# The Black Woman: Must have Islam

By Dorothy Wedad  
Part III

No money for food or shelter, but there is money for free abortions for those on welfare and other federal and state-aided programs.

It seems to me that the Black Woman in America—who has had to use every means possible to get the white man to give her free aid for the very necessities of life—should ask the question, why are there funds being allocated for free abortions when they are cutting the funds for food stamps and housing?

Secondly, since Black folks on welfare never had the first preference at medical benefits before, why have abortion clinics been set up in the ghettos first.

Now, more than ever, the Black Woman in America must be taught the knowledge of herself as is taught by The Honorable Elijah Muhammad, the Messenger of Allah, and she must accept.

Now that the Supreme Court has passed legislation legalizing abortions, there is a stepped up plan to further destroy the Black Man. Along with the news headlines of

war, pestilence, and crime which are plaguing America, ranks the latest news on abortions.

The Honorable Elijah Muhammad in his Book *The Fall of America* tells the details of America's fall and the signs which the entire world can bear witness to, as one calamity upon another is reaped upon America's shores.

Why would a country waste time and money debating the passing of legislation to kill babies, when their very existence is being threatened by the nations of the earth? The Messenger teaches us that we are now living in the time of the judgment of America and that the devil, knowing that his time is up, desires to take everyone of us along with him.

So, the Messenger teaches us that

the devil will use every trick to keep us from inheriting our just place as rulers of the earth. Bearing witness to the Messenger's teachings, one of the devil's latest tricks to destroy the Black Man is evidenced by the thousands of Black women standing in lines around the United States like sheep going to slaughter, patiently waiting their turn to murder their unborn babies. Many of them have given no thought that once under the knife of their once slave master, they may never conceive again.

The Messenger of Allah asks in his Book, *Message to the Black Man in America*, "What sin has the poor Black baby done for you to murder it in your womb? He has done nothing. It will come back to you in a terrifying way. Your conscience will

condemn you for doing such. All of our evil will come before us in a palpitating form."

The Honorable Elijah Muhammad continues to teach of America's fall. Her economy is on a decline—her friendship with the nations of the earth is swiftly coming to an end—she is suffering with internal conflict; she cannot feed her own millions, unemployment is rampant.

How can the Black woman believe that she will get a free abortion every time she gets pregnant, like she gets food stamps on a periodic basis. No. The Messenger teaches us that the devil is going to fix the Black woman so that she will never conceive again once he gets her under his knife.

Or behalf of the Muslim Sisters, we invite all Black Women in America to come to The Honorable Elijah Muhammad right now—tomorrow may be too late to save you from permanent sterilization by this beast, the devil. We invite you to the life saving teachings of The Honorable Elijah Muhammad which teach us to love for our sisters what we love for ourselves.

What Islam Has  
Done For Me
