

Says Devil's Education System Prepares Blacks to Spread 'White Superiority'

By Bayyinah Sharieff

The old white English house mother at the University of Khartoum, Sudan, had installed in my mind that I was different from my black Sudanese sisters; that I was from a superior order of civilization, and that it would hinder and disgrace my intelligence to befriend the Sudanese.

THIS IS, as the Honorable Elijah Muhammad teaches us, the successful pattern of the devil since he has been on our planet Earth: dividing brother against brother by the use of deceiving falsehoods.

Through the white man's system of education, the Blacks of Africa and Asia are taught that they are of a superior stock of black than the Blacks in America. The white man teaches them that they never have been subjected to slavery as the Blacks of America. They are shown only pictures of American Blacks who are poor, dirty and happy in servitude.

I recall a motion picture that was shown in the Sudan in which there was a scene of a funeral for a Black woman. This funeral included a brass band, with people dancing and jumping about singing as if they were rejoicing. Some were moaning and crying.

THE BLACKS in the film wore bright colors. The women wore extremely short sleeveless dresses with low necklines. The Sudanese students came in large numbers questioning me about this scene. The action of the Blacks in the film contradicted the general code of ethics of Sudanese society.

My explanation was that in times of slavery, when our people were subjected to very cruel treatment by the white man, our people looked forward to dying, hoping to go to heaven and find peace of mind.

This is an example of the type of movies that the white man is showing in Africa.

THE Honorable Elijah Muhammad teaches us that Africa was not known by that name prior to the time of Alexander the Great. Before the time of Alexander, the continent was known by the name of Asia.

The educated Blacks of Africa and Asia are educated to the way of the devil and are blind to the knowledge of themselves, much as we, the Blacks in America, were prior to the coming of Allah, in the Person of Master Fard Muhammad, to Whom praises due forever.

We in America were brainwashed into believing that Africans were cannibals, wild, savage people dancing only to drum beats and practicing strange

mystic ways; an uncivilized people, who had to be civilized by the white man before we could consider speaking to one of them.

All over the world the Black man who receives a university education, is educated the way the white man wants him educated. Even today, the white man takes the Black man away from his natural environment, Africa, and places him on foreign soil, surrounding him with alien people of opposite color and cultures—teaching him the civilization of the white man for a period of four to five years, at which time he is considered degreed in the way of the devil.

THE African then returns to

his people and country with the habits of the devil's civilization, which do not fit into his own country. He seeks Europeans in his own country with whom he feels more harmony, for he has now become addicted to the way of the devil. This is the idea of the white man who educates the African.

The so-called educated African is a made product, grafted by the devil into the European culture and is planted among his own people, to act as an agent to spread and make known the way of the white man. The Black man with the white heart is able to gather information about Blacks the white-skinned man is unable to obtain.

The Black agent, educated by the devil, spread the knowledge which he learned in Europe to his people, stressing the superiority of the European civilization.

HE EVEN helps to establish institutions to spread the teachings of the Europeans among his people. He also helps to assist and aid the Europeans to move in his country and to make his country comfortable for the European.
