

Pakistani Writer Says Muhammad Speaks A Living Tribute to Messenger's Genius

By Abdul Basit Naeem

(Part II. Part I appeared in the October 4 issue of this paper.)

For those of us who have regularly and faithfully perused MUHAMMAD SPEAKS' contents, that is to say, right from the first number of Volume One, the newspaper has been a "real" source of enlightenment and extra-ordinary information.

Thus it is, for instance, that most MUHAMMAD SPEAKS

Naeem

Likewise, we were aware of the latter-day Babylon's (America's) continual, albeit unequivocally illegal and immoral,

readers — inclusive of non-Muslims — knew of the "devastating gold drain and impending decline of the U.S. dollar" a good while before the "Establishment" cared to concede that the crisis even existed.

"snooping and electronic eavesdropping" operations in foreign lands or territorial waters long before the presence of her super-Spyship LIBERTY in eastern Mediterranean (where it was severely strafed by the Israelis during the latter's invasion of Egypt's Sinai Peninsula in June 1967) was officially acknowledged and the PUEBLO seized by North Korea last January.

Thus it is, again, that we are "not altogether ignorant" of certain significant events that are likely to take place, say, in 1970 and even five or ten years from now. Forewarned by the only divinely-raised leader of righteous men in our midst today—i.e., the Honorable Elijah Muhammad—many of us, especially the believers in ALLAH (God) and His Religion (ISLAM), are solemnly preparing to "face" and, in a way, look forward to witnessing with our own eyes the distant (would-be) "realities."

Curious as to the clues or specific references to same—to what I've recorded immediately

above? No problem! Please secure all the back issues of this newspaper and carefully and thoroughly review each and every statement of Messenger Muhammad printed therein. You will then see for yourself that contained in his writings are virtually a thousand "secrets" fully revealed—and more!

The seven completed volumes of MUHAMMAD SPEAKS can indeed be called a storehouse of ORIGINAL ("Asiatic," Black and/or Islamic) knowledge on several other grounds:

Available therein is abundant, excellent material on the history and glories of Africa and Asia, together with highly stimulating, accurate reports on the latest economic, socio-cultural and political developments there. Numerous features depict the lives of noted Black Americans, past and present, as well as "unsung Black men and women who have left their mark on America."

A substantial number of special, illustrated essays deal with

(Continued on page 17)

(Continued from page 16)

the delicate, yet no less important, subjects of MUSLIM WOMEN and "Our (Black) Teenagers and Youth."

For readers with specific interests, the past volumes of MUHAMMAD SPEAKS offer a large amount of information on science and technology; religion and culture; education; medical and dental health and hygiene; travel and a variety of business matters. On the "lighter" side—though not always on an entirely comical plane—there are some two hundred cartoons and other drawings by the well-known and accomplished MUHAMMAD

SPEAKS staff artist, Brother Eugene Majied, and the talented cartoonist, Bro. Gerald 2X.

All in all, the past volumes (Nos. I through VII) of MUHAMMAD SPEAKS constitute an extremely valuable "bit of Black Americana"—and, of course, another memorable and living tribute to the marvelous genius of its gracious founder and publisher-patron, Honorable Elijah Mu-

hammad.

The said completed works also reflect a great deal of sustained, earnest endeavor, dedication and teamwork on the part of all MUHAMMAD SPEAKS staff. May I therefore take this opportunity to extend to them, however belatedly—for "better late than never"—my sincere felicitations on their noteworthy and outstanding achievement.
