

Mixed Relations

Points Out Penalty of Sexual Relations With Anyone To Whom He's Not Married

By Ed Wynn

The so-called Negro does himself and his people great injustice by taking part in sexual relations with anyone to whom he is not married. He weakens and destroys himself when he commits this act with a member of the white race. He opens himself to contract dreaded venereal disease and to being a carrier of this defomer among his people.

False statistics show the rate of venereal disease high among the so-called Negroes. This high rate is shown 1) because so-called Negroes who contract the disease go to public health stations or clinics whereas the average white man who has a venereal disease goes to a private doctor who does not record the disease, thereby surpressing this high disease rate among them.

Not Indigenous To Blacks

Quiet as it is kept, venereal diseases are not related to black people. It has only been since the advent of Marco Polo, Columbus, Admiral Perry and other white people who ventured into the blackman's land that the blackman contacted this disease.

The Indian and the blackman of Africa were free from this dreaded disease until they came in contact with white people.

The medical history is long with research that venereal disease had its origin in Europe and was carried by the white man and spread among blackman all over the earth.

White Man's Evils

Adultery and fornication leads to contracting venereal disease. Such illegal acts were established among the so-called Negroes by the white man. During slavery, whitemen all over America would have relations with black women who were their slaves. Many cases of venereal disease were contracted by the black slave women from these demoralizing acts.

DISEASES MIND AS WELL

The main cause of high patient population in mental institutions is venereal disease.

Venereal disease damages and destroys the brain. Chief drugs used in mental institutions are penicillin to arrest the spread of the venereal disease, and thorozin to give relief from brain damage.

Throughout the black world, high morals has always been the standard. Venereal disease and sex perversion has only come to The Black Man by his contact with white people. Venereal

disease came with the whiteman as he enslaved the black man in Africa, America and Asia.

Sex perversion came as the so-called Negro and other blackmen began to copy, imitate and follow the whiteman's society, custom and traditions.

World War II led to the general breakdown of the moral code of the black man. Many so-called Negroes who went to Europe came in contact with white women in Europe, began to practice their sex habits and return to bring sex perversion to black people.

Many illegitimate children were born from these acts. The white man has been the number one cause of illegitimacy in America and all over the earth.

A check of the blackman's neighborhood will show the half white and half black babies that are there. No sane white man will permit such illegal acts and births to take place among his own people. No sane black man should allow it!

Syphilis, one of the diseases transferred by illicit relations is galloping to new highs throughout the U.S.

Recent figures on increases city by city were released by Dr. William J. Brown, Chief, venereal disease branch, United States Public Health Service. Four cities, Long Beach and Oakland, Calif., Newark, N.J., New Orleans, La., and Seattle, Wash. have increases of more than 400 per cent in the 1960

MIXED RELATIONS NO GOOD ! ! !

(Continued From Page 32)

fiscal year compared with fiscal 1957.

Teens Most Often Victims

Dr. Brown indicated that much of the syphilis is occurring among teenagers and often in quarters where it would be least suspected.

Other cities that have a reported increase of 100 per cent or more are:

On the East Coast, Atlanta, 100 per cent; Jacksonville, Fla.; 115 per cent; Pittsburgh, 163 per cent; Philadelphia, 267 per cent; District of Columbia, 345 per cent; New York, 305 per cent; Miami, 368 per cent.

In the Middle States, Houston, 104 per cent; Chicago, 109 per cent; Fort Worth, 206 per cent; Dallas, 140 per cent.

Frisco In Lead

On the West Coast, San Francisco 157 per cent; San Diego, 180 per cent; Los Angeles, 274 per cent; Portland, 290 per cent.

Messenger Elijah Muhammad demands that all Muslims who follow him must restrict themselves not only to one partner in marriage but immediately cease the illicit associations previously acquired and maintained while practicing the Christian ethics of the land.

Followers of Messenger Muhammad have him to thank that they do not contribute to the astronomical evidences of a dultery and fornication listed above. Syphilis causes not only eventual degeneration of both body and mind but also deprives innocent off-spring of the chance to begin life on a firm foundation of health.

As it is written if a person cannot contain himself, "It is better to marry than to burn" in desire or the fire, the divine fire due America because of her treatment of the so-called Negro.
