

“GOOD HOMES... Friendships In All Walks Of Life.”

We have purchased more than nine, individual, detached, modern, air-conditioned, three or four bedroom, carpeted, grass plot homes in the \$25,000.00 to \$30,000.00 range, for house families who are unable to get suitable living accommodations because they have large families. We have also purchased two modern apartment buildings to provide good housing for smaller families. Many other followers have reported that they have been able to purchase their fine homes of their own from money they have saved by practicing the good things Messenger Muhammad teaches by not smoking, drinking and by eating not more than one meal a day.

Messenger Muhammad desires that every black family have a good home and not be penalized to live in slums just because God has blessed the black man of America with a prolific birth rate to produce his Nation.
