

We Create Jobs . . .

“The Black man’s duty is for the self preservation of his Black self and kind. I have given you an example through my own work and I am giving you an example of how you can do something for self.”

— Messenger
Muhammad

. . . by doing for self!

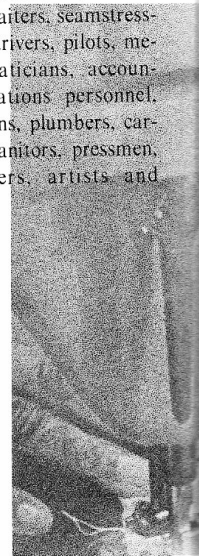

The Black man of America cannot fail to behold the many worthwhile works of the Muslims under the crescent and the star. Under the inspiring leadership of The Most Honorable Elijah Muhammad, we flourish . . .

*Symbols of success are visible, while America declines as a world power. Unemployment is on the rise in America, but in our nation within a nation (the Nation of Islam) we see help wanted signs everywhere. We create jobs to provide the necessities of life; food, clothing and shelter.

In spite of many obstacles, the Nation of Islam’s focus is upon a divine master plan layed out by Messenger Muhammad. Each Believer and each Black man in America has benefited from His programs.

An examination of the Nation’s businesses illustrate our program of self help. In the businesses in the Chicago area alone, there are supermarkets, groceries, a meat packing plant, bakery, restaurants, barber-ship, clothing factory, clothing store, Muhammad Speaks Newspaper Press and warehouse . . .

The range of employment offered by these businesses includes managers, cashiers, clerks, secretaries, bakers, cooks, butchers, waiters, seamstresses, tailors, truck drivers, pilots, mechanics, mathematicians, accountants, public relations personnel, painters, technicians, plumbers, carpenters, writers, janitors, pressmen, lawyers, engineers, artists and scientists.

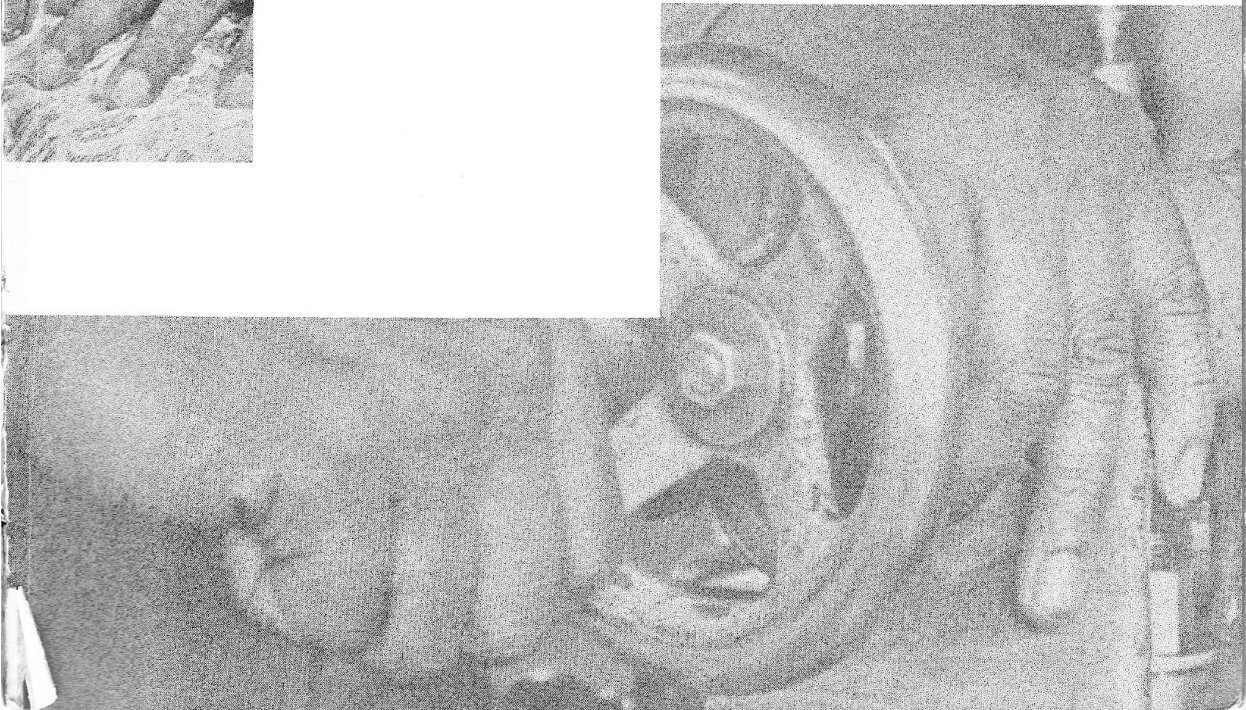

We have thousands of acres of farmland that require trained farm personnel of every description. Our modern Universities of Islam provides rewarding employment for educators, apprentice teachers, nurses, counselors, librarians and secretaries.

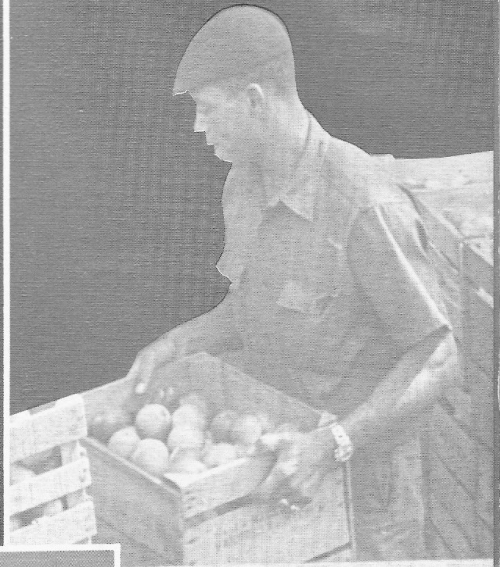

The Muslims in America, under the guidance of Messenger Muhammad, are building a nation. The Black man need not lament because we have great hope. Allah's Messenger guides with a divine foresight. We are a blessed people! Allah has willed it so!

We are living in the days of judgment. The Messenger, our Warner, speaks to the Black man continuously of his bright future; however, He has said that America is doomed. America is falling! The stronghold of the American Government is falling to pieces — her dollar has lost its power, her prestige among nations is gone! She has no jobs for herself, how can She have them for us, Black man?

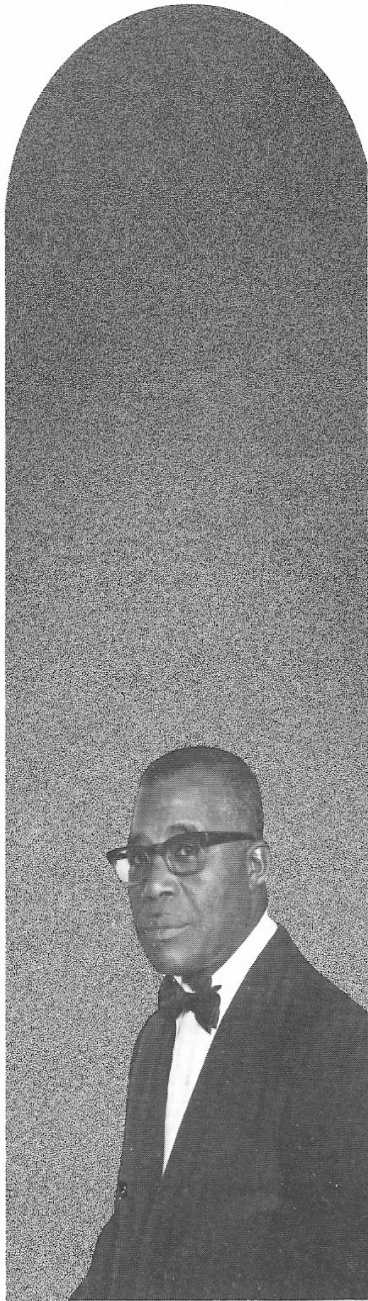

Under the flag of Islam, we are assured of success. We are making a heaven for ourselves while we live, through submitting to Allah and His Messenger. By pooling our resources both mentally and physically, we can build a powerful Black Nation.

We can do this with the blessings and divine guidance of Almighty God, Allah, and the great leadership of His wonderful Messenger, The Most Honorable Elijah Muhammad. There is a job for everyone . . . in the creation of a nation.

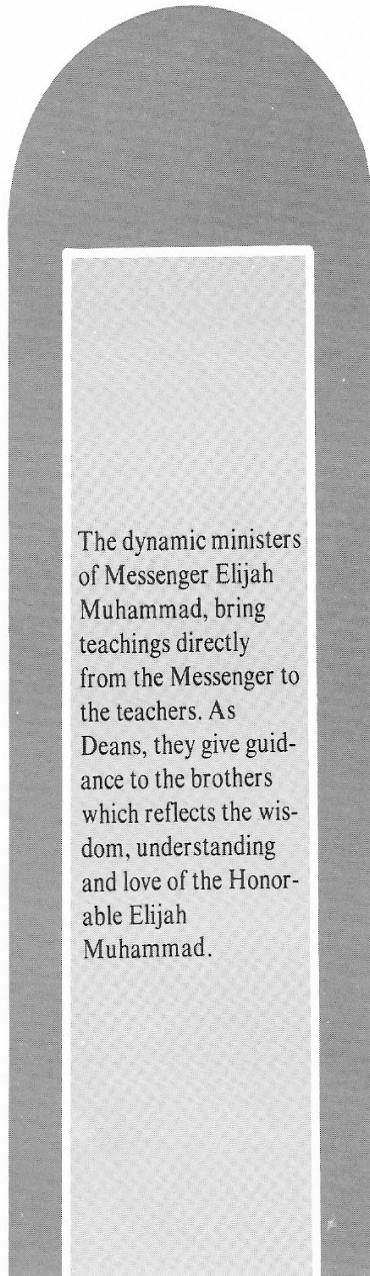

We labor to build a nation.
