Allah (God) Who came in the person of Master Fard Muhammad, to Whom praises are due forever, has sent the Black man and woman of America a master teacher and leader whose greatest desire is to give life to the mentally dead so-called Negro; that person is the man spoken of in Malachi: 4:5, The Most Honorable Elijah Muhammad. Allah knew that the seeds of Abraham (the members of original Black Asiatic nation) would be lost in a land of people whose ways and habits are foreign to them. These people have been bitten by the beast despite their attempts to gain freedom from the savage ways of their bestial enemy.

**THE PEOPLE** who fit the above description is the beloved Black man and woman of America. They have been transported to a foreign land (America) to do the work and bidding of a people whose ways are like those of a beast; a people whose ways and living habits prove contrary to theirs. Every step made by Black people in this country to gain freedom from the bestial white man has lead to more wounds and more despair.

The church has been given to him as a place for healing his wounds and the educational institutions have been used to make the Black man want to come back to his bestial master for more mistreatment. Why have we fallen prey to these evil and indecent people? The answer to this question lies in the fact that we have had no one to guide us back to our own nation and out of the reach of these foreign and animalistic people. The Honorable Elijah Muhammad is the divinely-sent guide whose mission is to give life to the Black people of America, to heal the mental wounds of his people that have been inflicted by a bestial people for the purpose of robbing the Black man of the knowledge of himself and his God, Allah.

**AS A FOLLOWER** of the Most Honorable Elijah Muhammad and student at Tuskegee Institute, I have had the experience of discussing the integration issue with an instructor and my classmates. Tuskegee Institute's school of Education bases its teacher training program on the American way of life. Namely, that we are one nation, under God, with liberty and justice for all and that despite the unequal treatment Black teachers and students have been receiving, we as prospective teachers should strive to build the educational

institutions of America and make them superior places of learning.

Therefore the instructor concluded that integration is the long awaited solution to the problem of racism and unequal opportunity for Black youths in America's schools. However, the students in the classroom did not agree with this solution. They made such comments as "Blacks ought to be taught by Blacks" and "what do you tell your students after you have taught them the principles of democracy in an Illinois school system and they go out on the streets of Chicago and find out that Mayor Richard Daley has set up a police state which abuses the rights of others." The instructor could only answer these comments by saying "well this is an American dilemma." If one is truly an educator then the objective is to educate a person under your guidance and give him the necessary knowledge for understanding himself, his environment, and others.

It is my contention that it is the Black educators in America who are the most miseducated people of the nation. They govern their lives on American principles and seek to instill these foreign principles into the minds of school youths knowing that they have never served any beneficial purpose in the past.

**THE PRESIDENT** of Tuskegee Institute, Dr. Luther H. Foster, said in a recent fall convocation ceremony that "Tuskegee Institute will not participate in any moves toward Black separatism." As he spoke, the large numbers of whites in the audience gave their smiles of approval. This is a disgrace to any Black nation to beg for acceptance into a race of people who have spent two thousand years in caves living the lives of savages while we as black people were building great civilizations that have never been surpassed. So ask yourself again, why does the Black man and woman of America need a friend, a guide, and a teacher? The answer is simple. There is only one man who has the knowledge and know-how for freeing Black people of these arch deceivers and setting up an educational system superior to the white man's grafted system; this man is the only man Allah has given this type of knowledge to, the Honorable Elijah Muhammad. All praises are due to Allah for sending us a great leader and teacher.

The students on this campus are beginning to realize the

great instructive ability of The that they seek out one of his Honorable Elijah Muhammad in followers for the purpose of discussing the issues involving the Black man as well as his history as taught to us by our beloved leader and teacher, The Most Honorable Elijah Muhammad. I thank Allah for making me knowledgeable of this humble and divine leader.

To the college students who think that all wisdom cometh from the universities of America, you are sadly mistaken. Wisdom comes from the wise and if there is no one wise enough to tell you that the white man is not fit to live with and that the Black man is the measure of all things, then your instruction is coming from an instructor who is not wise.

**I BEAR** witness that of all the education I have received there is none that surpasses that which a Muslim follower of the Most Honorable Elijah Muhammad receives. If you truly want to help your Black brothers and sisters get out of the clutches of these wild beast (the white man) then take the knowledge and skills you have acquired and put them to use under the leadership of The Honorable Elijah Muhammad rather than go and serve your former slave master again. Put away your proud spirits and learn the art of submission to the will of Allah, Islam. Your reward will be great. All praises are forever due to Allah.
