Students dramatize proper education

The students, teachers, and parents of Muhammad University of Islam No. 2, Chicago, gathered recently for dramatically presented twin assemblies, honoring the life and hard struggle of the founder of the University of Islam; the Honorable Elijah Muhammad.

Hundreds of Black parents and students filled the spacious auditorium at the new, multi-million dollar school complex, each paying tribute to the hard work and brilliant leadership of the Divine leader, Messenger Muhammad. Messenger Muhammad—whose guidance and whose guidance alone—is responsible for this remarkable progress from the Black man and woman, when all other leadership has failed.

Messenger Muhammad has done more to advance the education of the Black child—with a third grade education—than all of the integrationist-oriented Ph. D.'s combined.

KINDERGARTEN GIRLS also salute their flag, and their Nation. Muslim girls held a separate assembly from the Muslim boys, allowing both to fully express themselves in a civilized atmosphere.

HAND PUPPETS made and manipulated by the young Muslim students were the characters in the entertaining program, coordinated by National Directress of Education, Sister Debra Fayzah.
