

**NEW FRONTIERS**

By Laila Mannan (Formerly Sonia 5X Sanchez)

**Who/What Am I?**

I have something new to say  
When you READ ME everyday  
I bring NEWS from East and West  
From Hong Kong/ to Budapest.  
You can hold me.  
You can fold me  
But in order to know me  
You must read me.

**What am I?**

I am the B \_ L \_ L \_ \_ N \_

N \_ \_ S.

I was once a slave  
Who was very brave  
I was a man without fear  
who gave the first prayer  
in a land where Arabia/ lay  
And though there were great odds  
I was not afraid  
to proclaim the religion of God.

**Who am I?**

I am Master B \_ \_ \_ \_

You use me to write on blackboards

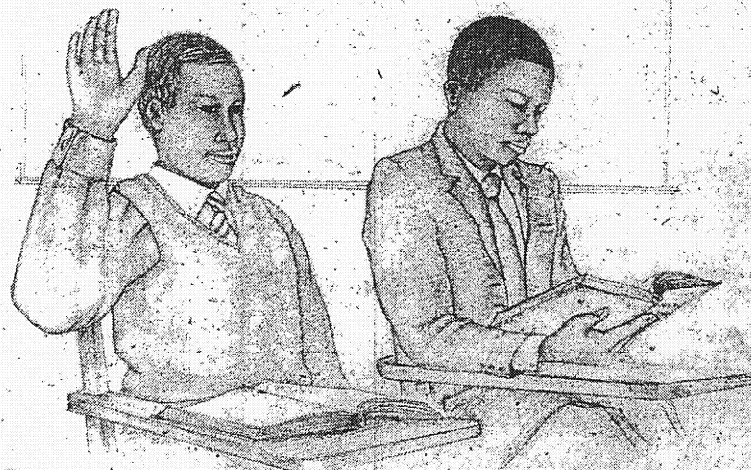

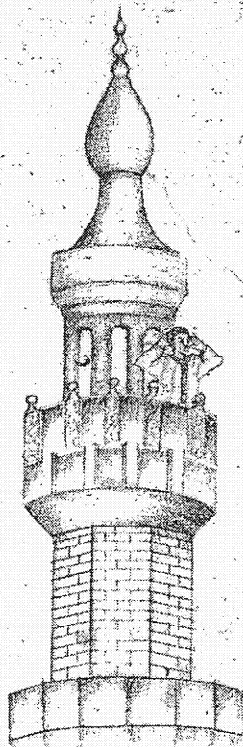

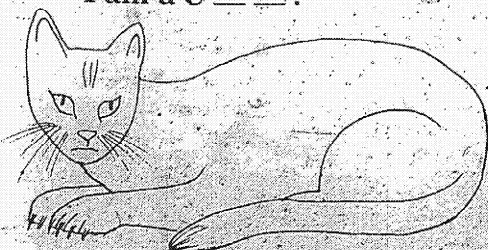

**What am I?**

My name is C \_ \_ \_ K.

Two pointed ears  
and four soft paws  
long straight whiskers  
and tiny claws  
I rest all day  
while you go out to play  
I say meow-meow  
And sometimes yowl.  
Who am I?

**Who am I?**

I am a C \_ \_ \_

We never act crazy  
nor are we lazy  
We study hard  
and love our God  
We do all we can  
to help the family of man

**Who are we?**

We are M \_ \_ L \_ \_ S.

They say I like cheese  
And I never say please  
I come out at night  
to give you a fright  
my name rhymes with bat  
And I don't like your cat

**Who am I?**

I am a R \_ \_ \_

**Words to study**

- MI - CRO - SCOPE — an instrument with lenses (a glass similar or like eyeglasses) that helps the eye to see things that are very, very small.
- COPE — to overcome difficulties
- REP-TILE — an animal that crawls or moves (as a snake) on its belly or (as a lizard) on small short legs. Body temperature of the animals is affected by surrounding climate.
- MAM-MAL — a warm - blooded animal with fur or hair that nurses its young. Man has a mammal biology (body).
- DE-CI-SION — the act of making a choice.
- DI-VI-SION — the act of breaking a whole object up into parts.
- PRO-CLAIM — to announce.
- HONG-KONG — a British protectorate off the coast of China.
- BUDAPEST — BUD-A-PEST — a city in Hungary.
- A-RA-BI-A — A country in the Middle East.

You'll find me under a microscope  
I'm very small but I can cope  
I'm a one-celled animal  
not a reptile/ or mammal/  
I make a quick decision/  
and multiply/ by division/

**What am I?**

I am an A \_ \_ \_ B \_ \_
