

Researchers have also reported notable progress in the development and production of liquid propellants and electronic guidance systems.

INDIA'S SPACE program, though small, has been expanding rapidly. In the last five years, for example, expenditures in this area have increased from about \$5 million to about \$25 million per year. Space manpower has almost tripled in the same period, so that the program now involves 4,500 scientific and technical personnel.

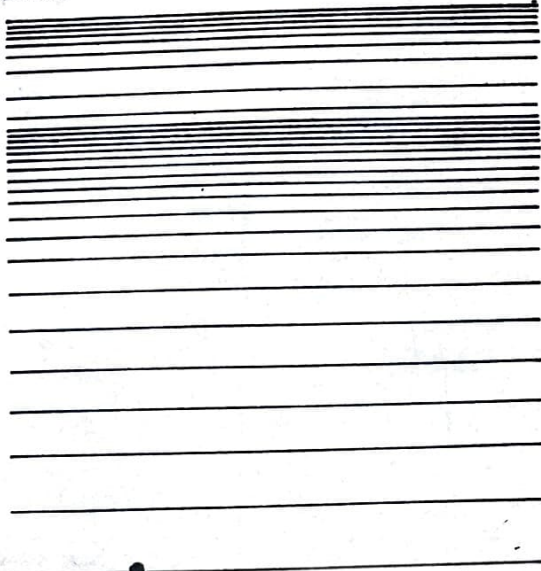

Westerners may well be disturbed to realize that only about one-quarter of the

budget goes for personnel — which works out to an average of \$923 per employee. Indians are therefore designing, building and launching satellites on an average wage of \$18 a week. (This must be viewed in context — India's per capita annual income is only \$90 a year.)

Next year, the Indian Government, in collaboration with NASA, will begin a spectacular experiment in the use of space technology. The program will use NASA's ATS-F satellite to carry instructional television program — on agriculture, family planning, education — to Indian villages. About 2,400 community t.v. sets will be set up in selected villages to illiterate villagers who can hardly be reached through any other communications medium.

REMOTE SENSING of natural resources and accurate weather forecasting are two other areas where India hopes to benefit from its space efforts. The work in meteorology is especially important because India's economy is so strongly dependent on monsoons.

Like the nuclear program, the space program has been viewed with disfavor, even concern, by India's critics. Despite Prime Minister Gandhi's claim that the space program, like the nuclear experiments, has no military

objective, the fact remains that the technology for peaceful uses of atomic energy can also be turned to military use. Those who question India's

good intentions — notably neighboring Pakistan — cannot be easily persuaded to accept declarations that these efforts are solely for peaceful purposes.

While the U.S. limits nuclear capacity of other nations

Nuclear reactors proliferate in United States

By James Hoard Smith
(M.S. Staff Writer)

LITTLE ROCK — The United States has been the principal advocate of "limiting" the production of nuclear weapons and developing "peaceful" use of nuclear energy, yet U.S. atomic scientists continue to develop such weapons while the Atomic Energy Commission (AEC) unhesitatingly allows the construction of nuclear power reactors by electric utilities.

SINCE JANUARY, electric utilities have announced plans for the construction of 21 new reactors.

According to a report issued recently by the AEC, there are 45 nuclear plants in the U.S. already licensed for operation, two others are authorized to operate, 60 are under construction, and there are 105 for which reactors have already been ordered. The AEC predicts that by the end of the century, 1,000 nuclear reactors will be in operation in

the U.S.

The AEC itself has come under criticism in recent weeks because of its reluctance to strictly enforce AEC regulations. A recent study undertaken by the New York Times regarding the commission's regulatory record on safety violations indicates that for the year ending June 30, AEC inspectors found 3,333 violations in 1,288 of the 3,047 installations inspected.

THE STUDY reveals that during that period the AEC imposed punishment on only eight occasions. The commission revoked the license of two small companies and levied civil penalties in the amount of only \$37,000 against six others. The shabby enforcement record clearly points to the AEC's reluctance to enforce safety regulations.

The ambiguity in the U.S.'s position on nuclear power is also indicated by the alleged concern with the breakdown in

Strategic Arms Limitation Talks (SALT) with the Soviet Union while at the same time allowing the construction of nuclear reactors near waterways.

SOME CRITICS said the refusal to conduct adequate research into the safe disposal of nuclear waste was also indicative of the American position. There is a growing concern that the steady concentration of nuclear reactors in the private sector will culminate in the manufacture of a nuclear bomb.

The promise of nuclear reactors to Egypt and Israel by former President Nixon has prompted many to further question the U.S.'s ambiguous position on nuclear controls.

Reportedly, the reactors promised to the two countries can produce 400 pounds of plutonium a year as a "by-product" of electric generation. Some scientists

say that it takes only from nine to 17 pounds of plutonium to make a crude atomic bomb.

AN OFTEN overlooked phenomenon is that the age of nuclear warfare was ushered in by the U.S. The first major test of a nuclear bomb was made during World War II at the expense of the Japanese, many of whom still suffer as a result of radiation.

It was not until so-called Third-World nations such as India and China detonated nuclear devices that American atomic scientists began, to voice an alleged concern for the international arms race.

The detonation of such a device last May by India set off a chain reaction in the American scientific and political communities. India reportedly received considerable assistance from Western nations — such as Canada — in the development of its nuclear device.

Because of the entry of other nations into the international

arms race, a group of atomic scientists meeting in Chicago, recently declared that the nuclear arms race is "now more than ever beyond control." The scientists also pushed the hands of the symbolic "doomsday" clock three minutes closer to the hour of midnight, the alleged hour of atomic holocaust.

Improve Korean timber output

PYONGYANG (HSINHUA) Forestry workers of the Democratic Peoples Republic of Korea have achieved substantial results this year in increasing timber production for the country's construction industry.

Workers have also improved their transportation methods so that logs can be sent out on time to meet the needs of construction.

MUHAMMAD SPEAKS

'Black and white together' era spawned educational windfalls, but

Education 'industry' still excludes Blacks

By James Hoard Smith
(M.S. Staff Writer)

LITTLE ROCK — Public education increased its multi-billion dollar status this year and has emerged as the top industry in the United States.

ACCORDING TO data from the United States Education office, the cost of public school education this year will reach \$108 billion, a sum representing almost eight per cent of the Gross National Product (GNP). This figure also represents an \$11 billion increase since last September when an estimated 59 million students were registered in the nations schools.

Only about 58.6 million students were expected to return to school this year to face some 3.3 million teachers, administrators and other school related personnel. Twenty-nine per cent of the population reportedly is involved in the education industry.

Although education became the lucrative business that it is primarily at the expense of Blacks who suffered extensively from the "Black and white together" masquerade, the "186,000" Black educators on the public

school rolls and the thousands of other Black school-related personnel will receive no substantial benefits.

IT'S PROBABLE they face

continued efforts to have their numbers reduced in order to fill job capacities with whites.

Most of this year's budget—if past trends can be

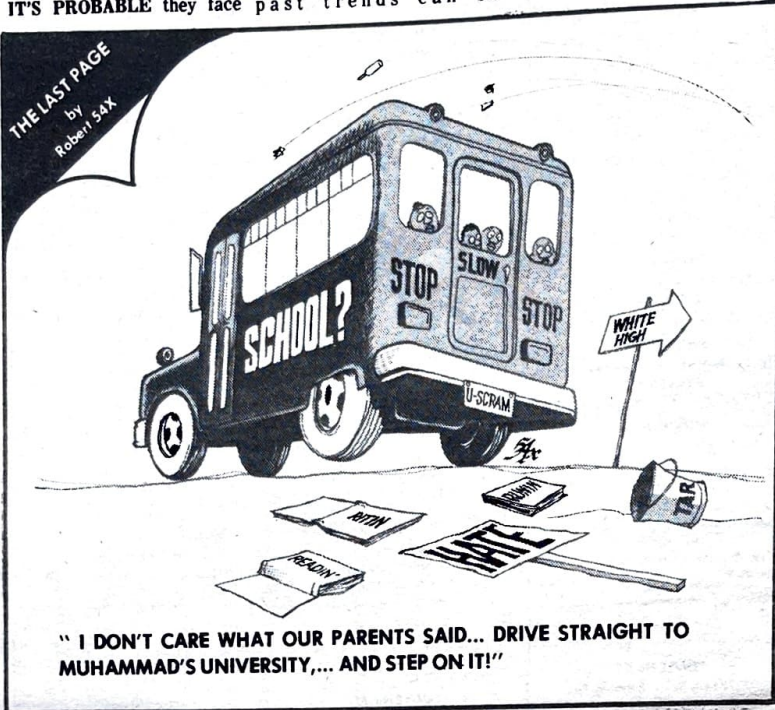

utilized—will go for administration, maintenance and equipment, and for the appeasement of the thousands of teachers on strike across the

nation. The nations "6.8 million" Black students also will not benefit as a whole from the results of increased expenditure for education. Many of these students will undoubtedly join thousands of other Black students who have been forced out of school due to white disenchantment with integration.

THESE STUDENTS will be exploited in some school districts although they are no longer in school, especially in those states that fund school districts on the basis of average daily attendance.

Using Arkansas as an example the practice is based on school districts receiving \$3 per day, per student, based on average daily attendance. This practice came to the attention of many Arkansas Blacks in 1972 when the State Board of Education granted operating funds to the Marianna School District based on average daily attendance from the previous years.

The majority Black student population was boycotting the school at the time. However, the school still received its fund despite the absence of Black students.

WOMEN AND GIRL VISITORS,
who are invited to attend Muhammad's Temple of Islam.
We request that all women and girls dress modestly.
Please do not wear mini skirts or tight fitting garments. Be sure that your dress, suit or skirt is calf length or longer. Ladies must wear stockings, girls may wear stockings or socks.
Any visitor who will not comply will not be admitted into our meeting.

Thank you for your cooperation
M.G.T. & G.C.C.

This is the question asked most frequently by both the whites and the blacks. The answers to this question I shall state as simply as possible.

1. We want freedom. We want a full and complete freedom.

2. We want justice. Equal justice under the law. We want justice applied equally to all, regardless of creed or class or color.

3. We want equality of opportunity. We want equal membership in society with the best in civilized society.

4. We want our people in America whose parents or grandparents were descendants from slaves, to be allowed to establish a separate state or territory of their own—either on this continent or elsewhere. We believe that our former slave masters are obligated to provide such land and that the area must be fertile and mineral rich. We believe that our former slave masters are obligated to maintain and supply our needs in this separate territory for the next 20 to 25 years—until we are able to produce and supply our own needs.

Since we cannot get along with them in peace and equality, after giving them 400 years of our sweat and blood and receiving in return some of the worst treatment human beings have ever experienced, we believe our contributions to this land and the suffering forced upon us by white America,

justifies our demand for complete separation in a state or territory of our own.

5. We want freedom for all Believers of Islam now held in federal prisons. We want freedom for all black men and women now under death sentence in innumerable prisons in the North as well as the South.

We want every black man and woman to have the freedom to accept or reject being separated from the slave master's children and establish a land of their own.

We know that the above plan for the solution of the black and white conflict is the best and only answer to the problem between two people.

6. We want an immediate end to the police brutality and mob attacks against the so-called Negro throughout the United States.

We believe that the Federal government should intercede to see that black men and women tried in white courts receive justice in accordance with the laws of the land—or allow us to build a new nation for ourselves, dedicated to justice, freedom and liberty.

7. As long as we are not allowed to establish a state or territory of our own, we demand not only equal justice under the laws of the United States, but equal employment opportunities—NOW!

We do not believe that after 400 years of free or nearly free labor, sweat and blood, which has helped America become rich and powerful, that so many thousands of black people should have to subsist on relief, charity or live in poor houses.

8. We want the government of the United States to exempt our people from ALL taxation as long as we are deprived of equal justice under the laws of the land.

9. We want equal education—but separate schools up to 16 for boys and 18 for girls on the condition that the girls be sent to women's colleges and universities. We want all black children educated, taught and trained by their own teachers.

Under such schooling system we believe we will make a better nation of people. The United States government should provide, free, all necessary text books and equipment, schools and college buildings. The Muslim teachers shall be left free to teach and train their people in the way of righteousness, decency and self respect.

10. We believe that intermarriage or race mixing should be prohibited. We want the religion of Islam taught without hindrance or suppression.

These are some of the things that we, the Muslims, want for our people in North America.

What the Muslims Believe

1. WE BELIEVE in the One God Whose proper Name is Allah.

2. WE BELIEVE in the Holy Qur-an and in the Scriptures of all the Prophets of God.

3. WE BELIEVE in the truth of the Bible, but we believe that it has been tampered with and must be reinterpreted so that mankind will not be snared by the falsehoods that have been added to it.

4. WE BELIEVE in Allah's Prophets and the Scriptures they brought to the people.

5. WE BELIEVE in the resurrection of the dead—not in physical resurrection—but in mental resurrection. We believe that the so-called Negroes are most in need of mental resurrection, therefore, they will be resurrected first.

Furthermore, we believe we are the people of God's choice, as it has been written, that God would choose the rejected and the despised. We can find no other persons fitting this description in these last days more than the so-called Negroes in America. We believe in the resurrection of the righteous.

6. WE BELIEVE in the judgment, we believe this first judgment will take place as God revealed, in America.

7. WE BELIEVE this is the time in history for the

separation of the so-called Negroes and the so-called white Americans. We believe the black man should be freed in name as well as in fact. By this we mean that he should be freed from the names imposed upon him by his former slave masters. Names which identified him as being the slave master's slave. We believe that if we are free indeed, we should go in our own people's names—the black peoples of the earth.

8. WE BELIEVE in justice for all, whether in God or not; we believe as others, that we are due equal justice as human beings. We believe in equality—as a nation—of equals. We do not believe that we are equal with our slave masters in the status of "freed slaves".

We recognize and respect American citizens as independent peoples and we respect their laws which govern this nation.

9. WE BELIEVE that the offer of integration is hypocritical and is made by those who are trying to deceive the black peoples into believing that their 400-year-old open enemies of freedom, justice and equality are, all of a sudden, their "friends". Furthermore, we believe that such deception is intended to prevent black people from realizing that the time in history has arrived

for the separation from the whites of this nation.

If the white people are truthful about their professed friendship toward the so-called Negro, they can prove it by dividing up America with their slaves.

We do not believe that America will ever be able to furnish enough jobs for her own millions of unemployed, in addition to jobs for the 20,000,000 black people as well.

10. WE BELIEVE that we who declared ourselves to be righteous Muslims, should not participate in wars which take the lives of humans. We do not believe this nation should force us to take part in such wars, for we have nothing to gain from it unless America agrees to give us the necessary territory wherein we may have something to fight for.

11. WE BELIEVE our women should be respected and protected as the women of other nationalities are respected and protected.

12. WE BELIEVE that Allah (God) appeared in the Person of Master W. Fard Muhammad, July, 1930; the long-awaited "Messiah" of the Christians and the "Mahdi" of the Muslims.

We believe further and lastly that Allah is God and besides HIM there is no God and He will bring about a universal government of peace wherein we all can live in peace together.
