

Islam in Tuskegee

By Sister Anna Karrlem
Mosque No. 5

The "Spirit" of Christmas has deceived the world. The Honorable Elijah Muhammad teaches us that Christmas has its origin in the paganistic traditions of ancient Babylon beginning with the birth of Nimrod on December 25. As an enemy of God, Nimrod rebelled against the teachings of almighty God Allah and sought to lead the white man in the worship of idols. After Nimrod's death, his so-called wife propagated the evil doctrine of the survival of Nimrod as a spirit. She claimed a full grown evergreen tree sprang up overnight symbolizing the springing forth unto new life of the dead Nimrod.

Nimrod is alleged to have visited the evergreen tree under which gifts were placed. Thus we have the spirit of a dead man celebrated each year under various titles around the world. The false conception of a "Holy Child and Mother" is further perpetuated in the Catholic church which has always endeavored to serve as a symbol of the last words of God.

THE SO-CALLED Christmas season has become synonymous with commercialization. All types of liquor, merchandise and food are sold in order to gain massive profit while this "Spirited" occasion prevails. In all of the major newspapers in the country as well as here in Tuskegee, advertisements, attractively worded, beckon the Black man to come and buy the divinely-prohibited flesh of pigs and hogs. During recent years discoveries by the medical profession have brought to light reasons why almighty God Allah condemned the hog as unfit for food.

"Of their flesh shall ye not eat." Lev. 11:8. The microscope has revealed that the flesh of hogs is infested with trichina worms, which when taken into the human body multiply and begin to work their way through the entire system, even into the brain and heart! This condition is known as trichinosis. As I have mentioned earlier, recent medical discoveries have revealed the poison contained in the flesh of the hog, but the Honorable Elijah Muhammad, Messenger of Allah, Who came in the person of Master Fard Muhammad, to Whom praises are due forever, revealed this information a long time ago because Allah came in person to make manifest a leader for the black man and through him, restore life to the mentally dead so-called American Negro.

The Honorable Elijah Muhammad teaches us that the Hog was not created for the Black man's consumption. The hog was grafted from the rat, cat, and

dog as the Honorable Elijah Muhammad teaches, and was condemned as an unclean meat. Yet, during this season of commercialization, swine flesh will be the main tool used to fill the pockets of food dealers across the country.

The Messenger of Allah further teaches us that the white race is a product of graftage and that the hog was made only for the white race; it was made to produce a poisonous germ for medical purposes in curing the diseases of the white race. Farmers know that when they are feeding cattle it will also pay them to keep hogs, so that the hogs can follow after the cattle, eat the filth from the cattle, and turn it into pork for the public market! The preceding statements are not worded as tactfully as may be desired, but when you discuss something as filthy as a hog there is little room for finesse.

MY BELOVED brothers and sisters there is no need for you to suffer the illness that comes from the consumption of this divinely-prohibited flesh. Allah (God) has sent a leader and teacher to us (the lost-found Black Asiatic nation) here in North America. As a nation of people, we are no longer without divine guidance, for almighty God Allah and His Messenger are seeking to save the Black man and woman of America from the filth and indecent practices of the white race. The white man uses a fallacious celebration (Christmas) for commercialization and sells an animal whose diet is said to be so deadly that it generally kills the animal itself in about eight to ten years.

It is my prayer to Allah (God) that the relentless call of the Messenger of Allah to "come and follow him" will be heard and obeyed by all who recognize the truth. The Honorable Elijah Muhammad asks that you not fill the dining tables of your homes with the flesh Allah (God) has condemned. It is written that "The ruin of a nation begins in the homes of its people."

May the Divine Blessings of Peace and Paradise be upon you Dear Holy Apostle and all of the true believers in this most Holy month of Ramadan. All praises are due to Allah.

Says U.S. School System in Ruins

A University of Chicago sociologist stated that the U.S. public school system "has collapsed."

PHILIP HAUSER told an Urban League seminar that "Amer-
