## Remake The World Part 2

Continued from preceding page

the ones to redeem and liberate the world. Anybody that examines what we have will come to the same conclusion if they have any sense at all. Brother and Sister, don't look for Christ anymore. Christ is here.

### THE MIRACLES WE PERFORM

"Oh, do you have the power that Christ had? Can you turn water into wine?" Yes, while you've been reading this Article I've turned about a Lake Michigan of water into wine.

"Can you give sight to the blind?"

Yes, faster and better than we did 2,000 years ago.

Then people received sight and lost it. Today we give sight and it stays forever. "What about healing the lame; can you make crippled people walk straight without crutches?"

Yes, indeed, that's just a daily occupation with us. Everyday we're taking people off of crutches and making them to walk without limps. Do you see any Muslims walking down the street in a sloppy manner. No, Muslims walk upright and proud. We have been duly proportioned and we're in right balance. "Well, Mr. Wallace Muhammad, can you cure lepers?"

That's another daily occupation with us. We've cured more lepers with this Article than all the prophets cured in the whole history of prophets. I can prove what I'm saying. You don't know what "leper" means. One who has leprosy has white spots on his skin. White in the scriptural language means that which appears to be pure.

The Christian Church is really the house of the real lepers. They have leprosy: white spots that appear as purity, but it's really a disease. When we meet them and talk to them, we take away those diseased spots that appear as purity and we bring health back to them. That is removing leprosy from the lepers.

### I AM THE MANIFESTATION OF GOD

Some of you expect the return of the Jesus who "died for the sins of the world." You say, "God didn't make these sins." If you believe that, why should you expect God to come and undo the sins? If we made the sins, we can undo them. God doesn't have to come in a spooky form to undo our wrongdoing. All He has to do is to awake us to our wrongdoings and we will undo them ourselves.

You say, "Yes, but He has to do this through the Immaculate Conception. You don't believe in the Immaculate Conception?" Yes, I Myself am an Immaculate Conception.

You say, "This man is crazy."

No, I'm not crazy. You just don't know the language that you're using.

After we explain it to you, you'll know that I'm

### MUHAMMAD SPEAKS

not crazy. The world has just been in darkness. I can truthfully say to you that My physical father was not My father. I have never had a physical father.

"Oh Mister, now you know you're lying."

You don't know the "I" that I'm talking about. You're just thinking about My physical body. The "I" that I'm talking about is that part of Me that speech reveals of the Almighty God. Nothing of the physical creation can birth that in anybody. Only the Divine Creator Himself (Who is not Creation but Creator) can bring about that birth in a person.

You may say, "Who is your mother? Jesus had a mother?" Yes, and I do too. My mother is the Nation of Islam. The Nation of Islam gave Me food, clothing, and shelter. It took care of Me and protected Me until I grew up to be a man. I was born out of the womb of the mind that was at that time the mind of the Nation of Islam. But out of that womb, I grew up to be a man to become the head of that womb or that Nation of Islam that I was born out of.

You say, "Who is your father?"

Speaking in the language of the New Testament, My Father is God.

"Well, who are you?"

I am the Manifestation of God.

You might be silly enough to say, "I don't believe you're God. I believe I can kill you."

You also believe that they killed Jesus and you still say that he's God.

All praise is due to Allah.

### ACCEPT ISLAM

For our Brothers and Sisters who have not yet come into this body (the Body - Christ; the Lost - Found Nation of Islam in America), don't keep on fighting with your own self, rejecting the bright light of your own understanding. Don't keep up that foolish struggle in yourself. Accept Islam, the natural way of life for you and Me. Be prepared to do anything that you're asked to do.

The world will respect you and Allah will be with you. You'll gain much more by traveling this life than by traveling your own individual, selfish life.

The Nation of Islam is more important and more valuable to you than the world that you've been giving your all to. Pretty soon this Nation is going to grow to become so wealthy that all of its members are going to be wealthy. Nobody in this Nation is going to be poor.

"Oh, that's just talk, Mister. Anybody can say things like that."

There was a time when there were no well-off persons among us. Now we have many among us who are well-off and the numbers are constantly growing. In Islam you learn how to become wealth producers. The demand in the Nation of

Islam for trained technicians, highly skilled people, doctors in the field of education, and engineers is so great that we have to wait until they come in or until we produce them ourselves. We're ready to do the job but we just don't have enough workers.

### YOUR OPPORTUNITY IS IN THE NATION OF ISLAM

As Christ says in the Bible, "The harvest is ripe but the workers are few." The opportunity is not outside the Nation of Islam, the opportunity is here. That world out there has dried up. The only thing you see live on television today is foolishness. The knowledge of this world has dried up. When their leaders speak they have nothing to say at all. They have problems but they have no solutions. The economy is just at a standstill.

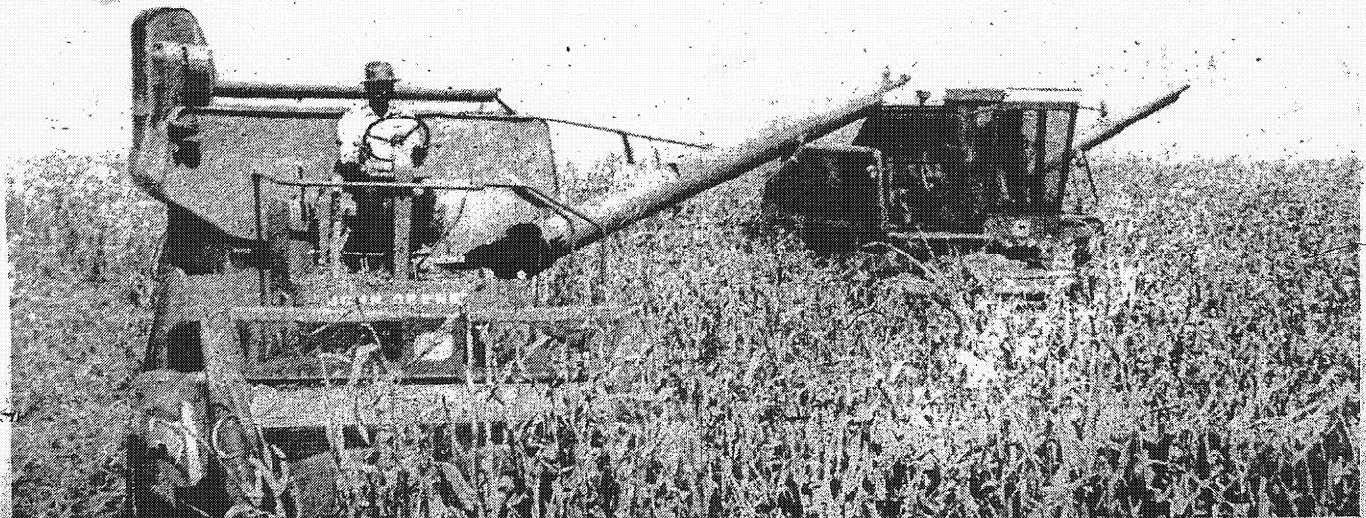

Employment is bad. They are promising this and promising that, but we don't hear anymore on the promise. Things just stay as they are. But the Nation of Islam is growing financially, the number in our employment is growing daily. This is not a bankrupt community, this is a new thing. If you have any sense about the business world or if you know anything about economics, you know that there is hope in new things. The wise people in business are always looking for new things developing in the field of economics and they latch on to them because they have promise.

If you want to invest your money and your energies in something, invest them in the Nation of Islam. This is yours. By all reasoning, this is the proper and the most comfortable place to make an investment. This is nothing but plain truth I'm giving you.

### YOU DON'T UNDERSTAND YOUR POWER AND WEALTH

We have acres of land with heavy machinery moving over it, preparing the ground and working the crops. We have ships coming in from out of the country bringing thousands and thousands of tons of seafood for our community. At the same time we have the business operation, every month kicking into new gears: rearranging and restructuring the office of business to accommodate another new and heavy volume of business work. We have people coming from across the ocean. They are coming in for the business of imports and exports, looking in on us.

I remember the time—and it was only a few years ago—when we would have thought it really something to have a white man who does as much shipping as we do to come into our community. Now you have that kind of power right in yourself and many of you don't understand the great power

AGRICULTURAL GROWTH is also included in the Nation of Islam's plan to set Blacks on the road to independence.
