

Messenger Teaches Us "Specifics Of History" As Relates To Present Needs

By Dr. Leo P. X. McCullum
 In an earlier column we started a discussion of the value of history. A question of some concern to us in attempting to explore this field was: Is it true that History is best qualified to reward all research? Our earlier column laid the ground work for our immediate answer of today which is yes, History is indeed qualified to reward all research if we qualify the word History by placing before it the word "true" which in the day and time we live in translates to God-given history—unchanged, unbridged and as authentic as God himself.

THIS HISTORY DIDN'T just drop out of the sky; it was carefully and thoroughly taught to our great historian of the day, the Honorable Elijah Muhammad. History must be relevant to the research if it is going to serve to clue the researcher in to what took place in the past, clearly demarcate it from the present, while yet relating it to today and then point in a direction for the future.

Thus, the Honorable Elijah Muhammad teaches us the specifics of history as they reflect the needs of the present. The awe-inspiring history of the cre-

ation of the earth and the moon by one of our great scientists, we have learned was not just hapstance—No! The Honorable, Elijah Muhammad instead has taught what God's IDEA was in creating the moon, and in it we have learned the relevance of today.

The Honorable Elijah Muhammad takes the histories so magnificently stored in both the Holy Quran and the Bible and proves indeed that God-taught history is indeed best qualified to reward all research for, says the Honorable Elijah Muham-

mad, "there is nothing that Allah teaches us but that it has not meaning and relevance to this great day and time in which we now live!"

There were many civilizations and prophets before today, states the Holy Quran in this manner "of some we have taught and some we have not" (speaking of the prophets) meaning that the histories of prophets and civilizations that are relevant to us have been taught to Messenger Muhammad.

Antibiotics From Milk May Prove Good Cancer Fighters

LINCOLN, Nebraska—Mother's milk—the most basic form of food for all developing mammals—may have some indirect—or direct—answers to cancer cures. Research at the University of Nebraska has unfolded the fact that milk bacteria cultures possess strong antibiotic properties which may prove useful in combating cancer.

ACCORDING TO Dr. Khem Shahani, a University of Nebraska professor of food sciences and technology: "Preliminary studies . . . showed that these cultures have very high antibiotic activity . . . (and) . . . produce a very minute quantity of anticancer activity." He further elaborates: "We are now trying

to isolate and concentrate that particular activity."

Through this is far from a cancer cure, Shahani spoke optimistically of the fact that certain milk bacterial cultures "appear to inhibit several types of tissue." This is what would be expected in treating a cancer development . . . to inhibit its growth.

Ten years ago research began with "lactobacillus acidophilus" cultures which demonstrated great antibiotic activity. Dr. Shahani says, "We tried to see if we could isolate this particular antibiotic." After three years, success was attained. The result was an extract called "acidophilin."

ISLAM IN TUSKEGEE

By SISTER ANNA KARRIEM

Throughout the many years, I have spent at Tuskegee and having been a student under numerous teachers, I cannot thank Allah (GOD) enough for having blessed me to become a student of His Beloved Messenger, the Most Honorable Elijah Muhammad. As I sat in my classes taking notes, listening, and observing, the knowledge given to me was limited, in that it could prepare me only for this society and its principles of civilization. When I addressed the students who gathered to hear the truth that the Honorable Elijah Muhammad

had given me to give to them, twenty-four hours after the meeting the white man (Devil) and his Black imps had assembled to decide how to stop "Sectarian Teachings" on the Tuskegee Campus. They were never successful at doing this. Yet, I now understand more fully what the Holy Quran means when it teaches that "HARD TRIALS ARE NECESSARY TO ESTABLISH TRUTH."

I DON'T BELIEVE anyone will disagree when I state that struggling grooms a person to such an extent that the breeze of success is soothing to the mind. I am reminded of the Christian

song that says "Nobody knows the trouble I have had." Surely the years in which the Messenger of Allah taught the Black man and Woman of America have not been free of hardships. However, the struggle has not deterred his courage, for he said in reference to making the Nation successful: "I AM DETERMINED BY MY ALLAH THAT I WILL NOT BE OUT DONE." He talks with business men from various fields of endeavor in his efforts to buy more land for farming, businesses and homes for believers. The Nation's ultra-modern printing plant and proposed hospital are prime examples of his tireless efforts to put into practice what he has been teaching us for 39 years — DO SOMETHING FOR SELF.

He, unlike any other so-called Negro Leader, never fails to say, "I love my people; God has given you to me. You will see that I am offering you the best." His accomplishments and works are so meaningful and divinely directed. If one should observe the manner in which he walks, you will see that his steps are not faulty; they are firm and with purpose. His mission has such divine direction that when an orthodox Muslim came to his home seeking to make him alter his belief in Almighty God Allah in return for money, he unhesitatingly said "I will never give up my Allah (God) Who Came in the Person of Master Fard Muhammad." Surely this is a sign to the true believer. All Praises are due to Allah.

The Woman

By Margary Hassain

ALL Praises Due to Allah (God) Master Fard Muhammad. We forever Thank Allah (God) for His Divine Messenger Muhammad and the Divine Message which he delivers to us and to the world.

THE WOMAN IN ISLAM comes into the World of Islam and out of the foul, filthy and defiling world of the white man and his false religion, Christianity.

THE Black Woman of America who reclaims her Own and becomes THE WOMAN IN ISLAM is like a new-born babe. After a new-born babe is separated from his mother; in birth, by the doctor, the first thing that has to be done is to bathe the baby and make him clean. As the baby grows older, the mother gives the child soap and water and other essentials and teaches the child so that he can bathe and care for himself.

SO IT IS WITH THE WOMAN IN ISLAM. Cleansing is a continuous process. With the Words

of Truth, Messenger Muhammad cleanses us spiritually and enables THE WOMAN IN ISLAM to wage a constant fight against the physical, spiritual and moral pollution of this enemy environment, the world of the white race and his filthy civilization.

MESSENGER MUHAMMAD teaches THE WOMAN IN ISLAM how to constantly care for her hair, her finger-nails, her face and her person in general. He clothes her in her Temple garments, a beautiful clean and shining white robe. It requires care in order to remain spotless. White symbolizes purity. Her garment keeps THE WOMAN IN ISLAM constantly reminded that she must ever cleanse and care for her person and her clothing.

THE WOMAN IN ISLAM heeds the Command of Allah (God) voiced through His messenger, "Wash and be clean . . ."

ALL PRAISES TO ALLAH (GOD) FOR HIS DIVINE MESSENGER MUHAMMAD! And the Divine message which he brings.

Blacks Unite for Survival In Cairo, Ill., Struggle

(Continued from page 11)

fired upon repeatedly and instead of state and local police moving to protect us, they have moved to further repress us."

Rev. Koen issued a plea for food, clothing and medical supplies to aid the Cairo people in withstanding the coming winter months ahead.

"We need food and clothing," he said, "because of our critical poverty."

"Our families work in the cotton fields for less than five dollars a day—for seven days a week. Our mothers work in the homes of white people, cleaning and caring for their children only to come home with less than \$24 a week.

"We are living in a city that has been declared first in poverty across the state by the Office of Economic Opportunity.

"A total of 4.6 per cent of all people, Black and white in Cairo, earn less than \$3,000 a year. Twenty per cent of all Black males are unemployed and 45.8 per cent of all housing has been judged sub-standard. The figures for 1970 will be worse."

THE 24 YEAR-OLD MINISTER said his organization is also asking that medical supplies be sent to the economically depressed area because of the "racist attitude of the local hospital toward Blacks.

"Two weeks ago, our youth director, Joyce Gilkey was shot in the head and hand and the next night, 16-year-old Swazey Vaugen was gunned down in the streets. We could not obtain hospital treatment for either of

these Cairo citizens.

"When state troopers beat our women and children during our march marking the sixth month of the boycott, we were called 'niggers' when we asked for treatment at the hospital."

On Saturday, Oct. 18, the United Front will hold its regional convention. Representatives from Springfield, Decatur, Peoria, East St. Louis and Carbondale will be meeting in Cairo to map plans for a concerted effort to pressure Illinois Governor Ogilvie to move to correct the economic blight and oppression in southern Illinois as well as in Cairo.

"WE KNOW that there is a conspiracy on a local, state and national level to keep repression and poverty on our necks in Cairo, Ill.

"But we also know that we are in slavery, therefore, we are determined to fight like men to gain freedom for our women and children even though we are faced with the threat of death from the racist white community."

NU-METHOD PEST CONTROL PRODUCTS & SERVICE
PROFESSIONAL PEST CONTROL SERVICE FOR HOME & BUSINESS

One job or yearly contract, fully guaranteed:
Manufacturer: NU-METHOD ANT AND ROACH KILLER: No insect can stay where NU-MRK is sprayed. NU-METHOD 3-WAY CLEANER. Get these wonder products from your favorite store.
