

Islam In Tuskegee

By Anna Karriem

The Most Honorable Elijah Muhammad teaches us that we can not boast of a full and qualitative education if that education does not include a knowledge of Black self and kind. The wisdom of Almighty God Allah who Came in The Person of Master Fard Muhammad excels that which is being taught in any of the colleges and universities of America today. As a student of education, my curricula began with such courses as History of Education, Biology, Mathematics and graduated to the type of courses that were directly connected with classroom instruction and methods of classroom instruction.

IF ONE is to be prepared to teach one like himself he must have a knowlege of himself if the teacher wants to produce one great in wisdom as himself. Under the guidance and leadership of the Most Honorable Elijah and with the divine help of the Great God (Allah) he serves, I have learned the identity of the Black Peoples of the planet Earth and I am still learning of self and kind.

As a student being prepared to teach other Black Children, I enrolled in the above mentioned courses not ever thinking of the fact that when studying the "History" of education in America there was very little material that indicated that Black people in this country had ever had an equal opportunity to be educated toward self help.

When studying biology and mathematics, I did not have a teacher who could show me that the entire universe is founded on the mighty atom before going on to teach the class that the cell is the basic unit of the human body or that with the power of mathematics as it is made relevant to the followers of the Messenger of Allah, the slavish organization called christianity can be proven false while Islam can be proven true beyond a doubt.

The educational system of the devil here in America can not educate a Black student such that he is qualified to take his place among the civilized nations of the earth. teaches the Honorable Elijah Muhammad, because the devil does not teach us the knowledge of self.

ALL MANNER of curricula that is offered in the devil's schools must be studied under

the guidance of Allah's greatest and Last Messenger, the Most Honorable Elijah Muhammad if you truly desire to know and love self and kind.

We, as followers of the Messenger can never thank Almighty God Allah enough for raising in our midst a leader who is capable of directing and materializing the greatest educational system the world has ever known.

He has the divine insight to know that begging the devil to educate Black people is futile. Thus, with the sagaciousness of a scholar and conscientiousness of a divinely missioned leader, he has set out to build an Islamic educational center.

I beseech you, my Black Brothers and Sisters to come and follow Allah (God) and His Messenger so that your originality may be recognized the world over. May Allah forever Bless you Dear Holy Apostle of God.

On Life In The Sudan

By Bayyinah Sharrieff

So many of my Black Brothers and Sisters here in North America regard Islam as being a way of belief and life for the poor and the uneducated. If those who consider themselves educated and of the so - called middle and upper classes of the Blacks in America would just take the time to read what the Honorable Elijah Muhammad writes himself, and not that which is written of him, and weigh his words to that which they have obtained from the American universities, they will not be able to find weights to balance his knowledge, wisdom and understanding.

LET THEM, who consider themselves having accomplished, leave America and travel abroad with their American identification, and live (not as a tourist) to Africa and Europe and Asia and see for themselves as they receive a true respect equal to the one who carries his own identification from his own country.

I have travelled to parts of Africa and the Near East, as well as the western civilizations of Europe and what I have lived through in my three years of life abroad all testifies to the Truth of the Teachings of the Honorable Elijah Muhammad that "Islam dignifies you."

I have lived among many Muslims in the Republic of the
