

# THE WORLD PART 1

child, the child has received many "words." The images that the child sees are words going into the mind of the child.

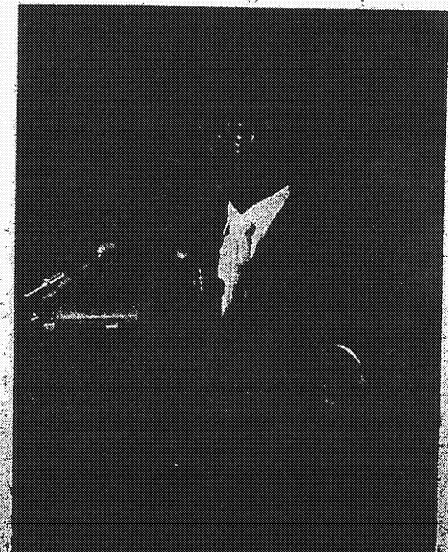

Everything in your environment is words speaking to your mind, forming you in the body. The books you read, the language of your parents, the talk you heard in the home, the words you heard in the streets, the physical things that you looked at and thought about, the physical things that you looked at and didn't think about are all words.

All these things have acted as words, gone into your mind, formed you, and they are forming you for as long as you live in this world. The process of making or forming human beings never stops, it goes on all the time. If you don't want yourself to be created in ill, weak, bad, ugly or diseased forms, you have to get wise to the language of the environment and start selecting the things that you want to go into your mind. All praises due to Allah.

Thank you for honoring us with your time to read these few words.

As-Salaam - Alaikum

W.D. Muhammad  
Supreme Minister

the empty vessel with a mind to rule and to dwell in the kingdom we call the vessel.

The Scripture tells us in clear language that we have been so far from the right track that we can't understand it even when we hear it. It says to us that in the beginning there was the Word and the Word took on flesh. What does that mean?

It means simply this: what comes into our flesh body when it is delivered from the flesh womb or body of our mothers is the thing that forms us in our flesh body and that thing was before our flesh body. When did man start thinking in the earth? No history tells us. When did the first thought come into existence? No history can tell us. So we, as an inward person or as a real person ruling in the flesh, have no birth record.

If you be patient and listen you will get an understanding.

## GOD, HIMSELF, MAKES US

You can be born identical twins and grow up to be more unlike each other than any other brother and sister in the family. It doesn't mean you're going to be alike because you're physically alike, although many times twins also look alike in their minds and in their spirits. That's because they liked each other and perhaps there was nothing happening in the house to make them dislike each other. But if one twin senses that the mother is trying to force it to be like its brother or sister, it will begin to rebel against this, knowing that it is an individual to.

It might come up resisting the influences that the other one accepts. The result will be that these people will be far apart as persons although they have been close as flesh. What does this tell us? This tells us something that might be too strange and too heavy for your mind to bear. It might be too foreign for your imagination, but it's the truth and you've been hearing it in the church all your life.

Allah the God, Himself, makes us. We are only born physically from our parents, but God Almighty makes us. He allows some of us to be made with different materials. He allows some of us to come up like our mothers and some to come up like our fathers. Some come up being neither like mother or father. Some may be like uncle or aunt or grandfather.

**IN THE BEGINNING WE WERE FORMED  
RIGHT**

Don't think of yourself as a physical creation, because you were before the physical creation. The physical creation comes up from the earth out of the earth. The earth produces minerals, plants and flesh. The earth produced your flesh so that you would have a place to dwell in, a place to come into.

In the beginning, we were formed right according to the Holy Quran and Bible. But we went off from that right way of thinking and began thinking foreign to the way of our very nature. Once you begin thinking foreign, strange, or unnatural, you begin to entertain foreign, strange and unnatural ideas and thoughts. What comes about when this happens is a new language. The Holy Quran and the Bible say that once the people were one people and their language was one language.

What does this mean?

It means that once they had truth coming to them. Once their society (their community) was filled with the language of truth. It was the language of truth that formed them in the vessel we call the physical body. So they walked aright because they were formed rightly.

But something happened and they went astray from the right course and lost their ability to speak right language. Their language was no longer the Word of God, it was the word of grafted Creation. When the word of the grafted went into the new vessel coming from its mother, it made a grafted person in that vessel. Jesus said that as a man thinketh, so is he. If we could take the time, we could show you and bring you to agree with us that every person is formed, created, or made in the physical body by words (language).

## SELECT THE THINGS TO GO INTO YOUR MIND

What do we mean by language?

Look at the number "1" and the number "2."

You may not call these words, but in God's Wisdom I am writing words. These numbers are seen as words even in the wisdom of the wise of this world. A word is that which brings a message to your mind. Everything that I am doing is bringing a message to your mind. You don't call these "words" but they are. What you're doing now is getting words.

When the baby comes from the mother, the eyes open and the baby sees something when the eyes are open. Without a word being spoken to the
