

The dog worshippers

By Jamillah Muhammad

It is ironic that it's so commonly said that "Dog is Man's best friend," when man has not yet learned to be the best friend of man. In this world our lives are in constant and ever prevailing danger due to the disunity, distrust, and enmity between ourselves and our own brothers. Don't we, then, look like fools, turning our love, our friendship, and our worship, to dogs and yet, can't show equal affection for self and kind?

Black people have been made by the (white race) worshippers of other than self and haters and rejectors of self.

Worship is extravagant respect or admiration for, or devotion to an object of esteem. Without knowledge of self and others we have turned our worship to our enemies, the white race. We have turned our worship to every race and tribe on the planet, having love for them and seeing beauty in them we can't see in ourselves. And now in our ignorance we have turned our worship to dogs and various other types of pet animals to keep as members of the family.

The Most Honorable Elijah Muhammad has taught his followers for years against the housing of such disease carrying animals in our homes for they are a direct threat to the health and safety of our families and it is not in accord with our natural laws of coexistence. We should think more deeply into the reason why the housing of domestic animals should rub against the very grain of the nature of Black people and is yet so much in accord with the nature of the white race.

Domesticate means to make

suitable for use or a place in the home.... to tame. It is the nature of the white man to 'enslave, domesticate, to tame, cage, and train, every being they are capable of subduing, human or non-human.

Look at the dogs of this society and see the level of humanity we have been lowered to. They present to us an image of what we have become, under the spell of the white man's tricknology. They are, as we are, bought and sold, bred and branded, whipped into submission, trained and leashed, and satisfied with a pat on the head and a bone from the master's table. They as we, are more loyal to their masters and have more love for their masters than they have for themselves. Just as white society trained the so-called Negro for their own purposes and usefulness, they have also trained their dogs for their own purposes and usefulness.

We should not look upon a dog as our friend but as the friend of our white enemies. But we have been made so mentally in tune with their nature and their way of life that we leap at a chance for the soul - soothing prestige of perpetuating his wicked rule, if over no more than a dog. The desire to be as they are was instilled in us at birth. We have patterned our whole life - style after theirs and now we have finally found a way to be a slavemaster too. In dog's we have found our own personal Negroes that we can buy, train, and breed... our own personal Negro that we can distinguish by class and classify the pedigrees, the mongrels, and the mutts... the vicious ones and the humble ones... the educated or trained and the unintelligent ones.

The dog worshipers

PART II

By Jamillah Muhammad

My Black brothers and sisters, wake up from this ignorance. When we become dog worshipers it shows that we suffer from a psychological or emotional illness and are really covering feelings of guilt and self-doubt.

It indicates that there is something lacking in your dealing and communication with people and you feel that this 'show' of kindness toward an animal will compensate for these short comings.

When you find yourself relying on the companionship of dumb animals, is it because your company is disagreeable to beings of higher intelligence?

Is it because a dog cannot hear with an understanding ear your ignorance and negative remarks, nor can it feel the sting of your superior attitudes and false pride, and cannot stand in judgment of you?

You feel secure and safe before the spiritually unseeing eyes of an animal and that's when you feel that dog is Man's best friend. In most cases we can ask, Why shouldn't they be?

Some of the same people who turn up their noses and are too proud to speak to human beings, who offer weak and diluted excuses for their arrogance and mistreatment of people, lovingly pet and cuddle animals.

Some of the same people

whose budget minimizes food for themselves and their children religiously feed their dogs on time every day and express resentment for serving their own families.

Some of the same people who take pride in the training of their pets let their children grow up and go out into society like wild animals for the lack of that home training so lavishly bestowed upon a dog.

Yes, many of the Dog Worshipers have come to treat people like dogs and dogs like people.

You Dog Worshipers....Why don't you come to grips with reality? You have NO excuse

for zoo keeping in your homes.

To prove how backwards you've become, some of you claim to keep these dogs for protection against harm from enemies and trespassers. It seems you take security in the protection of a d-o-g above the protection of G-o-d, the Supreme BEING, Whose Proper Name is Allah.

And while you think this dog is protecting you, who then, is going to protect you from the dog?

Besides being known disease carriers, infested with germs from the saliva in their mouths to the hair of their backs, we must understand

that if he will turn on one that you have determined to be an enemy, one day he may turn on you.

In this day and time we cannot predict what human beings, whose minds are of superior intelligence, will and will not do. Therefore, it would be foolish for us to think we can predict the behavior of dogs.

With all of the danger that surrounds and threatens us, we willfully bring this source of potential danger into our homes.

The dog is related in ancestry to the wolf which is a wild, fierce, flesh-eating animal, and he will instinctively eat your flesh. Of course Black people should be more aware of that fact than anyone.

As we trace back to the origin of this phrase, "Dog is Man's best friend," we find that it originally referred to the Cave man. The two were equal in their bestial nature and they got along like brothers.

The trained dog was his faithful companion and was used for hunting purposes and as a warner and protector against other animals.

The cave man's children used their dogs in a very similar manner through the sordid history of the Black man in America.

TO BE CONTINUED

A thank you to Senator Newhouse

We thank Senator Richard H. Newhouse of Chicago, Ill., the 26th SENATORIAL District, for his thoughtfulness in sending to us, The Nation of Islam, a beautiful bouquet of roses. May he continue to be successful in his endeavors for the good of Our People.

THE DOG WORSHIPPERS

Jamillah Muhammad

Part III

The blood of escape has flowed through our veins from the day that English slavetrader brought our forefathers to the shores of North America in chains. When the opportunity arose we fled from the bondage of the slavemaster, escaping from the wanton and vicious brutality, from the degradation of being placed on the level of a sub-human being. Then like wild game our brothers and sisters of four centuries ago were tracked down by teams of blood hounds following their scent, to be lynched and murdered by the white master.

At this point of our history were dogs the Black man's best friend? And what about today? Don't ever forget how German Shepherd Police dogs are savagely unleashed on our people, tearing at the throats of said violators of the white man's laws.

The keeping of such animals directly corresponds with the nature of the white race, because from their making they were characteristically related to these lowly creatures. They are so closely related, that in the hillsides and caves of Europe, amalgamation with dog's and

other beasts was a common practice among the cave dwellers. These unnatural practices resulted in the birth of many strange creatures, half-animal and half human.

To this day it is publicly known that white man's prostitution houses stage professional freak shows, performed with dogs and other animals. These are the public shows but these performances also go on privately behind closed doors as many cases have been reported of not only adults but children's activities including conjugal relations with dogs.

We must stop following the Dog Worshippers the white race. They are friends of theirs, not ours.

We as Black people have carried this nonsense a little too far. These animals are consuming food while many Black children are in the streets deprived, ragged, and hungry. Great medical expense has been gone to for animals while human beings are dying from the lack of such medical attention. Homes to live in, extravagant burial sites, expensive tombstones and caskets have been prepared for them while some human beings, in life and in death, can't expect as much. Great care is taken in the mating of pedigrees when we aren't as careful about the

mating of ourselves and our children.

The Most Honorable Elijah Muhammad has warned us repeatedly to get these filthy disease carriers out of our homes and away from ourselves and our families and at no time should you see animals of this sort in the homes of Muslims under the leadership and guidance of Messenger Muhammad. He has taught us that in the last days the dogs would turn on their masters and we are living in the last days. During the time of the white man's rule, 'master' was a comfortable position to be in. But 'master' is not so comfortable now because Almighty God, Allah is attacking and plaguing 'master' with all the forces and creatures of nature for the evil and injustice they have done to Black people. We did not share in their glory, so let us not share in their destruction.

Dog may be man-'kinds' best friend, because 'mankind' refers to the white race that were made 'kind' of like the real man, the Black man, who was here from the beginning. But they are not the best friend of man.

We must put an end to this worshipping of animals. Worship our God, Allah and Most Honorable Elijah Muhammad. They are our Best.
