Mr. Muhammad

By Elijah Muhammad

Should not this be the time for the black woman, especially in America, to cast white boys and men out of her love — for they are destroying her morals and she is producing a leopard-spotted family? No one has to ask you, nor your husband, "Where did you get all of these strange, half-white children?" They are visible to the eyes of the world, revealing the identity of the mate.

They will not even take care of their own half black

and white child. They are ashamed of you and the child in the presence of their kind and hate you if you try to speak to them in public.

Most of your white sweethearts are outcasts among their own kind. They probably would kill those same half-white boys if they were caught making love to their white daughters. Nature made them murderers. They not only will murder you and me, but also their own kind.

But you are attracted and charmed — like a frog by

the snake — by his unlikeness. He fascinates you to the degree that you hate your own color and want a child in the color of the devil. It has been made manifest, beyond the shadow of a doubt, that they are real devils.

You are saying to Allah (God), "I do not care that you made them manifest, I love them just the same."

Don't be deceived because you saw President Johnson, at his inaugural ball, dancing with a black woman, a descendant of his great grandparents' slaves. Why

didn't we see her husband dancing with the President's white wife?

You will tell the Messenger, "They are just as good as you." Of course he has offered you a pill that would cover your filth and love for him, and all the filthy doings now could be blotted out. The pill also will blot out your future. Who wants a non-child-bearing woman?

You boldly flirt with the devil man in solid black neighborhoods. She is not

ashamed of her disgraceful doings. Her status among them is no more than that of a dog. Can't you see the position you have put yourself in? There are some husbands who condone your doings — who are just as rotten, dumb and filthy as you. The intelligence and decency of your people is destroyed.

I am not calling you a four-footed animal, but your characteristic is the same. Eating the hog, which has no shyness, and drinking all kinds of intoxicating beverages makes you careless and a lover of indecency.

When will you wash your-

self of such love of evil and indecent practices? Now that the day of manifestation of them is made clear to those who would see, you are telling Allah (God), "I love the devils just the same and will go to hell with them."

Foolish, foolish black woman and your daughter, who — as soon as she is out of high school — is in the car with the devils committing fornication. Who will pity you while you continue this practice? We know the devils will not. We know that by nature they will not do this, but will mock you. We cannot blame them. We blame you, because you now know them.
