On Education

Students Recognized for Scholastic Achievements

By Sister Alberta 4X, R.N., B.S.

In the midst of confusion and turmoil in other educational systems, students at Muhammad University of Islam No. 2 continue to progress due to the guidance and leadership of Messenger Elijah Muhammad.

AWAY FROM rioting, picketing, and walk-outs by both teachers and students, they are able to study with no interruptions.

They are guided into the various learning processes by teachers whose primary goal is to increase the educational growth of the students. These teachers are united by the bonds of love for Allah and His Messenger, the Honorable Elijah Muhammad.

The students are acutely aware

of the need to have our own doctors, lawyers, nurses, teachers, engineers, pharmacists, chemists, etc. They are attempting to qualify themselves for these professional fields.

THEY REALIZE the work, study, and discipline ahead of them. At Muhammad University of Islam No. 2, the curriculum prepares them for this. Independent study and research is encouraged, and the more able students compete with each other.

The students must have a scholastic average of at least "B" to qualify. This is based on the grades received for class performance during the previous marking period.
