

Remake The World Part 2

Continued from preceding page

THE NATION OF ISLAM HAS BEEN FORMED BY GOD

We have to remake the world. Brothers and Sisters. If the job is not yours and Mine, tell Me somebody that's worthy to take this job. Nobody knows to what extent the world has been messed up better than you and Me because no other people have been messed up in it more than you and Me.

If the job were left to the Asian people, they could do it as far as Asian problems and understanding of those problems would permit them to go. If Africans were allowed to do it, they could go as far as African problems and knowledge of the cause of those problems would allow them to go. But nobody, Brothers and Sisters, have as many problems as you and I have had, and nobody understands what human suffering is all about like you and I know it.

Nobody on earth has been as emptied of everything that naturally should be a part of them as you and I have been emptied. How can somebody outside of us do a job of remaking the world as well as we could do it?

The Nation of Islam will come into this work with Divine knowledge of the proper use of the material graces. We won't misuse them. We have the right knowledge of how they are to be used. We are a balanced people and we have been formed by God, as the Holy Quran says, "In due proportions." We are not too heavy on one side and too light on the other. No, we have our Trinitarian makeup well in balance.

With the knowledge of the old world's bad judgment in the use of these material things, we will work for progress in all human fields. We will work against spiritualism and those dispositions and attitudes that work to corrupt the thinking and the mind of the people. We will work against the things that bring about further corruption of the whole society and end up in even the corruption of the physical environment.

WE WILL WORK FOR PROGRESS

When you study the growth of the grafted mentality, you find it growing. As it grows, it first corrupts the moral life of the people. Later you find that the intelligence (the mind, the intellectual body of knowledge) becomes corrupt. After it becomes corrupt and loses its power, lastly you hear the news that the air is poison or the lake is poison.

But look how it started. It started with the individual. It started with a community of people who were supposed to be responsible for the world community. They were supposed to be responsible to Almighty God, the Creator, to lead it right.

They gave us Christianity, they taught us democracy, and they promised us the blessings of Christianity and democracy. But what have they left us with: nothing. The Church failed and the institutions of learning failed. Now they want to reorder the institutions of learning and Church people want to translate the Bible again. They even want to let hippies help them translate the Bible.

They are in bad shape.

The material heaven that the democracy promised turned out to be nothing but a warning that we are moving closer and closer to our doom if we didn't reorder our world. We're going to kill humanity with industrial corruption and pollution. (This is what they say.) We're going to remake this world for them because we know where to go to start remaking it.

We don't go to his polluted environment; we don't go to his weak Church; and we don't go to his weak school system. We go to the individual from whom the design for the whole society from the very beginning was taken. We go back to the individual and start from a unit, add 2 to it, add 3 to it, and go on up to 9 and 10. Then we start adding zeroes and zeroes and pretty soon we will have something bigger than his. We will be on top of it all.

MUHAMMAD SPEAKS

Students at the University of Islam study Arabic, as well as other major world languages.

We don't have to hide anything. He's too far behind in Divine understanding to catch up. We can tell him where we're going and he still can't catch up. All he can do is watch us and wait for our movements to signal to him what he should do. With the knowledge of the old world's bad judgment and the use of the material graces, we will work for progress in all human fields.

MUHAMMAD IS THE LEADER FOR THE WHOLE WORLD

The growth or the evolution of prophethood from Adam to Muhammad is a movement from the raw, unborn man to the sophisticated, highly educated, civilized, Divine man. He comes from dust, from primitive society, learning how to clean his cooking utensils, how to wear clean clothes, and how to look after his physical health. He comes from that to a total human being. He has then grown in all the dimensions of the total man that God was creating.

Muhammad now stands up on the earth as the Crown of Creation. The whole world has to acknowledge that Muhammad is the Crown of Creation and that there is nothing in the creative world more royal or more regal than Muhammad. He is the Ruler and He is the leader for the whole world. God said in the beginning that He was going to make a ruler in the earth. He didn't say He made His man to live under other people.

I'm talking about God's man, now—not the one that conquered God's man and made a grafted man. God said that He was going to make a man from the dust of the earth (from the lowest of the people) and when He had breathed into him of His spirit (Divine Mind), the scientists of the world, the wise, the stiff-necked and proud who think they know it all and have been casting their wits against His revealed knowledge, they all must drop their books and bow down to His man. All praise is due to Allah.

THE BRIGHT LIGHT OF DIVINE

According to the Holy Quran, when the wise scientists were ordered to submit to God's man that He, Himself, had made wise with His own Mind, one among them said he refused. He wouldn't bow down to that which God had made from black mud fashioned into shape. He wouldn't submit to bow to God's man because he said that God had made him of fire and not mud. The Holy Quran says that the beings of fire, or the Jinn, were made before. (That is before the man was made to be the Crown of the Creation). The scientists of the world think that they have made themselves.

But they are blind children using our tools. The Jinn boasts that God made him before He made His man. The Jinn says that they were before Muhammad and that they will not submit to him. They say that they came up the hard way and they got their knowledge by their own efforts. They say they are not men of the spirit or Divine men, they say they are men of knowledge. They say they don't submit to any religious teacher and that no religious leader will tell them what to do.

"Fire" means a body of knowledge that is of the world. Men like to look at it and be near it because it gives them warmth. They use it to cook their food and to do things for themselves. They use it to light their world so they can see. We don't call electric bulbs fire, but they're fire too. If you don't believe it, go put your hand on one of them and you'll see how hot it is. The light of the world is also fire. The scientists have built their body of knowledge. They say that their knowledge is the light of the world and that they had it before this Muhammad came on the scene.

They ask how are they going to be told to submit to a religious man? They say that he preaches well and he might be sincere, but he doesn't have that much sense. "We're scientists." God says that nevertheless. He knows something they don't know. "I know that that you know not." After He had made His man and breathed His mind into his head, He told him to tell them (the proud, rebellious scientists) their names.

That means to identify him so he can see himself. Since God's man has His wisdom, he can now direct it to this rebellious scientist and tell him how he came into being and tell him what he has done to this world. God says to shine this light into his light, put out the scientist's light with the bright light of Divine, and destroy him with light. All praise is due to Allah.

MUSLIMS ARE IN THE BODY CHRIST

Brothers and Sisters, you are living in the time of the end of the old world and the making of the new world. You are welcome to come into the community of the New Jerusalem. The Muslims are now in the Body of Christ. You are the Second Christ. You are that Christ that was to come in the end. You have appeared out of the clouds of the darkness of this world and you have manifested as a bright light to light the whole world—north, east, west and south.

You have not been formed and returned to your glory after crucifixion and death just to sit around here and be a light to America. No, you're going to rise up so high that they will see your light all around the world. Believe it or not.

We have purposely carried this subject in the manner of a conversation or a private home-sitting where we are just sharing knowledge and experiences. We have done it that way purposely so that you will finish it with more knowledge and more understanding and so that you will finish it feeling closer to the members of your body in this one whole-body, the Body of the New Christ.

Brothers and Sisters, go tell the Church people that the Christ that they have been looking for to come down out of the clouds has already come down. Tell them in the words of their own Bible that it is not a flesh and blood body, it's a city, a whole community. We call it the Nation of Islam and it has many flesh members in its one body. Tell them they will not see any other Christ coming, this is the Christ. Tell them if they don't believe it, come to the head and find out.

CHRIST IS HERE

You have been told in the Church, and it has come down by tradition from generation to generation, that Jesus will judge the world and justify those who have been mistreated and abused in the world when he comes. That's our job and that's what we're doing. We are that Christ. You have also been told that when Jesus comes his light will be so bright that all eyes will see him.

There have been no people so spiritually, morally, and intellectually blind and dumb (void of knowledge) as you and I have been. Our coming into light is readily noticed by people all over the world because they have known us to be a spiritually, intellectually, and morally dark community.

But now Allah's light is coming to us and He has manifested His Presence in us. They see our light and our light is noticed by everybody all over the world. Everybody that sees this change that has come over us can bear witness. They say, "Yes, we must admit that they are a new people. We must admit that they have something special."

Already we have words coming to us from outside telling us that they recognize that we are
