

Remake The World Part 2

Continued from preceding page and the great wealth that you have.

We can get up on the air and don't have to wait for any commercial airlines to take us. We get in our own jet, and take off when we get ready. We have our own Brother as a pilot. He is a man born and raised in the Nation of Islam. He's a jet pilot and he's a Captain.

Right now there's a problem in America of neglecting the aged. Many nursing homes have been exposed to be nothing but torture houses for the old people.

We have a million and a half dollars already put up that we are not going to touch until a nursing home goes up in Chicago for the aged. We also have a plan to build factories and we're going to build factories. We have plans to build a skyscraper.

We want a monument as a testimony for the presence of The Great Masters W. F. Muhammad and Elijah Muhammad among us.

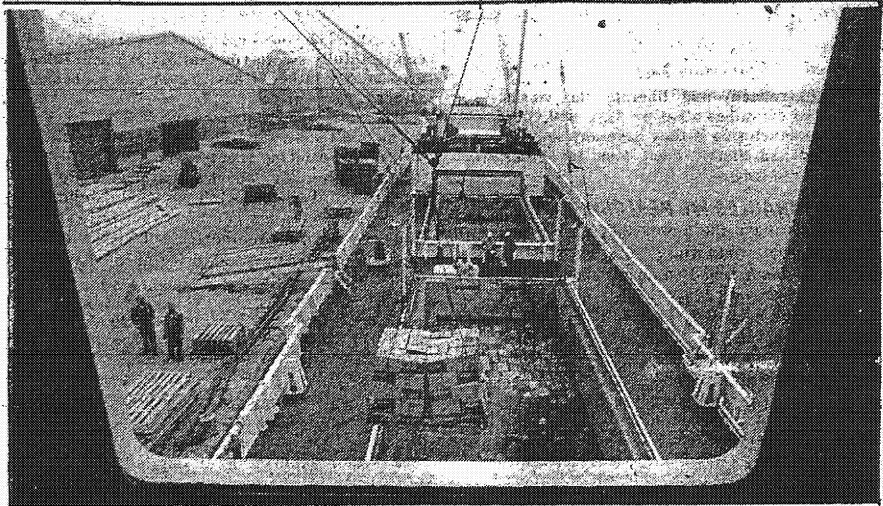

WE'RE NOT DEPENDING UPON ANYBODY BUT ALLAH

You may think that we are not going to do this, but I say that we are. The Honorable Master Elijah Muhammad said, "Yes, I am." They said, "No, he can't." He said, "Yes, I can." He did it and their mouths are shut now. What we're saying is going to shut your mouth, too, because we're going to make it a reality. We're not depending upon anybody but Allah to bring it forth.

"You need some help of people in the community to do it. You can't do it without their help." That's true, but their help is not in their own hands. Allah has the power to make them help against their will.

It says in the Holy Quran that Allah created the heavens and the earth. To bring into form planets, stars, and communities on the earth, God says to come willingly or come unwillingly. We see they're up there and we're down here.

That's a word of advice to you today, letting you

know that the same power has decreed that this good work must be done. God is saying to come into being willingly or unwillingly.

When you come into Islam and as you begin to understand our new language and learn to live this life, something happens to you that is truly miraculous. Some of you might think it's spooky but there is nothing spooky about it. Even your brain works better.

If you have been slow and dull, just stay around here and you'll get sharper. There's no such thing as a dead thing that God can't give life to. I don't care what it is, if He wants to give life to it He can.

THIS IS THE DAY OF SCRIPTURAL LIGHT

I don't know if you can hear Me or not, Mr. Pope in the Vatican. Tell all your bishops, your

churches, all the denominations and all your leaders: your Christ is here and if you don't recognize him your home will soon be left desolate. Not only will it be desolate, but it will vanish off the face of the earth. The time of scriptural darkness has come to an end. This is the day of scriptural light.

If they continue to try to uphold darkness, they will be wiped from the face of the earth (not with physical weapons) with the bright light of Truth. It is a light that acts as a fire and burns up falsehood.

Thank you for honoring us with your time to read these few words. Peace be unto you. In the greetings of all the Prophets from Abraham to Muhammad. As-Salaam-Alaikum.
