AS I HAVE said for years, the freedom of the Police Department to attack, beat and kill so-called Negroes throughout the United States of America will some day cause the doom of America. We and our parents — for the past 300 years — have been beaten, killed and robbed of everything. We always have had to accept the inferior jobs and the lowest pay — always the last ones to be hired and the first ones to be fired.

In the South we did not expect anything but inferiority. We were even shot down for asking for justice. Now, it is getting like that in the North. The fact is evident that today, nothing will settle the cause of justice and prevent the beatings of the so-called Negro by his slave-master's children except total separation.

WE SEE CLEARLY that the white man does not want us separated from him because separation would mean that he would no longer have the opportunity

to beat and shoot us down whenever he pleases. If we were to ourselves on some of this earth that we can call our own, and if we did not have these ignorant people who still love the murderer of themselves and their people, we could unite and get together against such injustices under which we are now suffering, and go to ourselves. I pray to Allah (God) that such foolish people, who love and defend the murderers and who hope to become one of them, will suffer the worse with them.

What we actually need is a united black front in America — one that is so closely knit it would be like a cement wall. This is what we need, and in the cause of unity, we should have it.

Actually, we should chastise our own people when we see them refuse to accept their own kind and unite with their own kind after the majority is united. We should chastise our own who go over to the murderer and thereby become our enemies.

IN LOS ANGELES, it is as

clear as sunshine that the Police Department was guilty of starting the trouble out there—as usual—when they attacked Mr. Fry and started beating and manhandling his mother. As we are told, this is the truth of how it started. As usual, they want to put the blame on the so-called Negro for starting it.

Nature did not make us in such a way that we can stand and look at aliens of our race — those who are not one of our race — beating and killing our people unmercifully, right before our eyes, without our saying or doing something in return, regardless how cowardly the black man has become toward the white man who put fear in him for the past 400 years.

No man can remain neutral when it is a case of someone beating his own mother right there before his eyes. The white man does these cowardly, boastful acts to our people to keep our people in fear of him.

This is what goes on in Los Angeles and other cities and towns throughout America. They get the so-called Negro, handcuff, beat or kill him and then claim he was "resisting arrest." They place heavy unjust charges against them. The courts know we are not guilty, but the police officer is his brother. They have no heart and they, too, desire to see the so-called Negro killed.

The Los Angeles Police Department and the National Guards attacked our Mosque, shot it up, then went inside and shot up the ceiling, broke up desks and typewriters and destroyed all the property they could find. For what? Just because they are devils and that is their nature.

ALLAH (GOD) revealed

Mr. Elijah Muhammad

them as a race of devils. They were created to hate, deceive, murder and kill the black man. They are doing their job well. Now, Allah stands before them, and as it is written, He will repay. He will destroy those who have destroyed the righteous. It was this race of people who killed the prophets of God as you read in your Bible.
