This supplement shows a small portion of the major improvements that have been established under Messenger Elijah Muhammad's leadership over the past twenty-one months at an accelerated pace in Chicago, and the farm areas of Michigan, Georgia and Alabama at a cost of Six million dollars in cash without any loans, grants, local, city, state or federal monies. This is just an example of a few people pooling their few pennies under wise leadership. The great and many benefits these few black people have received, the Honorable Elijah Muhammad desires for all black people (twenty-five million or more) in America.

There were purchases of buildings in other cities, providing legal services, schooling and other great achievements accomplished under his leadership. Messenger Muhammad's plans, with the help of Allah's, Who came in the person of Master Fard Muhammad, are for the immediate benefit of the black man—not in the "bye and bye" or years away in the future.
