# DISAGREEMENT NONE TRUST THE OTHER

By ELIJAH MUHAMMAD  
Messenger of Allah

REGARDLESS to where they are on the earth, there is disagreement. No one can trust the other, under such conditions, as now exist, universally.

THIS universal condition of disagreement makes it impossible for the nations of earth to agree to a peaceful solution to their differences.

IF the nations cannot agree with each other, then we may expect a more worse condition, of disagreement. There is a limit. If agreement is not brought about, when it gets to a certain stage it bursts. This 'burst' is felt by both sides who have disagreed with each other.

THE disagreement between the nations of the earth is about one hundred percent, (100%). One hundred percent (100%) disagreement with suspicion,

one toward the other, will finally cause universal disaster, with the loss of the lives of those who cannot agree and get along peacefully with each other.

THE present war between the Jews and Arabs of the Muslim Near East, cannot help but come, probably, to a disastrous end, because of the claim of each side.

VIET NAM and throughout the Far East is another area where the explosion of disagreement is going on now. This is going to end, also, with disaster, according to the predictions of Allah's (God's) Prophets.

THE Western civilization has exploited and kept their power and authority going on, for many years in Asia and Africa . . . This exploitation must come to an end and the exploiters must be thrown out.

# HATE TEACHINGS!

By ELIJAH MUHAMMAD  
Messenger of Allah

The origin of hate teachings comes from the devil, who is the originator of hate. The first we read of anything like hate teachings was from God, and it was between Isiah and Jacob (Bible, Gen.). But, the origin of that was between Adam's two sons (the devil), where the murder took place; due to the hatred of one brother against the other. One brother desired to kill the other brother so that God would not take him for an object of love.

This is the same thing that is going on today. Envy and jealousy of God's Love and Blessings for the Righteous. So much so, that the wicked hopes to kill the Righteous. Hate, surely demands of sin. The devil hates Truth, because he is not made of Truth. Therefore, he calls Truth hate teachings, because the truth is against his works of evil, and it brings them, manifestly, before the eyes of the Righteous. This, he calls hate; but it is the Truth that he hates, and he is hoping that you will join him in hating the Truth as he hates it.

Actually, they were made to hate Truth, though they know Truth; but their actual nature was not made of Truth. As the Jesus declared; there was

no Truth in them and that their father was not of the nature of Truth; but was of the nature of a liar, and he told the first lie (John 8:44).

They were the originators of racism, not you and me. And, any race that thinks anything of its race is a racist. We cannot love our race unless we are for that race. This is another trick that the devil is using on you. This is to make you love him and his people. He knows it is against the Will of God for you to love him. He knows that, but he deceives you. It is an intelligent person who loves his own race and wants his own race to stand out for itself, and not mix itself up with other races. This is intelligent and decent. This, the white man knows.

We all are racists who have two cents worth of knowledge, because racism is only the love of your own race. But, you love other than your own race, and you want to join in and love everybody. This is your damnation, Mr. Preacher; because everybody is not to be loved. It is only the Righteous who are to be loved. If everybody is to be loved, God would not have set a Judgment for the wicked. How foolish you are. Blind to the knowledge of the scriptures for you preach your own damnation and do not know it.

The Racist; and you are right.

The Honorable Elijah Muhammad

## Separation Is A Must

By Elijah Muhammad  
Messenger of Allah

Why not a united Black Nation? Have the white people not been a united white people all their days? Have they not lived in their own quarters and countries under their own white rulers, kings, queens, and presidents?

What is all the excitement over the Black Man wanting to live to himself? We have lived under segregation forced upon us up until today. Now, why think living apart, out of the white man's society, is something that we should not think about doing?

Black people and white people are used to living apart from each other. It is the nature of us both and we are better off living apart than trying to mix together (which is against the nature of Black and white). We are two different people.

Black ants do not try living with red ants, white ants, or any color but their own color. Even black birds will not try mixing with yellow, red, and white birds. Everything abides by the law of nature in which it was created but the white man and his Black slave.

White people want to mix with every color of people on earth. And, they have nearly mixed up the entire population of the earth in various colors. They did not want to destroy their color. They do not even want to destroy it today but they want to force their color into other people.

Now, many of the Black slaves desire to live with their Black selves, after living under a forced mixture of our slave-master's children.

Now, today, the very nature of us is being taught by God, Who Knows all of us. This teaching of self from God makes us desire, as never before, to be ourselves.

## The Woman in Islam

By Margary Hassani

THE WOMAN IN ISLAM, forever gives Holy Praises to Allah (God) Who Came in the Person of Master Fard Muhammad. She forever thanks Allah (God) for His Messenger Muhammad.

THE HEART of the WOMAN IN ISLAM, is ever filled with Holy Pride, humility and Thanksgiving, concerning everything of her Religion, Islam. She carries this peace and happiness, as though it were a high-flying banner, wherever she goes. Her light is seen by all the world. It especially lights the life of her husband and children. She is pleased and ever strives to please them, also. Her life and her life becomes a heaven.

MESSINGER MUHAMMAD teaches us the importance of our actions and our behaviour, for in them we create our own heaven or hell. He teaches us profound and simple wisdom, freely, which the world cannot buy at any price. It is the free gift to us, who were Lost and are now Found . . . the so-called Negro of America.

MESSINGER MUHAMMAD brings us the Divine Law of Islam, which reveals to us the Love and Care which Allah (God) Has for us, that we may live and not die. It is our all-encompassing protection. We rejoice in the Law. The Law of Islam was made for us. Messenger Muhammad teaches us that the reason it is so natural to us, is because it is the Law in which we were created. The Law of Islam serves us. The law of Christianity bound and burdened us. We suffered and served the law of Christianity and still could not have peace and fulfillment.

HOLY QURAN, CH. 28:48, "But (now) when the Truth has come to them from Us, they say: Why is he not given the like of what was given to Moses? Did they not disbelieve in that which was given to Moses before? They say: Two enchantments backing up each other! And they say: Surely we are disbelievers in both."

49 Say: Then bring some (other) Book from Allah which is better guide than these two, I will follow it—if you are truthful.

50 But if they answer thee not, know that they only follow their low desires. And who is more erring than he who follows his low desires without any guidance from Allah? Surely Allah guides not the iniquitous people."

ALL PRAISES to Allah (God) for His Divine Law of Islam and His Divine Administrator of His Divine Law, Messenger Muhammad.

## MUHAMMAD

By Tynetta Deanar

NEBUCHADNEZZAR and THE GREAT IMAGE which was interpreted to him in the time of Daniel came as a sign of what was to take place thereafter. From the beginning reign of the Gentile Kingdoms down to the last day, the image seen in the dream of the King and interpreted to him by Daniel represented four great beasts and a corresponding metal.

HOW PERFECTLY timely and accurately revealed was the great article by Messenger Muhammad on the subject of Steel as the symbolic metal that played the most significant part in both the procreation and terminal stages of the last Great Gentile Kingdom to rule the earth.

It is this image as described in Daniel 2:31-45, and in particular the feet and the toes 'partly of potter's clay and partly of iron,' which brings home to us most significantly the previous writings of Messenger Muhammad on the great part that Steel has played in the prefiguration of that last great kingdom seen in the King's dream as the last great beast in the Book of Daniel.

In 1961, the first edition of the Book, All the Kings and Queens of the Bible, by Herbert Lockyer, went into print with an awakening statement regarding the Image interpreted by King Nebuchadnezzar. We must not fail to connect what has been written by the scholars and what has been written and revealed by Messenger Muhammad on the same subject.

MR. LOCKYER WRITES: "The last metal mentioned, 'iron,' is more perishable, more easily corroded or rusted than brass, silver or gold, but in the form of steel is harder and cuts through any other metal." And finally he concludes: "As the toes are at the end of the image they indicate the last and final stage of Gentile dominion."

The equation or problem then reads: Iron is to Steel as the toes are to the feet; the unnamed Kingdom is equal to the power of Steel.

## Avows Behavior of Messenger's Followers Is Clear Argument for Faith in Islam

By Lee P.X. McCallum

The Muslim finds it very difficult to understand why every Black man and woman doesn't get behind the Honorable Elijah Muhammad once they are exposed to this great truth which is Islam.

WHAT'S WRONG with our people that they can't see the wisdom and the power that has not only lifted the Honorable Elijah Muhammad far beyond the level of any ordinary man, but has added to him a knowledge of himself and his people that is so familiar to us who follow him that our friends and family look upon us with respectful wonderment?

Islam is a crystal clear argument. It stands on an unmovable rock: it is an irrefutable testimony to the existence and power of God that inexorably brings us into the knowledge of Allah as that God and the Honorable Elijah Muhammad as His present Messenger. But we must be patient, for by watching and trying to emulate our leader and teacher we learn that indeed patience is needed for we too (the Muslims) have reached our present frame of mind only through the mercy of Allah and the patience of His Messenger.

Far too many so-called American Negroes are indeed hard-hearted, rebellious, largely uncivilized people. Listen to his language. Every third word is profanity or the like. Even the small children use profanity as though it is a school-taught language. And when we stop to think about it, it sometimes seems that the only thing some of our children learn in school is profanity.

The Honorable Elijah Muhammad has characterized America as a wilderness. Who inhabits the wilderness? That's right—savages and wild beasts! What is a savage? The Honorable Elijah Muhammad teaches us that a savage is a person who has lost all knowledge of himself and is living a beast life. Sound familiar? It should, for the average so-called American Negro is so far from a knowledge of himself that he wouldn't recognize his native language if it were put before him in box car letters. Now brother don't give me that old stuff about your native tongue is English when we both know you're no Englishman and English is the native language of white folk. And how about your name? Uh-huh, that's a lost cause too! Long gone, right? Who lives any more of a beast life than our people?

They prey off of one another like jackals and carry all manner of weapons that they will brandish for the kill at the least provocation.

But all of this is changed when you turn to the God that the Honorable Elijah Muhammad is representing to us—our God, Allah; a true and living God Who came in the person of Master Fard Muhammad to Whom all praise is due. A God that is sitting on a throne somewhere in the great beyond, inaccessible to our pleas and oblivious to our cries. No Sir-ee. We can't use that kind of God for that's the kind of God old Rev. gave us in Christianity and the only thing we got from such a mystery God was beat, killed, naked and out of doors.

Now we turn to one another and say brother and sister and mean it. In fact, haven't you taken note that today all Black people who are trying to get together in some kind of unity automatically begin to adopt the phrase brother and sister? Now let's face it when a white man or woman walks amongst you have a false ring to it. You might say it just doesn't emerge with "soul."

Once you begin to walk beneath the protective umbrella of Islam that Almighty God Allah has given to the Honorable Elijah Muhammad to raise above our heads, we walk proudly and quickly. Our pace picks up, our footsteps quicken, our eyes shine with the unquenchable fire of knowledge, wisdom and understanding for all to see.

## Seek Blacks for Urban Planning

The American Society of Planning Officials (ASPO), a professional service organization, has initiated a drive to recruit members of minority groups to aid in planning tomorrow's cities.

GILBERT "TONY" WILSON, recently hired Black recruitment director, noted that his office intends to do something about getting his brothers and sisters into the business of urban planning.

He pointed out that Blacks currently comprise 1 per cent or less of total city planners in America. Yet, six out of every 10 Black people live in the cities today. Wilson added that he will also be working to bring Spanish-speaking people into the urban planning field.

"We are presently in the process of searching for qualified individuals," Wilson advised. "Through encouragement and serving as a liaison, ASPO hopes

to be able to place Black and Spanish-Americans into educational and professional programs."

**JOB'S AVAILABLE** under the ASPO program include such occupations as "design planner and landscape architect in the Little Rock, Arkansas area. In California, "assistant planner, \$8,352-\$10,140, depending on qualifications.

The above jobs call for a degree in urban planning or landscape planning, or a willingness to learn from the beginning. ASPO directors are aware that members of the Black and Spanish-speaking communities do not generally study in these fields.

There are numbers of jobs in the field in every state in the union. Some call for experience or training in urban, landscape and related planning while others require knowledge in draft-

ing, etc. Wilson can be contacted by writing Mr. Gilbert Wilson, American Society of Planning Officials, 1313 East 60th Street, Chicago 60637. The telephone number is (312) FA 4-3400 X107. His office will forward additional information.

## On Life In The Sudan

By Bayyinah Sharieff

The personal care which a patient receives in the hospital in Khartoum, Sudan is intense. And, there is a beautiful relationship between the nurses and patients. The patient feels a personal interest from his nurse.

THE NURSE, being Muslim, regards the patients as sisters, brothers, aunts, uncles, grandmothers, grandfathers, cousins, etc. They look to the patients with love and try to meet all of the individual needs of their patients. This is a relationship which can only be had in Islam. For the patients, knowing that their nurse is striving to be righteous (the act of the Muslim), trust their nurses. It is like one large family, and in a sense, it is. They are all Black. They are all Sudanese, and they are all Muslims.

They do not address the patient as Mr. and Mrs., or Miss. They refer to them as uncle, or aunt, or brother, or sister. They greet one another with a smile.

Medical school is six years in the Sudan, including pre-medical training, with an additional two years of housemanship. Beginning with the fourth year, the students are assigned patients and practical experience is added to theoretical. These medical students are highly respected in the Sudan.

THE FOOD SERVED in the hospital is simple. Beans, the red bean, is the main staple in the Sudan. Addis (another small dry bean) is also served, and prepared like the small white bean used by the followers of the Honorable Elijah Muhammad in making soup.

At that time, I was not a Muslim, nor was I in the knowledge of my true self. I thought this bean was not enough nourishment for the patients, but now that I am a Muslim and a follower of the Honorable Elijah Muhammad, I know that this small white bean, or the small red bean is the best thing which we can eat.

The Honorable Elijah Muhammad teaches us that we can have much longer lives if we eat only bean soup, milk and whole wheat bread, which is at least 24-hours-old.

THE HONORABLE Elijah Muhammad has pointed out in the book of Malachi 4:8 in the Bible, the last Messenger is to prepare the children to meet their fathers. He has taught us that this

means to prepare the Black man in America to be able to go into the society of those in the east and live in that society. We came from that area in the east where Muslims still live today. Only Islam has been in that area.

The Honorable Elijah Muhammad teaches us the term "father" is used here because they have been longer in the knowledge of Islam than have we here in America. They are old in the knowledge of Islam. We, who are here in America are not. We may be classified as "children in the knowledge of Islam. Children in the knowledge of the most high," as is stated in the Bible. In order to exist in such a society, we have to be conditioned to do so.

We have been away from our natural society, or righteousness, for many years, so the Honorable Elijah Muhammad teaches us. We have been away from it so long that we have to be taught what righteousness is. We are being prepared by the Honorable Elijah Muhammad, to respect, love and live in a righteous society.

DURING MY STAY in the Sudan, I was ignorant to the above stated facts. I refused to eat the bean, and avoided the addis whenever I could. Other Americans, whom I met in the Sudan also refused to eat this bean and the addis. This would be the general reaction of the average so-called American Negro, but not that of the followers of the Honorable Elijah Muhammad, who now rely on that small white bean as the main staple of their diet.

Is this not preparing the children to meet their fathers?

The fact that every follower of the Honorable Elijah Muhammad considers and refers to every other follower as a brother or sister is another way of preparing us to meet with our "fathers" in the East.

The Honorable Elijah Muhammad teaches us that we are all brothers in the faith that submit to Allah and His Messenger. The Holy Quran backs up this statement in Surah (Chapter) 49:13. These teachings of Islam are universal.

## Science and Health

### "The Pill" Kills As Well As Inhibits Procreation, Newest Report Discloses

WASHINGTON.—U.S. Public Health Service officials have adapted an American Cancer society slogan for their use, and are now saying, "The pill (oral birth control pills) can be hazardous to a woman's health, and even her life."

This new slant on the cigarette-smoking slogan results from a recent report by Dr. Gerald D. LaVeck, director, National Institute of Child Health and Development, that "while there is no doubt that the pill and the intra-uterine devices are effective as birth control techniques, deaths from pulmonary embolism—lodging of blood clots in vessels supplying the lungs—are seven or eight times higher among women using pills than those not using them."

THE REPORT confirms an earlier conclusion reached by British scientists that the pill can cause death to some women.

Dr. LaVeck noted, "British investigators have reported finding that thrombotic effects (production of blood clots) have increased among those women using the oral pills."

However, he noted that efforts to control births are not being discontinued, but taking on a new slant. Under an initial \$3 million program, U.S. scientists are seeking to develop an "array of contraceptives that will be effective, safe, reversible, inexpensive," and even a more reliable rhythm method that would be "acceptable to the Catholic church."

A CHIEF ITEM on the program is to develop a "modern male method" of birth control—through the use of pills or injections.

Under the new program, the current methods of oral pills and intra-uterine devices would be supplanted by "newer and safer methods."

ADVANCES IN science move with such speed, that even small thimble-like miniature mercury battery, exhibited here, can be counted on to relay scientific data from the surface of the moon, left there by the astronauts.

### Level of White Blood Cell Type May Be Cure-Clue To Migraine Headaches

NEW YORK—The first step in learning what causes migraine headaches and their possible cure may have been uncovered by Dr. Ernst Thonnard, an internist at St. Elizabeth's hospital, Washington.

At the 11th annual meeting of the American Association for the Study of Headaches, held in the Hilton hotel, Dr. Thonnard presented a report which tentatively suggests the cause to be the high level of basophils leukocytes—a type of white blood cell—on the side of the head which is affected by pain.

**BASOPHILS CONSTITUTE** about one half of one per cent of all white blood cells in the body. Like other white cells, they help combat infection and frequently appear at the site of any local inflammation.

About a third of all migraine headaches occur on one side of the head at a time. Blood samples taken from the affected side of the head, were different from similar samples taken from the

non-aching side or from another part of the body.

Not only did Dr. Thonnard discover a difference in the number of basophils, but also a difference in their granule (small particles within the cells) concentration.

Two substances normally found in the body—tryptamine and reserpine—were injected in both migraine-prone patients and headache-free patients. The basophil levels at the headache site dropped in the migraine victims, but not in the normal subjects, who remained free of pain. These two substances are known to induce migraine in susceptible persons.

ON THE OTHER hand, injections of two other substances, known to relieve incidences of migraine headaches—serotonin and norepinephrine—increased the basophil levels at the head-

ache site in slightly relieved migraine patients, but decreased in headache-free patients.

The conclusions reached are that basophils has a determinant role in migraine headaches.

An additional finding is that basophils, during a migraine attack, release a chemical substance called heparin—a natural body anticoagulant which decreases the clotting tendencies of blood. It is usually found at the site of an inflammation.

It is theorized that heparin may be the chemical agent responsible for the duration and severity of a migraine headache.

## 30,000 Black Cubans Hear Important Foreign Relations Speech Cuba Takes a Look at Peru's "Reform"

By JUAN ZULUETA

HAVANA—Fidel Castro, Cuba's revolutionary prime minister, chose to make his first public speech in four months in Oriente Province, the Cuban region which is almost 100 per cent African Cuban in population.

CUBA IS a nation of Indian, African and Spanish peoples.

Castro

Since it was involved not only in the slave trade but also in oppression of poor people, especially African ones, during U.S. big business' many decades of control, it is not surprising that color prejudice was inflicted upon many Cuban people.

Because of this oppression the Afro-American Cubans of Oriente Province were unsurpassed in the bitter fight to kick Batista and the USA out of this American island. And the Cuban government has upheld its announced socialist principles by making those formerly on the bottom, the Afro-American Cubans, the greatest beneficiaries of land, health and educational socialization.

By going to Oriente Province to make an important statement about Peru's apparent seizure of U.S. economic interests, Castro was saying, in effect, that even if Cubans, like every other people in the world, are divided by the lingering effects of class privilege and oppression of minorities on the basis of color, religion or ancestry, the great truth remains that education, medicine, housing and jobs are denied to no one in Cuba.

This means that inequalities among the Cuban people cannot be raised to the level of genocide or deprivation of the poor, as they are in the USA, the NATO countries of Europe, South Africa, Australia, "Rhodesia" and everywhere else the super-rich monopolists rule.

Castro's speech in Oriente was important because it warned Cubans and progressive people elsewhere in America (North, Central and South) that Peru's seizure of U.S. oil interests has "revolutionary characteristics," but that it is too early to say

whether the take-over is genuine or a CIA-designed fake.

A fake nationalization of resources and fake land reform program was engineered by the USA in the Philippines several years ago. On the surface, the Philippine take-over was advertised as benefitting the oppressed peasants, farmers and city-dwellers.

But in reality, the U.S. merely changed the form of its investments. Instead of having U.S. corporations running the economy outright, the U.S. got together with angry, opportunistic Filipinos and bribed them into selling out their true nationalistic goals by taking managerial positions in "Philippine" corporations the majority of whose shares were and are owned by the U.S. corporations which "pulled out."

The Huk revolutionaries are still fighting in the Philippines.

IN PERU, the military government has passed a law which supposedly expropriates land owned by several U.S. firms, including the International Basic Economy Corp., founded by the Rockefeller family 22 years ago.

But while peasants danced in the streets and many foes of U.S. exploitation hastily praised the Peruvian government, Castro was observing some other interesting aspects of the "take-over."

A spokesman for W. R. Grace & Co., which has sugar and paper interests, announced quietly that its industrial operations in paper and chemicals would not be affected by the "revolutionary" expropriations law.

A spokesman for the U.S.'s Cerro de Pasco mining firm said that it would not be affected by the "land-reform" law because it had already sold its half-million acres of farmland to the Peruvian government.

And a spokesman for Rockefeller's IBEC, an investment firm, said that its operations were not affected by the law. The IBEC controls super markets, poultry breeding farms, food firms and a

A medical innovation has been developed which seems to stretch the same amount of flu vaccine by four times. The additive is a peanut-oil product, and if the U.S. Division of Biologics Standards approves licensing the product, this will decrease the amount of vaccine needed by one-fourth, compared to conventional vaccines.

## Black Cubans Hear Castro Analyze Peruvian 'Reform'

(Continued from page 26)

lower-middle class housing construction firm.

The White House refused to comment on Peru's "take-over." The State Department had the gall to say that the USA recognizes each nation's right to expropriate property if prompt and adequate payment is made.

This latter statement must have come as a surprise to the Cubans, who had to fight Batista and the U.S.'s United Fruit company for decades before controlling their own nation. And the Guatemalan, Brazilian, Mexican, Bolivian, etc., etc., people—all American peoples—will also be interested to hear that all they have to do is pay the U.S. what the U.S. says it owes them in order to kick out the corporations which have profited off them for a century.

But of course the Peruvian government merely expropriated some land which the corporations didn't want. It did not expropriate the corporate property—the mines, the factories, stores, machinery and so on.

Now the Peruvian people must buy back this unwanted land

which was stolen from them. Their government is establishing a \$375,000,000 bond issue, through which the Peruvians will pay cash which will reimburse the United States.

This is the form a CIA revolution takes place: U.S. profits and power are protected while tough talking soldiers are described in the U.S.-controlled mass media as having carried out a big land and oil seizure.

No wonder Castro said: "We don't beg Peruvian leaders to have relations with Cuba, no, but if one day there are genuine revolutionary consequences, we will not deny them."

The 30,000 African Cubans cheered their prime minister. They know that "revolutionary consequences" mean that U.S. corporations are completely displaced. They have already proved that the power of North American industrialists over other American people in the Central and South continental regions must be crushed before the great majority of Americans can expect freedom, justice and equality.

(Continued from page 13)

city in both North and South Viet Nam be recognized.

"The Nixon administration addresses itself and responds only to power. The accomplishment of our task will require new, vigorous efforts and personal sacrifices, and even the risks of personal danger. All forces for peace and progress in the U.S.—the poor, the youth, the academicians and professionals, the clergy and laymen, the disadvantaged racial minorities and the war resisters—will be called upon to make new initiatives involving power confrontations against both the political and military-industrial establishments of the nation.

"The U.S. has demonstrated since its founding days a systematic policy of exploitation, imperialism and genocide. We are now engaged in a life and death struggle against racism. And we are constantly threatened by increasing repression of the voice of dissent. Since foreign policy is the mirrored image of domestic policy, a nation which employs racism, violence and repression on the domestic scene will resort in kind to racism, violence and repression in its international affairs. The war

in Viet Nam, above all else, is a racist war. The horrible crimes committed against the Vietnamese people reflect the arrogant, yet deadly sickness of a racist society which has not yet dared to inflict such inhumanity on a white nation.

"While we in the U.S. risk growing personal dangers to combat racism, we call peace workers of the NATO, SEATO, CENTO and OAS countries to recognize their urgent duty to put mounting pressures upon their respective governments to cease and desist from consorting with the military-industrial complex in the U.S., who are pursuing a policy of genocide against the courageous people of Viet Nam.

"WHILE WE suffer in the great cause of re-directing the energies of our nation toward the constructive task of combating humanity's three scourges—poverty, racism and war—we have every right to assume that those of you dedicated to the crusade for peace will make every sacrifice in your respective countries to combat the conspiracy.

**OLD, DIAMONDS, Uranium** and scores of other minerals (one of the richest areas is indicated in the circle), representing billions of dollars annually, are being plundered from the wealthy lands of Southern Africa. Fascist

leaders in South Africa are accelerating sterilization of teen-age Bantu girls and Castration of boys in face of inevitable Black uprising.

## Fascist South Africa Speeds Up Drive To Castrate, Sterilize African Youths

LUSAKA, Zambia — African freedom fighters returning here from South Africa report that a white-supremacy government has launched a massive campaign of enforced sterilization and brutal castration of young Bantu girls and boys.

AS MORE and more guerrilla fighters—most of them trained in Zambia—infiltrate South Africa and strike increasingly effective blows against police and military forces, barbaric reprisals are taken against every village even suspected of harboring freedom fighters.

A core of sadistic police recently roared down on the tiny village of Balutso, torturing old men and women and demanding information about

a guerrilla camp. Youths were castrated en masse by the white troops, who used pliers to crush the testicles of screaming, helpless African boys.

Returning guerrilla fighters also reported that teen-age Bantu girls are used as "guinea pigs" in unspeakable experiments at so-called "boarding schools" on the outskirts of Johannesburg.

Following is a typical story of a gestapo terror in South Africa:

One day in mid-October this year, a South African Air Force helicopter landed in the village of headman Sinkumowa in the Caprivi Strip, north-eastern Namibia (South West Africa).

Four white soldiers and one African policeman alighted and instructed the headman to give them his 17-year old son to guide them to Impalila Island, some-

where in the middle of the Zambezi River.

THE HEADMAN protested that he could not do so, as Moffat Mtswati, the African policeman knew the way to the island perfectly well. In the end, under duress, the headman submitted and his son boarded the helicopter which took off immediately.

The helicopter returned to the village about forty minutes later. As it stood suspended in the air, a bundle dropped to the ground. It was the bullet-ridden body of the headman's son.

Just about the same time, another South African Air Force helicopter landed in the village of headman Mbangu, also in the Caprivi Strip. The headman was arrested and bundled into the helicopter. As it took off his shirt dropped to the ground and

(Continued from page 27)

cy of silence and condemn your governments' continued collusion with the U.S. military complex—not only in Viet Nam, but also in all the troubled areas of the globe where peace is threatened by colonialism and neo-colonialism.

"The crisis in the Middle East is a grave threat to world peace, which if not immediately settled will result in a world-wide conflagration. We believe that the guide to peace in the Middle East resides in the U.S. Security Council Resolution, unanimously adopted in November, 1967. We recommend the full implementation of the U.S. Resolution as the only way to guarantee a genuine peace with justice and security for all peoples in the Middle East.

"Moreover, we Americans need for cooperation between countries of Portugal in Angola and Mozambique are financed and supplied by NATO which, in turn, is a creature of Washington.

"We know, also, of the tremendous economic investments in South Africa and 'Rhodesia' on the part of U.S. monopolies, and that these investments, together with Washington's political and economic support, make possible the perpetuation of these racist, barbarous regimes and their continued torment of millions of people.

"The U.S. forces for peace are mindful of the threatening probability of other 'Viet Nams' appearing throughout Latin America because of the continued economic exploitation and the support of fascist regimes by the U.S. government.

"A recital of the global areas where U.S. military action and economic exploitation threaten world peace would be incomplete without a mention of the continued division of Korea. The time has come for the withdrawal of U.S. military forces from South Korea and the institution of a program under the direction of the U.S. for the unification of that divided land.

"The threat of nuclear war hangs over the world. At any moment even the most localized conflicts may escalate into the ultimate holocaust. We believe that the U.S. and the Soviet Union bear awesome and special responsibility. In their own interests, and in the interests of mankind, these two nuclear powers must find ways to cooperate for peace.

"We also stress the overriding need for cooperation between countries with different socioeconomic systems. If there be rivalry, let it be in the sphere of friendly competition and in the spirit of peaceful coexistence. Let us determine how we can do the most to serve the needs of mankind!

"We cannot close without paying deep tribute to the courage and remarkable heroism of our Vietnamese friends who in this day, through incalculable sacrifices, are manning humanity's front line in the defense, first, of their own country and, second, of the cause of human freedom. Viet Nam's example should lead us all to make, in this hall, a covenant that no sacrifice is too great—even the threat to life

## 'Freedom of Press' Hollow Phrase When News Media Protects Nazis & S. Africa

The U.S. Government tells the world that this country protects the right of freedom of the press. But when the press is controlled by the same super-rich who control the government and wage the Vietnam war for profit, what this so-called "freedom" boils down to is the right to deprive the public of information which the super-rich don't think the public should learn about.

**TWO RECENT** stories — one an Associated Press wire service article and the other a "liberal" New York Times piece — reveal typical U.S. distortion of the news.

The Times story reported on South Africa's increasing execution rate. It points out that the executions are committed mainly against un-mixed Africans, who are hanged at the rate of 1,117 a year, in comparison to mixed Africans ("coloreds"), 140 of whom were executed last year, and European colonial citizens, 23 of whom died at the gallows.

In summing up the figures, the story says, "South Africa, with a population in excess of 13 million, carries out 47 per cent of the recorded executions in the non-Communist world."

Anyone who reads this will assume that if the executions in the "Communist world" were included, South Africa's percentage in the legal killings would be greatly reduced.

But when the *London Times* received the same information about executions from the United Nations, it printed the following about South Africa: "In the courts, the death penalty is being used with increasing frequency and South Africa accounted for 40 per cent of the world's total of legally approved death sentences — an astonishing and damning record."

A COMPARISON of the two reports indicates that the "Communist world" has only 14% per cent of the world's executions. This small percentage, compared to the U.S.-dominated "civilized" Western bloc, no doubt accounts for the fact that the New York Times and the other U.S. papers which picked up the story decided to print the 47% of the "non-Communist world" figure thereby implying that the Communist executions are quite high and that the South African government is not all that bad as it may seem.

Some people may argue that the Communist world governments don't report all of their executions. But do they imagine that the USA, South Africa, Por-

tugal, Australia, Israel, Spain, Taiwan, the Philippines, Brazil and so on report all of the people killed by their officials?

So the figure must be reliable: the non-Communist world executes 85% of the world's people, and the Communist world executes 14%.

**Port Washington, Wis.** — The other story, released by the AP wire service, concerns a Milwaukee-area printer, William Schanen, 56, who is being driven into bankruptcy because he prints a "hippie" newspaper in addition to several community newspapers.

A local manufacturer, Benjamin Grob, 68, built up a boycott of Schanen's printing company by sending leaflets to churches, civic groups, businesses and influential individuals urging them not to advertise in Schanen's papers. So far Schanen has lost half of his advertising.

**GROB ACCUSED** the "hippie" paper, *Kaleidoscope*, of being obscene and revolutionary. He said the movement against Schanen would be dropped if Schanen would simply refuse to print the paper.

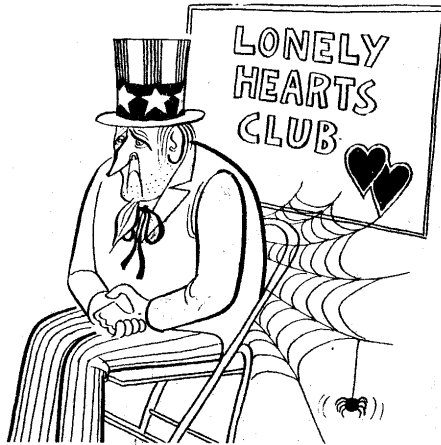

Schanen replied that printers must "respect the right of editors to maintain their independence and not be coerced by the printer. This is one of the great freedoms backing up the First Amendment. How can there ever be any opinion or comment if those who write and those who publish cannot get their work printed?"

Schanen has said that if he is forced out of business, he'll have *Kaleidoscope* on his press machines.

In printing the story, neither the AP nor the *Chicago Sun Times* printed the fact that *Kaleidoscope* editors identified Grob as the former chief of the Nazi German-American Bund in WW II, the group which was pro-Hitler.

They also said Grob is a known big supporter of Rev. Fred Schwartz who heads the right-wing, neo-Nazi Christian Anti-Communist Crusade. Schwartz is a big champion to many whites in "Rhodesia" and "South Africa."

By omitting this information about Grob, the mass media makes the attack against Schanen look like one of a "Concerned Citizen" who has moral objections to the hippie newspaper, instead of an attack by a Nazi sympathizer against a man who is protecting the U.S. Constitution.

## Important Goal of Black Community is to Follow Messenger's Hospital Plan

(Continued from page 16)

cause this would expose the preacher as well as the church. The Messenger has shown proof of his works by establishing businesses such as clothing factories, super markets, restaurants, bakeries, schools, farms, an international newspaper, canneries, warehouses and real estate.

AN ENTERTAINER should really bear witness to the Messenger's Program because as a guest, what television show do you have? You can see right there that you are only a commodity as we all have been until the appearance of Messenger.

Muhammad on the scene. If it wasn't for the Messenger, the slavemaster would not be putting any of you in the spotlight. The slavemaster knows that you can be easily diverted from anything that benefits you because of your being dead to the knowledge of self. To exemplify your deadness, some of you know that the Most Honorable Elijah Muhammad is unusually wiser than anyone you have ever known; yet you fear acknowledging this for fear of what slavemaster may think even though he can treat you no worse than he has for the last 400 years. So when the

slavemaster spotlights you in opposition to the Messenger, it is just like a dog show which exhibits how well you have been trained. So when the opportunity presents itself again, Brother or sister, be yourself as the Messenger teaches and tell it like it is and you will gain the respect

## Find Business Schools Not Training Blacks

NEW YORK — A startling ineptitude has been displayed by most American graduate schools of business in seeking out and training potential Black and other minority students for top-level management posts, declared a report submitted by Israel Unterman, a management consultant, to the Harvard Graduate School of Business.

Unterman, project director of a research study sponsored by Harvard and Northeastern university, entitled "Education in Business Administration for Negroes," declared, "There are a few exceptions but most of them aren't geared at all to the needs of the Negroes or other minority groups."

SINCE LAST July, he has been studying 19 of the more than 200 graduate business schools throughout the country, with the help of a \$15,000 grant.

The 300-page report of interviews with 60 academicians, 30 white business executives and 50 Black educators, students and businessmen, underscored the appalling lack of adequate admissions and grading problems, subject matter, recruitment and training.

It notes that both Black and white businessmen "urgently need top-level managers" but cannot find qualified personnel. Few business schools are equipped to training Negroes and other minority-group students at the graduate level, leading to the suspicion that these schools "serve to oppress them," thus making any consideration of advanced study in this particular field a thing to avoid.

EXCELLING YOUNG graduates at the Harlem Preparatory school in New York are seen here as they proudly survey their diplomas, and their future. School is for young people

who dropped out of high school before completing their secondary education.

"AS A RESULT, the Black less than 1,000 Blacks held management positions in business administration business schools as a source of and the percentage is still less help," Unterman concludes. He noted that prior to 1960, presently.

## Rebel Secessionist Song, "Dixie" Upheld By United States' Court

JONESBORO, Ark.—Black plaintiffs contended in a suit that the playing of the old Rebel secessionist song, "Dixie" violated their constitutional rights because "in a school context, it constitutes a badge of slavery."

UNITED STATES District Court Judge Gordon E. Young dismissed the suit with the statement, "I can't help but feel that we have more important matters to consider." As far as the complaint of the Black students at Arkansas' Jonesboro High School, he also remarked, "I think the complaint is silly and it will be dismissed on account of silliness."

### The Filth That Produces The Filth.

Holy Quran (7:27) O children of Adam, let not the arch deceiver seduce you, as he expelled your parents from the garden, pulling off from them their clothing that he might show them their shame. He surely sees you, he as well as his hosts, from whence you see them not. Surely We have made the devils to be the friends of those who believe not.

This happened to the Black People who followed Yakub from Arabia. He pulled off, from their original Self, the clothes of Righteousness and the clothes to cover their shame; and then made them to go nude in the hills and cave-sides of Europe, until the birth of Moses. You are warned. You believe you are safe in following the invitation to evil and filth of the white race. Wait and see.

the "Shermutabet" (prostitution villa). "There are over 70,000 prostitutes licensed by the government," Rahmato added. "And bars now outnumber restaurants."

What is more detestable, the students contend, is the fact that such corruption makes Ethiopia ripe for the propagation of alien influences, since most of those who frequent the "Shermutabet" are American soldiers. Venereal disease now is said to be reaching epidemic proportions.

THE ESANA spokesmen also pointed to the country's less than 4 percent literacy rate, increasing infant mortality, and growing impoverishment of more than 90 percent of the population, as conditions ripe for the masses for large scale revolts.

Much of the land, which the ESANA wants returned to the

masses, is owned by Dutch, Italian and American industries.

Peasant uprisings, Rahmato disclosed, "have taken place in Gollama, Arussa, Baile and Eritrea areas of Ethiopia," all of which have gone unreported in the western press. Rahmato added that rebellions and strikes have also halted operations at large Dutch sugar factories.

"THE MOVEMENT is gaining force," Rahmato said. "The schools are closed now on account of demonstrations. Many of the students have been arrested and some sentenced up to seven years in prison."

The ESANA group expresses no fear of reprisal, some of whom are expecting to return to Ethiopia shortly. "We are resolved to struggle until all of our demands are fulfilled. The fight will continue until all political prisoners are set free. No amount of repression will stop

our struggle against Selassie's feudal regime and its foreign patrons. Our struggle will continue until feudal oppression is crushed," an ESANA statement reads.

The students expressed solidarity with Blacks in America also struggling for freedom. "Unlike the Emperor, who declared some years ago, that the Ethiopia was not Black, but a race apart," Rahmato said, "we identify ourselves with our Black brothers and sisters, and we seek their support."

Included among the many demands sought by the militant students are: thrown out the CIA and Peace corp and halt the squandering of the nation's wealth on elaborate ceremonial occasions and unnecessary travel; distribute land to the tillers; remove the U.S. military base and ban government-supported immorality designed for the gratification of imperialistic land squatters.

### British Racial Problem Seen In Pending Case

LONDON—Although the British often play down their racial problems, the island throbs with many forms of white racism, especially in the areas of housing and employment. Much of this tension was internationally spotlighted in 1965, when the Parliament passed the Race Relations Act. Early in August charges will be brought against five Blacks.

THIS PROSECUTION grows out of the arrests of three men and two youths after the five supposedly assaulted a policeman. They are also charged with possessing offensive weapons and one of their number is charged with threatening behavior, which comes under a section in the Public Order Act amending the Race Relations Act of 1965.

Despite government-level disputes, mural and peace assembly in European "East Germany" expressed desire of world's "everyday people" to build governments dedicated to satisfying human needs and ending oppression and warfare.

## Drop-Outs Aided At Harlem Prep

NEW YORK — Harlem Preparatory is dedicated to developing and training so-called "drop-outs," who for various reasons were actually "pushed out" by the system. Recently the school held its second commencement exercise.

THE FACT that Harlem Prep had more than twice the amount of students graduating this year, than it did last year, attests to the relevance and stimulation at the school. 75 students graduated this year, and 60 of their numbers have been accepted at major colleges and universities

across the country. Rarely does the white communications media highlight any positive efforts of the poor, and the Black in this nation. Instead, the media has stoked and fanned the advertising fires of so-called gang-leaders, building them up in glorious, warlord terms, and thrusting fascism upon the Black community.

As Betty Lomax has indicated, "It is time to counteract the negative aspects of education and promote and project to America the positive contribution that is indeed a reality at Harlem Prep School."

## TO: The patrons of Your Supermarket and Salaam Restaurant

from  
**The Honorable Elijah Muhammad**  
Messenger of Allah

**WE** THANK the public for its patronage of YOUR Supermarket (8345 South Cottage Grove) and SALAAM Restaurant (5300 South Cottage Grove).

We will soon have all the plans for these two places carried out to your enjoyment.

The food in both places (YOUR Supermarket and SALAAM Restaurant) is about the best we can find.

At the present time, we are trying to supply them with our own farm raised chickens. I am sure once you taste them, you will want to eat none other than YOUR Supermarket chickens.

I had not eaten a half chicken at one time in many years, until last week when I dined off some of our farm-raised chickens and I still had a taste for the other half (smile). And, the prices are right. Just try one for yourself.

We hope to give you, this year, fresh vegetables of all kinds, from the farm. We hope also to give you, sometime this year, your own farm raised meat, such as beef and lamb, and your own milk and butter.

If you would only unite and get behind me, Allah Will set you in heaven at once.

Eat the good things of life from YOUR Supermarket and SALAAM Restaurant! Enjoy yourself in an atmosphere of peace and cleanliness, without the foul atmosphere found in many places.

Soon, we will have the proper laborers who will give to you proper and lovely service, as you desire. We have to experiment with those who claim that they are qualified for such service.

We pray that you will forgive us for any past disservice in these two establishments.

Write us and tell us what you think of YOUR Supermarket and SALAAM Restaurant (which means peace). Do any criticizing that you like and we will do our utmost to correct any mistakes that you point out to us. We are your brothers and sisters. Let us live together.

Thank you very much for your patronage.

## Mailer Says "Law 'n Order" Craze Aimed At Blacks

By Joe Walker  
(Muhammad Speaks  
New York Editor)

NEW YORK—There are far too few creative writers who are writing out of a sense of what contemporary life in the United States is all about and who explore it relevantly and honestly. One of the best of those who do is Norman Mailer.

WHILE MAILER was campaigning in his unsuccessful bid for the Democratic party's nomination for mayor of New York City, this MUHAMMAD SPEAKS correspondent conducted an exclusive and extensive interview with the Pulitzer Prize novelist and master storyteller of current events. This is the third and final installment of that event.

We talked about the New York Panther 21 case and Mailer said that it stinks, as does the also-pending case against 16 Black and Puerto Rican Brooklyn college students arrested in the middle of the night. Mailer has called on Mayor Lindsay (who has not responded) to order a thorough, independent investigation of both cases and circum-

stances.

He believes that when the Panther 21 case goes to trial, police provocators planted in the Panther ranks will surface. To date, the public knows none of the supposed evidence against the Panthers charged with conspiracy in the alleged plan to blow up department stores, police stations and the tracks of a commuter railroad.

Discussing the national crack-down and frameup of Panthers, Mailer observed that "the right wing in this country, and by that I don't mean conservatives but radical reactionaries, feel that the next four years (the Nixon years) are their years. Time is on their side for that time and against the other that, I think their main push will be to provoke episodes so that they can crack down in a massive application of 'law and order,'" he said.

THE AUTHOR of "The Naked and the Dead" and "The White Negro" predicted that there will be a record number of sensational cases of a provocative nature involving people on the Left in the next few years, and that most, if not all, will be "suspicious" in his mind. He also forecasted that in most of the upcoming "conspiracies and episodes," undercover cops will be the most active elements in the cases.

Well, what about law and or-

der? "Law and order is a euphemism for cracking down on Blacks," readily admits Mailer. "Mayor Lindsay probably uses it with more respect for the original meaning of the words than Procaccino (Democratic candidate for NYC Mayor), who obviously is using it to mean nothing other than racial crackdown. Nixon, I would suspect, falls between the two," he said.

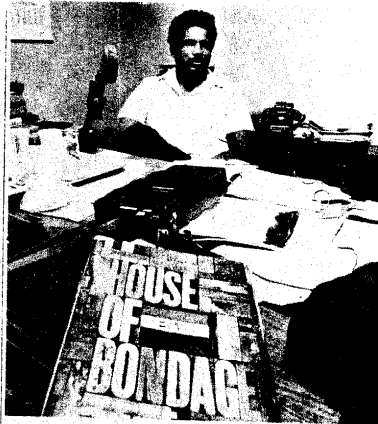

Mailer does not use "law and order" as an expression often. When he does, it is to point out that beefing up the police force doesn't mean more law and order but less.

"If you need a lot of police, it means you have a bad government," declared Mailer. "The worst the government is, the more police it needs to keep the people from rebelling."

TO HIS WAY of thinking, good law and order (in the original definition) comes when communities feel that they have something going for them. That is, even if mom and pop can't obtain the desirable life during their time, they are still willing to work at jobs that are not practically agreeable because they know their kids have a real opportunity to get it during their life-times.

When advancement possibilities don't exist in a society, often the most intelligent and sensitive

### See Population Boom In Cities

WASHINGTON — The greatest increases in population, jobs and income during 1979 will be in 28 urban centers whose populations range from 800,000 to 1.5 million according to figures compiled by the National Planning Association.

Other areas facing major booms are Washington, Houston, Minneapolis-St. Paul and the Los Angeles-Long Beach area.

Predictions also showed the far West would show the greatest gains in population and income.

## Mailer On Law, Order

(Continued from page 33)

youngsters turn to crime. Crime is an activity where a man of wit, boldness and ingenuity can succeed. "You can't have real law and order without a great and real society," insisted Mailer.

He is strongly opposed to the establishment by the Nixon administration of an anti-ballistic missile system. He indicates that the ABM comes at the end of a long chain of outrageous and costly expenditures in the name of national defense. In the years since World War II, the U.S. has spent \$1-trillion for national defense, over \$550-billion in the last 10 years alone.

A billion dollars is a sum hard to fathom. It is a thousand millions or \$1,000,000,000. A trillion dollars is a thousand billions or \$1,000,000,000,000.

**THE PROJECTED** cost of the ABM is \$7-billion (the budget of New York City is slightly more than \$5.5-billion, although it is bound to cost \$10 or \$12 billion, as it always does).

Mailer comments that some of the government's trouble with getting an OK for the ABM is because it couldn't get enough of its own experts to agree that it could function in any practical way and be more than merely a bonanza for the military-industrial complex.

"If a massive missile attack is made upon us," speculated Mailer, "any number of the invading missiles would get through. The options in offense are becoming greater and greater. There are missiles that have 10 warheads on them.

"Dummy missiles can be sent and there is no way for the ABM to distinguish. So they will go out and attack the dummies, and there will be enough other rockets coming in with 10 warheads on them, that fly off in different directions at different moments, that as a practical matter the ABM won't work."

**I INQUIRED** if the survival of New York City was not the key to the survival of the United States. Mailer isn't certain, notes that a lot of people feel that they can do very well without New York.

And though they might be right, he says the country wouldn't be the same without NYC. "New York City in a way is like the nerve of America," said Mailer. "If the City can't solve its problems and ceases to be habitable, then the whole nation is in for a sharp decline."

Before parting, I asked the noted and acclaimed writer his reactions to the new renaissance in Afro-American literature. He conceded he was not an authority about it and revealed that he hasn't read too much contemporary work of Black writers, though he plans to read more.

Still, he admires the work of LeRoi Jones and calls his "Dutchman" . . . "The best one-act play I have ever seen." He is moved by the writings of Eldridge Cleaver and states that if Cleaver had been given a chance for any normal development in the last few years, he would have moved quickly to become one of our great writers, "and indeed, he may still be," he said.

**NO LONGER** the fearsome ogres they were once thought to be, these two Black policemen—Anthony Jenkins (left) and Donald Woods of New York City, are doing what many fellow-Black officers are doing across the country—proving they are friends and protectors of the young and old in the

communities they serve. These two enjoy their ride with a group of youngsters of the Mission of Immaculate Conception, Staten Island, N.Y., during a recent outing at Palisades Amusement park.

## Blacks Speak Out At World Peace Conference

(Continued from Page 28)

**Itself-to deter man in his quest to be free.**

"We long for the day when the efforts of United States peace forces will result in new directions and positive responses by the U.S. government and its people to humanity's cry for redemption from poverty, racism and war. Though our sacrifices become increasingly burdensome, though our people, young and old, face the possibility of imprisonment, brutal physical tor-

ture and suffering, a new breed is developing in the U.S. who loves the human family more than the artificial circumstances of state and nationhood. We are the heirs of Martin Luther King's dream. The day will come when freedom, peace and security will ring—in the valleys of the world, and from the mountaintops of the Himalayas, the Rocky Mountains, the Andes and the Pyrenees! The peace forces of the U.S. and the world, through our sacrifices, can be-

come a beacon light, guiding us to fulfillment of the dream that man can conquer his inhumanity to his fellow man. And then peace shall reign throughout the world."

Later, at a dinner given by the U.S. delegation for the South Vietnamese patriots, a spokesman for the Far East freedom fighters said that never in Vietnamese history have the Vietnamese had so many friends in the world as they have now.

Addressing the peace delegation, he said, "You have understood the character of our struggle and you have stood up against the war waged by your government. That is really courage. From the bottom of our hearts let us tell you that we admire your courage and sincerely thank you."

"In the past we were colonized and dominated by the French until we drove them out

but today the friendship between the French and Vietnamese people develops everyday," he continued. "We have friends throughout the five continents but our friendship with you North Americans is something exceptional. The U.S. government has been massacring our people but the North American people are demonstrating remarkable bravery in opposing that war. The day will come when the present war will be ended and then the friendship between you North Americans and us Vietnamese will be able to flourish and last forever. Our friendship will go down in the history of mankind."

The Vietnamese representative said that there is the question as to who will be the victor after this war is ended. "The victor will be the ideas of justice and friendship and the Vietnamese and North American peoples," he said.

## D.C. Shooting of Black Man Recalls Alabama

By Leonie Kashif

(Muhammad Speaks, Washington Bureau) **WASHINGTON, D.C.**—Dewey A. Jones, a 29-year-old Black man was "a-man-with-a-gun." In police language that means "he is a dead man." Jones was in fact gunned down by D.C. police shortly after police squads converged on an alleyway in the 1400 block of New Jersey Ave.

**JONES ALLEGEDLY** turned and fired on Officers James E. Gaines and Willis A. Davis who were first to respond to "a man-with-a-gun" report. Davis, report police, was wounded in the exchange, but managed to get off six shots. Gaines was said to have fired twice. Jones, who was pronounced dead on arrival at D.C. General Hospital, had allegedly shot it out with a .22-caliber pistol, recovered by police at the scene.

For some time after the shooting police tangled with an enraged Black woman, who was thought to be the girlfriend of the slain victim. The scene was reminiscent of "Bull Connor's Alabama troops," of a few years ago. The shooting and the aftermath was given little press coverage for fear of provoking a civil disturbance, according to local news editors.

**FULL DETAILS** of the incident remain obscured at present. Davis, white, and Gaines, a Black man, have been placed on leave, pending a coroner's inquest.

## Auto 'Air Bags' Seen as Rough but 'Sound' Devices

DETROIT — The newest word whispered in automobile safety is "air bag." The "air bag" is a nylon bag stored in the dashboard or somewhere in front of the driver and rider to protect them from being thrown violently into the windshield in case of collision.

THE AIR BAG is a safety device approved by the secretary of transportation, John A. Volpe, as well as by the controversial consumer advocate, Ralph Nader; many auto engineers in Detroit like the air bag idea, also. Though described as a "cushion," the air bag hits with quite an impact when it is "exploded" and hits the car-occupant within .03 of a second, and it deflates in half a second.

The air bag is exploded into a "cushion" with the sound like a shotgun, which some critics thought might damage the ear drum, or frighten the driver into losing control, if accidentally discharged. In tests, however, this has not happened. When sudden impact discharges the air bag, it slams into the face, stomach, groin and thighs of the rider, to cushion his forward movement, at impact.

AFTER TESTS, some participants have noticed small cuts or welts, and some pain here or there which lasted a day or so. But this is negligible compared to the pain which occurs without such a cushioning brace, in thousands of auto injuries — or deaths — annually. There are 56,000 auto deaths in the U.S. each year.

Safety experts approve of the air bag because it is "passive," that is, the passenger has nothing to do for the automatic triggering of the safety device, which does so only when the passenger compartment decelerates at the sudden rate of hitting a solid obstacle with a certain impact.

RALPH NADER SAYS he would like to see more money spent on researching the device; Eaton, Yale & Towne, the manufacturer and researcher has spent \$1.5 million on it already. Sec. of Transportation, John A. Volpe, has expressed the hope: "I would think by 1972 they should

be a must."

The chief body engineer of Ford Motor Company, Stuart Frey, has said: "I'm personally rather high on the thing because of the involuntary nature." Others, more critical of the air bag, believe the "basic hang-up is reliability." The air bag has to work at all times, or it is a failure, perhaps a deadly failure.

## Peru Seeks Law Limiting U.S.

LIMA, Peru — Foreign Minister General Mercado has called for new legislative waterway restrictions against the exploitative economic wingspread of the United States, which would protect not only Peru, but much of South America, as well.

THE ANNOUNCEMENT, coming during the confab between Chile, Ecuador, and Peru, gave further weight to that conference, and the growing comaderie among South American countries against U.S. exploitation. The "call" came in order to present a united front when the nations meet with the U.S. over a 200 mile territorial water dispute concerning coastal waters.

The legislation he said, would mean greater "protection for South American waters from the massive and indiscriminate fishing dictated by the eagerness of large fleets for profit."

This latest move further enforces the strength of the Peruvian government, indicating their zeal for "Self-Determination" and backing up the April expropriation of the Standard Oil of New Jersey subsidiary, the International Petroleum Company.

## Don Perkins Trades Grid Play For Liberation War

DALLAS — Black athletes are prominently taking their place in the liberation struggle more and more all the time. Earlier this week, Don Perkins, one of the NFL's top backs, told the officials of the Dallas Cowboys: "I don't plan to report for camp. I have no immediate plans, but I have told them, I won't report to Thousand Oaks," he said.

MILLIONS of dollars is made each year off the talents of

THOUGH DON PERKINS (43) of the Dallas Cowboys is being ridden piggy-back style to the ground by Pittsburgh Steelers Brady Keys (26) in this gridiron tilt of past seasons, he is determined not to be similarly downed this or future seasons by money-hungry white promoters growing fat off the athletic prowess which he and other Black athletes have exhibited. For the second time (he did it in 1967, but recently), Perkins has served notice that he will not report to the Cowboys' Thousand Oaks camp for pre-season training.

"BOYCOTT McDONALDS" picketers gathered in Cleveland after firm repeatedly raised price on four franchises which were promised for sale to Black businessmen. One of the four prospective buyers was killed on his front lawn by unidentified whites. In re-

porting his murder, the Cleveland press refused to print the information that he was one of the men bidding for McDonalds and that his life had been threatened, according to his associates.

## Bigotry of McDonald's Hamburger Chain Answered by Expanding Black Boycott

(Special to Muhammad Speaks) CLEVELAND—Black residents of Cleveland have imposed a crushing boycott on five McDonald's restaurants in Cleveland after owners of the chain went back on an agreement to sell the restaurants, located within the Black community to experienced Black businessmen.

THE PRICE of each restaurant was put at \$180,000 at first. But after each meeting with McDonald officials and four prospective Black buyers, the price was raised.

Finally, the price was jacked up to \$250,000—a familiar tactic of whites doing "free enterprise" business with Blacks—and when the African Americans were still prepared to buy the restaurants, the talks were suddenly broken off.

The men who want to buy the restaurants (which do \$2 million worth of business each year) had announced that they would channel some of the profits back into the Black community, although they did not spell out in just what form this channeling would be done.

In response to the blatant bigotry of McDonalds—which has paid for several nationwide right-wing advertisements against the anti-war movement, the student movement, the Black revolution and so forth—the Afro-American community has boycotted the restaurants so successfully that they have all been closed down.

But to make the boycott even more effective, The Operation Black Unity united front has urged African Americans across the country to boycott McDonalds hamburger stands.

In a press release they said that McDonalds makes gigantic profits by selling small supped-

ly beef hamburgers in the major U.S. cities. Several of the men who want to buy McDonalds have received threatening phone calls, they said. And one of them, Rev. Ernest Hilliard, was shot to death on his front lawn a day before he was scheduled to meet with McDonald officials.

His wife, Georgia, told MUHAMMAD SPEAKS correspondents Love X Fugge that before dying Hilliard told her he had been shot by whites whom he couldn't identify.

Orvin Benson, a white owner

of one of the McDonald franchises, reportedly hit a Black picketer and sent him to the hospital. Love X told MUHAMMAD SPEAKS that Rev. Hilliard's associates say that Benson was one of the men who had threatened his life, according to Rev. Hilliard.

Mrs. Georgia Hilliard said that except for the McDonalds officials, her husband had no associations of a hostile sort with white people. The Cleveland press refused to include Hilliard's McDonalds connection in reporting his murder.

## UN Reports Tells Of Arab Survival Valour

(Continued from page 8)

dor Agha Shabir of Pakistan, trying to split Arab from Black Africa and Pakistan and India. Of the resolution coming from one of the world's highest tribunals, the Israeli representative said: "Just as we hope that Jordan will comprehend that military or political harassment will not sway Israel, we trust that it is evident that resolutions of the kind adopted at this meeting cannot affect Jerusalem's life."

And he concluded with a quotation from the Prophet Isaiah: "Jerusalem she shall be built, built for the glory of all who venerate her, for the bliss of all who inhabit her."

The Arabs and non-Arab Moslems who spoke for an open Jerusalem for their religion, too, and have as religious authority both the Qur'an and the Old Tes-

tament. They doubted not loud that Mr. Tekoa and his co-religionists have a monopoly on God. The Arabs believe that Israel is relying not so much on the Great Jehovah as on the U.S. F4 jet fighter-bombers, the French Misteres and the arms and weapons of West Germany.

But in the Security Council vote, representatives of all religions voted to restrain Israel, including the Soviet Union and the U.S.

This may be a battle of divinites for Mr. Tekoa, but to people here who are serious about the life of the United Nations, Israel is placing itself outside the law and shielding itself with words of the prophets.

## Find 'Truth in Lending Law' Still Allows Credit Gouging of the Poor

NEW YORK—The recently passed "Truth in Lending Law" provides a few nominal protections for the consumer, but the law's loopholes still allow unscrupulous lenders to gouge needy borrowers, who may be unsophisticated concerning lending procedures.

**THE LAW REQUIRES** that the house mortgages taken out show clearly the true annual rate of interest, including points and credit life insurance premiums. But it will not spell out the total dollar cost over the life of your loan.

A 15-year, \$20,000 mortgage at 10 per cent, for example, will not necessarily let the borrower know that he will pay \$18,686 in finance charges. If this mortgage runs for 25 years, the total charges will be a staggering \$34,322, more than the total principal. And at even higher mortgage interest rates, over longer spans of time, of course, credit costs are even steeper.

The law will require that any installment credit contract spell out all important details on credit costs. It will not control oral misrepresentations of credit costs by door-to-door operators who may persuade a person to sign without reading a contract involving steep credit charges.

**THE LAW WILL**, beginning July 1, 1970, put limits on garnishment of wages by creditors. It will not stop creditors from swift repossession and other vindictive tactics when a payment or two comes in late. And it will not stop unconscionable contract clauses waiving your legal rights in the event you are sued for default by your creditors.

Although the new law will provide stiff penalties for loan sharks who threaten or use violence to collect their high interest loans, it will not prevent these persons from charging as much as 45 per cent in annual interest so long as they refrain from violence. And the "juice" racketeers operating under the counter, who rake in an estimated \$350 million a year, will not

pay attention to the law, and will continue to extract their traditional interest rates running to 1,000-2,000 per cent and up a year. These hoodlums are now, and probably will remain, just about the sole source of credit for those who are forbidden credit by all legitimate lenders.

The law will not protect the ghetto dweller from many of the forms of credit gouging of which he is a victim today.

It will neither inform him of nor protect him from the steep hidden credit charges buried in the cash price of a TV set or a rocking chair or a household appliance he buys from an unscrupulous slum retailer.

**IT WILL NOT** protect him from prepayment penalties on high interest, long-term, low monthly payment installment contracts in which he finds himself trapped and it will not bar such terms in come-on ads as "easy credit," "instant credit," "your credit is o.k."

## Drive to Castrate, Sterilize Blacks In Africa

(Continued from page 28)

that was the last time Mrs. Mbangu or anybody ever saw him.

**THESE TWO** incidents are examples of the Nazi reign of terror which the government of South Africa has instituted in the Caprivi Strip.

Under the pretext of "looking for terrorists" who had allegedly "invaded" Southwest Africa from Zambia, the South African Army and Police had been rampaging all over the Caprivi Strip killing and arresting innocent men, women and children.

Since the beginning of these pogroms — for that's what they are — more than 2,000 men, women and children have fled into the Republic of Zambia as refugees.

gees. The number of those who died since mid-October exceeds 200 and those arrested are close to 600.

**THE NUMBER** reported missing can't be determined at all. Many have fled into the Republic of Botswana. The exodus of refugees both into Zambia and Botswana hasn't ended. The refugees tell horror stories of how South African army and police carry out their sadistic activities. On entering a village, they completely cordon off the entire village so that nobody could slip out unnoticed.

Next they arrest all men and all boys above the age of 14.

However, boys under 14 have also been arrested in many occasions. They are then carted off — like cattle — to detention camps which have been promptly set up all over the Caprivi Strip. Here, they are interrogated and those regarded as more dangerous flown to either Windhoek or Pretoria.

This pattern is not followed in every village. Since the beginning of the troubles in mid-October, 19 villages have been completely wiped out. In one of these one old woman was the

sole survivor. The methods employed in killing are most inhuman.

**THE MOST INHUMAN** practice however, is the castration of young boys. Refugees tell of how the police and the soldiers using a pier-like instrument with flippers, would crack like a nut, the delicate testicles of innocent boys.

As the refugees flee to Zambia and Botswana, they leave many of their friends and loved ones behind either missing, arrested or dead.

## New Muhammad's Mosque, No. 23-B, Scene of Grand Opening Celebration

ROCHESTER, N.Y. — Muslim followers of the Honorable Elijah Muhammad in the Flower City, joined with followers of Muhammad's Mosque No. 23, Buffalo, N.Y., recently to dedicate the grand opening of a new mosque in honor of Mr. Muhammad, the Last Messenger of Allah.

A veritable caravan of Muslims, travelling by bus and car from Buffalo, joined in jubilant celebration of the formal opening of Mosque No. 23B, which was highlighted by 19 new converts making known their acceptance of the life-giving message of truth as taught by the Lamb of God.

UNDER THE local leadership of Ministers John B. X, believers in this city were inspired to obtain a more beautiful and fitting house of worship in which to serve Allah under the instructive guidance of the Honorable Elijah Muhammad. Minister John B. X, had formerly served in the western and central New York area, reaching from Syracuse to Erie, Pa.

The occasion was also one of reflection that the teachings of the Messenger always to seek new avenues of progress are being kept. The new mosque is the crowning achievement of the local Muslims, who earlier had

founded such new businesses as the Brothers' Chicken and Fish Shoppe, Crescent Coffee Shoppe, Brother James W.'s Custom Tailors, Crescent Barber Shoppe, and Brother Melvin's bakery.

In addition a new captain of the FBI, Brother Jerome 2X, formerly of Washington, D.C., has set the pace for an increase in circulation of Muhammad Speaks in the Rochester area, as well as in the larger area bounded by Erie, Pa., and Syracuse, N.Y.

IN CONNECTION with the circulation rise, Brother Jerome announced the forthcoming establishment of a Muhammad Speaks office in both Buffalo and Rochester.

After a beautiful lecture by Minister John B. X, whose subject was "Man's Injustice in Rejecting Truth," Capt. Jerome awarded assistant Minister James 2X of Rochester a beautiful Stetson hat, and Brother Melvin 5X, Buffalo, a lovely shirt and tie, for outstanding work in aiding the progress of Muslims in both cities.

WHY THE MUSLIMS DID NOT PURCHASE THE GREEK ORTHODOX CHURCH, at 72nd Street and South Stoney Island Avenue, Chicago, Illinois... SEE NEXT ISSUE.

### U.S. Armed Forces Growth

Before the Second World War broke out in Europe, in 1939, the U.S. Army numbered 139,000, in the mid-30s.

WHEN HOSTILITIES began in Europe, the army was doubled to 288,000 men. By the Cold War year of 1950, the U.S. Army numbered 500,000 men. Today, it is three times that number: that is, 1,500,000.

### Racial Dilemma Worries Britain

In Britain a 5-year report on the nation's growing race problem calls the situation "profoundly disturbing." The real problem is that the caucasians of Britain, the Anglo-Saxons, are afraid that their "purity" may become tainted eventually because of the large numbers of non-caucasian, non-white human beings who have immigrated to the island, with a population of 40 million.

VOTERS IN NEWARK's South Ward registered a singularly important triumph recently, when they ousted Councilman Lee Bernstein from office in the city's first recall election... Bernstein, the voters declared had not responded to the needs of his Black constituency. The man who led Black voters to that proud victory—which has national implications and counsel for Blacks in other cities is HORACE P. SHARPER, shown here. The people's faith in Sharper was such that they voted him to replace Bernstein as councilman.

## The Messenger of Allah Presents

### What the Muslims Want

This is the question asked most frequently by both the whites and the blacks. The answers to this question I shall state as simply as possible.

1. We want freedom. We want a full and complete freedom.

2. We want justice. Equal justice under the law. We want justice applied equally to all, regardless of creed or class or color.

3. We want equality of opportunity. We want equal membership in society with the best in civilized society.

4. We want our people in America whose parents or grandparents were descendants from slaves, to be allowed to establish a separate state or territory of their own—either on this continent or elsewhere. We believe that our former slave masters are obligated to provide such land and that the area must be fertile and mineral rich. We believe that our former slave masters are obligated to maintain and supply our needs in this separate territory for the next 20 to 25 years—until we are able to produce and supply our own needs.

Since we cannot get along with them in peace and equality, after giving them 400 years of our sweat and blood and receiving in return some of the worst treatment human beings have ever experienced, we believe our contributions to this land and the suffering forced upon us by white America, justifies our demand for complete separation in a state or territory of our own.

5. We want freedom for all Believers of Islam now held in federal prisons. We want freedom for all black men and women now under death sentence in innumerable prisons in the North as well as the South.

We want every black man and woman to have the freedom to accept or reject being separated from the slave master's children and establish a land of their own.

We know that the above plan for the solution of the black and white conflict is the best and only answer to the problem between two people.

6. We want an immediate end to the police brutality and mob attacks against the so-called Negro throughout the United States.

We believe that the Federal government should intercede to see that black men and women tried in white courts receive justice in accordance with the laws of the land—or allow us to build a new nation for ourselves, dedicated to justice, freedom and liberty.

7. As long as we are not allowed to establish a state or territory of our own, we demand not only equal justice under the laws of the United States, but equal employment opportunities—NOW!

We do not believe that after 400 years of free or nearly free labor, sweat and blood, which has helped America become rich and powerful, that so many thousands of black people should have to subsist on relief, charity or live in poor houses.

8. We want the government of the United States to exempt our people from ALL taxation as long as we are deprived of equal justice under the laws of the land.

9. We want equal education—but separate schools up to 16 for boys and 18 for girls on the condition that the girls be sent to women's colleges and universities. We want all black children educated, taught and trained by their own teachers.

Under such schooling system we believe we will make a better nation of people. The United States government should provide, free, all necessary text books and equipment, schools and college buildings. The Muslim teachers shall be left free to teach and train their people in the way of righteousness, decency and self respect.

10. We believe that intermarriage or race mixing should be prohibited. We want the religion of Islam taught without hindrance or suppression.

These are some of the things that we, the Muslims, want for our people in North America.

Furthermore, we believe we are the people of God's choice, as it has been written, that God would choose the rejected and the despised. We can find no other persons fitting this description in these last days more than the so-called Negroes in America. We believe in the resurrection of the righteous.

6. WE BELIEVE in the judgement; we believe this first judgement will take place as God revealed, in America.

7. WE BELIEVE this is the time in history for the separation of the so-called Negroes and the so-called white Americans. We believe the black man should be freed in name as well as in fact. By this we mean that he should be freed from the names imposed upon him by his former slave masters. Names which identified him as being the slave master's slave. We believe that if we are free indeed, we should go in our own people's names—the black peoples of the earth.

Elijah Muhammad

8. WE BELIEVE in justice for all, whether in God or not; we believe as others, that we are due equal justice as human beings. We believe in equality—as a nation — of equals. We do not believe that we are equal with our slave masters in the status of "freed slaves."

We recognize and respect American citizens as independent peoples and we respect their laws which govern this nation.

9. WE BELIEVE that the offer of integration is hypocritical and is made by those who are trying to deceive the black peoples into believing that their 100-year-old open enemies of freedom, justice and equality are, all of a sudden, their "friends." Furthermore, we believe that such deception is intended to prevent black people from realizing that the time in history has arrived for the separation from the whites of this nation.

If the white people are truthful about their professed friendship toward the so-called Negro, they can prove it by dividing up America with their slaves.

We do not believe that America will ever be able to furnish enough jobs for her own millions of unemployed, in addition to jobs for the 20,000,000 black people as well.

10. WE BELIEVE that we who declared ourselves to be righteous Muslims, should not participate in wars which take the lives of humans. We do not believe this nation should force us to take part in such wars, for we have nothing to gain from it unless America agrees to give us the necessary territory wherein we may have something to fight for.

11. WE BELIEVE our women should be respected and protected as the women of other nationalities are respected and protected.

12. WE BELIEVE that Allah (God) appeared in the Person of Master W. Fard Muhammad, July, 1930; the long-awaited "Messiah" of the Christians and the "Mahdi" of the Muslims.

We believe further and lastly that Allah is God and besides HIM there is no God and He will bring about a universal government of peace wherein we all can live in peace together.

### What the Muslims Believe

1. WE BELIEVE in the One God Whose proper Name is Allah.

2. WE BELIEVE in the Holy Qur'an and in the Scriptures of all the Prophets of God.

3. WE BELIEVE in the truth of the Bible, but we believe that it has been tampered with and must be reinterpreted so that mankind will not be snared by the falsehoods that have been added to it.

4. WE BELIEVE in Allah's Prophets and the Scriptures they brought to the people.

5. WE BELIEVE in the resurrection of the dead—not in physical resurrection—but in mental resurrection. We believe that the so-called Negroes are most in need of mental resurrection; therefore, they will be resurrected first.
