

By Dorothy Wedad

Part I

Prior to the coming of Almighty God, Allah Who came in the person of Master Fard Muhammad, and raised up the Honorable Elijah Muhammad, the Black Woman in America was totally ignorant to herself and her role. The devil (white man) has done such a thorough job of destroying the Black Family and forcing the Woman into a more and more dominating role, until today she actually pictures herself as being equal to the man.

In this so called age of the "liberated woman," the Black Woman following along behind the devil woman frowns on the idea of woman as homemaker, mother and wife. She feels that she should have equal job opportunities in any field, the same as the man.

The Honorable Elijah Muhammad, Messenger of Allah to all of our people, has been missioned to right the wrong that has been done to us by the white man. His teachings to the Black Woman in America are designed to return her to her rightful role which is the "Mother of Civilization and the Queen of the Universe," a most beautiful role.

But first he teaches her that the Black Man is the first in the creation and she was next. And, that man being self-created, then made her for himself as a means of reproducing himself. Immediately she learns that she cannot be equal to man, when from the beginning they were created for different purposes.

He further teaches her that she is the field in which man plants the seed, and another life is born. From this alone, she can see the magnificence of her role, to be the means by which human life is reproduced.

Under the rule of the white man, the Black Woman has become a total stranger to that which she was created. He has taught her to hate self and kind and that Black was "nothing." Therefore he has made it easy for her to abort the lives of her children.

All over this wicked government, mass abortions are being performed on Black women, both married and single. By the hundreds, they go to

these abortion centers and sign their names on the dotted line, and with the stroke of a pen, they strike out a life, "Murder" in the name of the "Law."

The wicked beasts sit back and laugh, for once he gets you under his knife, he can fix you so you will never have children again and you'll never even know it.

There are many methods of abortion, but one of the most inhumane, is the one where the fetus (unborn baby) is dismembered and removed from the womb, section by section. Would you still contend with the Messenger that the white man is the devil?

Why do you think the devil is

pushing the passing of abortion laws? Has not Messenger Muhammad been teaching us for more than 40 years that the devil wants to destroy all of us. How better to destroy a Nation, than to destroy the very means by which it reproduces itself? The Woman!

With the cold calculation of a beast, which Messenger Muhammad says he is, he stopped lynching and shooting down the Black Man—causing the world to Bear witness to the Messenger that he is the real devil—and he put on a cloak of white, a scalpel became his weapon, and he is going about systematically killing off the Black Man by butchering his woman.
