The Woman In Islam gives daily praises to Allah for Messenger Elijah Muhammad.

She is well aware that had it not been for His coming and raising up His last and Greatest Messenger, The Honorable Elijah, Muhammad, laying the foundation to her Great Nation, The Nation of Islam, by teaching him Supreme Wisdom, Knowledge, and Understanding and giving her knowledge of her lost, degenerated self, she would never have become "The Woman In Islam"

The noble role given to her by ALMIGHTY ALLAH is outstanding. Upon her has been placed the task of setting true examples of dignity and high morals, for women of other civilized nations of the Planet Earth.

Prior to the spread of European rule into Eastern and Southeast Asian countries, their women knew nothing of such indecent dress as that of the European white woman. Now today, you will find them dressed in mini skirts, short pants, etc.

Therefore, the Great God, ALLAH, came to the Hells of North America and chose a lost, degenerated, downtrodden Black Woman called Negro to set her as an example of true virtue for women of other nations of the Planet Earth — after she was transformed by the teaching of HIS Greatest Apostle, Messenger Muhammad.

Allah gave Messenger Muhammad the depth of all his poor people's (so-called Negroes) hardships and sufferings; gave him

immeasurable love for them, and made Him their leader for the purpose of raising them to high civilization, total independence, and eventual rulership of the Nations of the Earth.

Upon His Coming, Allah found the Ancient Queen in complete ruination. Her body was disfigured due to the hard work and misuse. What once were high morals and self respect were completely made low. She had lost all knowledge of herself.

Not only had she been elevated above her Black man by her slavemaster; she was also performing his role. Knowing not the ways of a civilized woman, she had become buried in ignorance and immorality.

Training units were set up and named by Master W. D. Fard Muhammad, Allah in Person. These units were to civilize the American Black woman, and to bring her back into the knowledge of herself. Allah named these training units M.G.T. & G.C.C., meaning Muslim Girls Training and General Civilization Class.

In this class she was to be taught how to keep house, how to rear her children, how to take care of her husband, how to sew, cook and in general how to act at home and abroad. She was to be trained to face and fulfill her obligation as a woman.

Emphasis was to be placed on cleanliness and high morals. Also, she was to be taught proper dressing, posture, mannerisms, attitudes, and language. The highest principles of hygiene were to be carried out to insure good health of her family and self.
