

RESURRECTION, Part 2

'WATER OF REVELATION'

The God was not a selfish God. He did not want to exist alone. He wanted to make that which could witness His Mercy, His Charity, and His Generosity.

The Power Of God's Will

So, by the Power of His Will, He willed from Himself that which would take form (make creation) from Creator. It was "creation" because it was of and separated from "Creator."

Since nothing but His Own Will formed to make the creation, creation is nothing but the Will of God in the form we call "creation."

That Will, being separated from Creator, submits to the laws of creation. We obey gravity and we obey the laws that control the cycle of life.

We come into life from lifeless matter of earth and we must obey the law of that lifeless matter we call earth. At one time or another, we return to lifeless matter.

Then lifeless matter receives life again, grows out of a decayed form into a new form, and comes up again from lifeless matter to life: Qur'an.

The Will of God in the form and nature of creation springs up out of the physical earth into plant life, manifests Itself into animal life, and manifests Itself on into what we call human life. This is the Power for Divine Manifestation bursting the earth, coming forth.

It first bursts the earth as nothing but a mineral manifestation, then into a plant manifestation, then into an animal manifestation, then into a human manifestation, then on into a Divine manifestation. This is

God manifesting His creation (His Will) out from Himself. He created the world so that that which He willed into being could come into the knowledge of Himself.

He began to desire and His Will went forth from His own Will and manifested worlds. Then He called them back to Himself so that they could be rewarded with the greatest of all rewards.

We know that bodies thrown out into the heavens are caught by the gravity of a larger body. The gravitational pull of the larger body causes them to bend their path. Since they can't escape the pull of the larger body, they begin to bend and come back to the pull of that body. In bending, they form a circle around the body.

God formed creation and worlds, but these worlds could not escape the pull of God.

The whole creation rotates in the gravity of Almighty God. It cannot escape Him.

You Will Come Into The Reality Of God

But the Black man and woman of America thought that we had escaped because in our minds we could not see the reality of the Originator.

Brother and Sister, you don't yet know the reality of God. But if you have patience and accept what I teach you of God, you will come into the reality of God. Then you will truly be a superior people in the earth.

When we come into the knowledge that God is in us and when we accept Him in us, we can't help but be the rulers of the earth.

His Purpose in creating the world

was to make something that would benefit from His Existence. The only way He could do that was by doing it by Himself and of Himself.

We are not independent and we are not our own bosses. You may think you are bossing yourself, but there is a Mind superior to you that is bossing you without your knowledge.

God has created everything as a witness bearer that He exists and that He is God and is in control at all times.

Though the world becomes filled with solid darkness and we can't see His Presence, He is still present and ruling at all times.

You Have a Great, Divine Mission

Brother and Sister, if we are not ready to stand up and be representatives in the earth for Almighty God, then the earth will never produce a people or a community fit to show the Power and Glory of God to the whole of humanity.

If we are not that people and if we are not ready, it will never come. We know that God will not fail. We see His Manifestation very plainly and we see His Works very clearly.

You should finish reading this article with confidence and with a firm belief that God has chosen you. You have a Great, Divine Mission. If you can't understand and accept that Almighty God (the Originator and Creator from beginning to end Who has no beginning) has a mission for you in the earth, then keep following Me because you must come into the knowledge of your great mission. God is with Me.

As-Salaam-Alaikum
